FOREWORD

Contrary to a widely held opinion, rearing Lepidoptera is not only an avocation of amateur entomologists and the most convenient process to get absolutely perfect specimens for pinning. Knowledge of the early stages is of the highest importance for the taxonomist as a source of information as useful as the study of adult morphology, from the specific to the suprageneric level. Scientific observations on living material reveal significant characters that can be crucial for taxonomic decisions; they are also of high significance in phylogeny.

As chances to make these observations in the wild, especially regarding exotic species, are unfortunately few, the only way to observe living insects and to know more about their biology is to rear them. Rightly or wrongly, silkworms are reported to be relatively easy to rear and most of them will reproduce in captivity. This, in addition to their spectacular appearance, is among the reasons for their popularity, and it explains why they are probably the most commonly reared Lepidoptera.

The rearer has to face two main problems, each of about equal importance. The first consists in recreating for the insect, at the different stages, ecological conditions as much as possible resembling those in nature; the second is to supply the larvae as soon as hatched with plants in accordance with their feeding requirements.

Searching for and selecting acceptable foodplants becomes a rather ticklish matter as soon as one attempts to rear nonindigenous species or exotic ones, which are not among the most commonly available from dealers. When larvae hatch, it is necessary to find out how to feed them in the shortest time, at any rate within the first 24 hours. At this point it is too late to rush to libraries to consult a wide range of literature, and there is no other method than to supply the young larvae with a bouquet of foodplant choices and hope for the best.

Such hypothetic researches and hazardous experiments will be in most cases avoided thanks to a comprehensive work as easy to use as the one presented to us here by Stephen E. Stone under the auspices of The Lepidopterists' Society. Over 500 species and subspecies, more than one-third of the known Saturniidae, are cited with their foodplants; thus I have learned that more than 250 species can be reared on plants to which I easily have access in my region.

This world-level compilation necessarily required quite an amount of meticulous bibliographical research; the impressive number of references is in this respect quite significant. However, this work is not only a compilation; many of the previously unpublished records are directly attributable to the author, himself an experienced breeder, and to his own observations of the North American Saturniidae in their natural habitats.

Of course, as explained by the author himself in the Introduction, it could not be expected to have at the first go an absolutely complete account of all reared species and their foodplants, mostly owing to sparseness of the publications. Moreover, many breeders are unaware of the interest of their observations and do not take care to record them; so many data have never been and never will be published. But, such as it is, the catalog is extremely substantial, and it seems improbable that any really important publication was overlooked.

A critical examination would probably reveal a few inexactitudes in the family-group taxonomic treatment, but this is quite excusable because the nomenclature is still wavering in many genera of Saturniidae; the present work would have remained unpublished for many years if delayed for the completion of the desirable revisions.

If reservations were to be expressed, they would bear on the absence of distinction between hosts in captivity and foodplants in the wild, especially when these are known with certainty, as from recent publications by Daniel Janzen on the Saturniidae of Costa Rica to which the author broadly refers. These two categories of hosts are quite different from an ecological and evolutionary point of view; that somebody has once successfully reared one species on an occasional host in the laboratory is of little significance if compared with a foodplant record in nature. Moreover, rearers very often forget to specify if captive foodplants have produced adults, and to report the percentage of mortality.

These remarks do not diminish the value of a publication that will certainly remain the saturniid rearer's reference manual for many years. This world-level account of foodplants of saturniid larvae will be useful to biologists and to ecologists as well as to amateur entomologists, and it will definitely stimulate scientific research in a still underexplored field of entomology.

I take great pleasure in warmly congratulating Stephen E. Stone, and wish to thank The Lepidopterists' Society for the initiative it has taken in publishing this fine work.

Claude Lemaire
Gordes, France

PREFACE

The embryo for this "catalog of larval cuisine" germinated some time ago and consisted of a few notes jotted down on odd scraps of paper. I have always loved nature and all things natural, and I was fortunate as a child inasmuch as my parents recognized this predilection and did everything possible to nurture what eventually became a career in the natural sciences. With a 1978 move to Denver, Colorado, and an immediate discovery of a huge urban population of *Hyalophora cecropia*, my general insect collection experienced a rapid evolution focussing exclusively on the Saturniidae. I wanted to learn as much as possible about this exquisite group of moths, but was frustrated because I did not even know where to start. Unquestionably, the winter of 1979 was a most fortuitous period for me — I met, via correspondence, Richard S. Peigler, then a Ph.D. candidate at Texas A&M University. Without delay, Ric informed me of an organization whose membership was concerned with study of Lepidoptera, The Lepidopterists' Society, an organization I promptly joined. Within a few months of my initial contact with Ric, I was introduced to Michael J. Smith, an Air Force major stationed in Tucson, Arizona. Both of these gentlemen have considerable experience collecting, rearing, and studying saturniid moths. With meticulous patience and painstaking detail both Ric and Mike explained there was more, much more, to conducting research on Saturniidae than my then "stamp collector" approach — a bunch of pretty silkmoths neatly arranged in a display case — and one of the best ways to acquire specimens was to rear them. Rear saturniid moths, what a novel idea; actually plant trees and shrubs in my back yard for the sole purpose of rearing moth larvae — build an insectary! My fires were fueled and a corner of the yard selected.

Next came the question of what to plant. I hoped to rear saturniids from various parts of the world, which translated directly into a variety of foodplant species. In my quest to define which foodplants to cultivate, I consulted Crotch (1956), Villiard (1969), Ferguson (1971-72), and other references focussing on moth biology, rearing, and foodplants. Based on this research, it became apparent that larval Saturniidae feed on a considerable assortment of primary foodplants, and many saturniids will accept an even broader spectrum of alternate foodplants. This was valuable information because Denver, Colorado, is in the high plains of the Front Range physiographic province just east of the southern Rocky Mountains. Environmentally, Denver is a high plains desert with winter temperatures not uncommonly recorded between -30°C. and -35°C. Snow and freezing temperatures have been recorded as late as early June and as early as the second week of September. These winter temperatures precluded flora that could not tolerate cold climates, such as tropical and hot desert species. In order to rear saturniids from these habitats, I either had to build a very large greenhouse in which to raise primary foodplants or find alternate foodplants that would survive in a high plains desert environment. Alternate foodplants are much easier and less expensive to purchase and maintain than a large greenhouse. This mandated that the insectary be designed with alternate foodplant species as a priority. Therefore, I selected, for the most part, species

I consider rather generic foodplants upon which I could hopefully rear saturniids from the world over. These plants include various species of *Ceanothus* and *Rhamnus* (RHAMNACEAE), *Crataegus*, *Prunus*, and *Pyrus* (ROSACEAE), *Fraxinus*, *Ligustrum*, and *Syringa* (OLEACEAE), *Gleditsia* (FABACEAE: CAESALPINIOIDAE), *Pinus* (PINACEAE), *Populus* and *Salix* (SALICACEAE), *Rhus* (ANACARDIACEAE), *Tilia* (TILIACEAE), *Viburnum* (CAPRIFOLIACEAE), and, of course, the ever present *Quercus* (FAGACEAE). Occasionally I have an opportunity to rear saturniid species that will feed only on peculiar foodplants that will not survive outdoors, and for those special occurrences I baby the larvae along on potted plants maintained in my study.

I collected and reared local saturniids and exchanged livestock with other members of The Lepidopterists' Society. Rearing saturniids is a fascinating venture, and I began keeping personal notes on the species I reared — what foodplants various species would accept. I also started a serious search of the literature seeking more records of saturniid foodplants. The notes were pinned to a cork bulletin board in my study. In a short time the bulletin board was obscured with notes and pins so the notes were sorted, organized, and incorporated into a notebook. Writing notes in a permanent log is a fine way to keep information, but with the addition of copious new records it very quickly became difficult to find specific records of who eats what with any degree of alacrity. Enter the computer age. All my records were entered into a "Bugfood" file where they could be alphabetized, indexed, and quickly found through the search feature. After a few years the file grew quite large and many fellow rearers were seeking my advice on what foodplants to offer various saturniids. It occurred to me it was time to publish this compilation.

Stephen E. Stone
Aurora, Colorado

ACKNOWLEDGMENTS

A comprehensive catalog such as this would not be possible without the collective efforts of many individuals. Thanks must be expressed to those from whom I received personal communication and freely shared rearing information and assisted with literature searches, especially B. C. Kondratieff (Colorado State University, Fort Collins, Colorado), B. Lym (California Academy of Sciences, San Francisco, California), S. Naumann, P. A. Opler (U. S. Fish and Wildlife Service, Fort Collins, Colorado), R. S. Peigler (Denver Museum of Natural History, Colorado), D. C. Sblendorio, M. J. Smith (Research Associate, Nevada State Museum and Historical Society, Las Vegas, Nevada), J. P. Tuttle, B. D. Williams, and K. L. Wolfe (Field Associate, San Diego Natural History Museum, San Diego, California). All these individuals very kindly devoted considerable time and effort to this treatment. For reviewing the manuscript and offering creative suggestions on content, format, and style, gratitude is expressed to J. N. Borland, B. A. Drummond (Natural Perspectives, Woodland Park, Colorado), C. L. Fischer and J. F. Haman (National Park Service [NPS], Denver, Colorado), C. Lemaire (Correspondent de Muséum national d'Histoire Naturelle, Paris), J. E. Rawlins (Carnegie Museum of Natural History, Philadelphia, Pennsylvania), M. J. Smith, P. M. Tuskes, and an anonymous reviewer. Appreciation is extended to G. F. Russell (U.S. National Herbarium, Washington, D. C.), J. N. Borland, and S. G. Gignac (Denver Botanic Gardens, Colorado), for assistance in locating botanical references. I am particularly indebted to J. E. Rawlins for the many hours he contributed to ensuring the botanical nomenclature is the most current and accurate as possible. I am extremely grateful to L. D. Simon and K. L. Wolfe for providing the excellent photographs illustrated in the Frontispiece. I am deeply indebted to J. Cody for the superb cover illustration. The expertise and endurance of G. A. Jarvis (NPS), a veritable computer wizard, must be acknowledged for, in a very real sense, this catalog would not be possible without his good help. Sincere appreciation is also extended to E. A. Janes and M. L. Miller (NPS) for their continuing support. Finally, I thank my wife, K. J. Stone, for her enduring patience and sensitivity during the long hours I spent on the computer preparing this catalog.

INTRODUCTION

This effort is an attempt to compile a compendium of known foodplants of world Saturniidae, including laboratory-produced intergeneric and intrageneric hybrids. The family Saturniidae is an immensely popular group of Lepidoptera intensively studied by workers throughout the world. Both seasoned veterans and fresh beginners find innumerable rewards from rearing these fascinating animals. Many saturniid species are well known, and living material is easily accessible through personal collecting, exchanges with others, or from a variety of commercial sources. The biology of the more popular species has been chronicled through decades of intensive study and research, and many of their foodplants are well documented in the literature. Living material of other species is less frequently available, especially those species found in the more remote or inaccessible areas of the world. The documented biology of these latter species is correspondingly limited.

Foodplant sources in this catalog include published records and personal experiences of the author and others. Only foodplants resulting in at least one adult moth are provided. Published citations and personal observations of larvae *rarely* feeding on a specific foodplant are also provided. Such foodplant citations are preceded with a "?".

Saturniid foodplant records have been published in many languages in an assortment of journals, monographs, and other publications, some of which are obscure, difficult to locate, and more often than not discuss a single species or small group of species. Based largely on Crotch (1956), Gardiner (1982) compiled a list of world saturniid foodplants. That list contained much information, but many references published before that date were overlooked (or not cited) and considerably more saturniid foodplant information has accumulated since that time. Together with unpublished records, the present catalog integrates information from recent publications as well as from older, relatively obscure papers.

It is not the purpose of this catalog to produce a bibliographic recital of all authors citing the same foodplant for individual saturniid species. Such treatment would be redundant, consume enormous space, unnecessarily burden the "References Consulted" section, and detract from the principal theme — to provide a useful, readily accessible foodplant guide for rearing saturniid larvae. Further, no attempt has been made to substantiate or refute the validity of published foodplant records. Such documentation would require rearing each saturniid species on every recorded foodplant. Obviously, rearing on such a grand scale is not possible. However, it is important to remember that not all larvae from all populations will always accept each foodplant listed in this catalog. As an example, in nature *Hyalophora columbia columbia* larvae are, for the most part, found only on *Larix laricina*, a deciduous conifer. However, on occasion, in the laboratory, I have been able to rear *some* individuals of *some* populations of *H. columbia columbia* larvae to adults on *Prunus*, *Salix*, and *Pseudotsuga*.

This catalog is divided into two main parts. The first is arranged alphabetically by saturniid genus and species, each species followed by known larval foodplants. Added to this is a list of intergeneric and intrageneric saturniid hybrids and the foodplants on which they were reared. The arrangement of foodplants listed after each saturniid species is not random as appearance would suggest. While conducting research for this catalog, I noted that each author had a distinct way of listing saturniid foodplants. As an example, Tietz (1972) and Arora & Gupta (1979) alphabetized foodplant species, Janzen (1984a) mostly lists foodplants alphabetically by family, Ferguson (1971-72) effectively weaves the list of foodplants into the general discussion of moth biology, as do Cryan & Dirig (1977). Occasionally, however, Ferguson (1971-72) fluctuates between apparent randomization and listing foodplants in approximate order of larval acceptance as in his discussion of *Antheraea polyphemus polyphemus*. Crotch (1956) and Gardiner (1982) cite foodplants in what would appear to be a truly random order. In this present catalog, foodplant citations following each saturniid species closely follow the order of each cited author. The second main part is wholly alphabetical in arrangement and is arranged according to genus and species of foodplants followed by the saturniids that are known to feed on each species.

No attempt has been made to distinguish between foodplants found in nature and alternates used in the laboratory. Although it would be useful, many foodplants cited by authors as being used in nature are, in fact, human-introduced "exotic" species that native saturniids have exploited and would not otherwise use. While many references consulted for this catalog do distinguish between foodplants used in nature and those used in captivity, other publications do not, and it is beyond the scope of this effort to speculate between laboratory or naturally occurring saturniid foodplants.

During research for this catalog it became apparent that some authors cite foodplants using only vernacular names. Many such names are local or regional in origin and are not associated in print with scientific names. Because of this, Appendix I has been furnished to provide the more frequently used vernacular names of some saturniid foodplants. It is not always possible to do this because many plants may not have a vernacular name or if a vernacular name exists, its use is local and not always in print. To further confound the vernacular name problem, often a single species or genus will have different vernacular names in different parts of the world, or a vernacular name will encompass a whole genus, a number of genera, or an entire family — hence the value of the scientific name to identify a specific organism. Vernacular names of foodplants have been obtained from a variety of publications, which are listed in the References Consulted section.

Taxonomy is a dynamic science and research brings change. Regarding saturniid subspecies, a particular subspecies may not have always been cited by previous authors or those from whom I received personal communications, or new subspecies may have been described since a foodplant record was cited for the species in question. As an

example, Packard (1914), Villiard (1969), and Ferguson (1971-72) discuss *Rothschildia orizaba* and provide foodplant records. Lemaire (1978) established the *R. orizaba* species-group which includes *R. orizaba orizaba*, *R. orizaba uruapana*, *R. orizaba triloba*, *R. orizaba equatorialis*, *R. orizaba cauca*, *R. orizaba peruviana*, and *R. orizaba meridana*. *Rothschildia orizaba* records prior to Lemaire (1978) are collectively presented as "*Rothschildia orizaba* (Westwood) ssp." I have used this unified approach for all saturniids where the historic subspecific identity is questionable. Additionally, in some instances, fairly recent taxonomic revision may incumber readily locating some saturniid species previously well known by a historically used if not incorrect name; such revisions include subspecies, species, and, in a few instances, an entire genus. Since previously published foodplant records cite these long-used and familiar names and this present work follows the current taxonomy, it seems worthwhile to provide direction for revised names within the text. This is accomplished by listing the species under its familiar name followed by the most current name and the citation from which the current name and synonymy may be traced. An example is "*Automeris aurantiaca* Weymer - See *Automeris naranja* Schaus ssp. (Lemaire, 1971-74: 300)."

Instructions or advice on how to acquire, collect, or rear saturniid moths is not provided. This information is well chronicled in numerous other references such as Galtsoff *et al.* (1937), Villiard (1969), Riotte & Peigler (1981), Gardiner (1982) (which is based heavily on Crotch, 1956), Peigler (1989), and would needlessly take up space in this catalog.

Omissions of published records will undeniably be found. However, as with any bibliographic investigation, a compilation of every saturniid foodplant record ever published would involve a search comprising several lifetimes. A line of demarkation has to be drawn somewhere, and this catalog includes all references (both in the printed record and personal communications) that I could find through a search of several years. Obviously, a list such as this will never be complete; it is assumed a continuing search through existing and forthcoming literature as well as input from workers rearing saturniids will constantly generate new foodplant records.

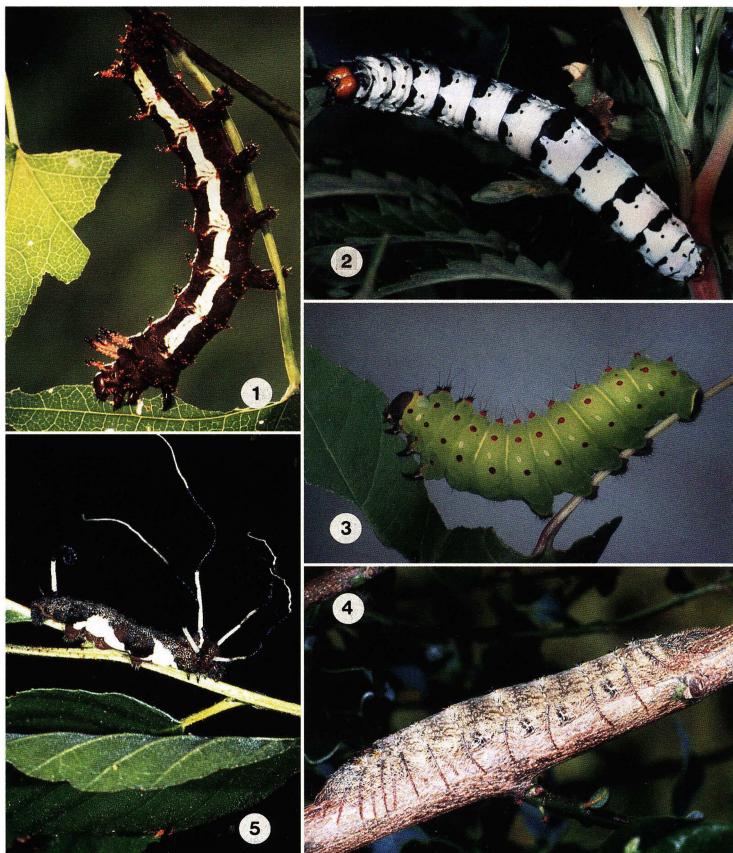

Nomenclature of New World Saturniidae follows the work of Lemaire (1971-74, 1978, 1980, & 1988). Nomenclature of Old World Saturniidae generally follows Bouvier (1936) with some revisions by Lemaire (*pers. comm.*).

Finally, the United States Department of Agriculture (USDA) regulates the importation of living organisms, including saturniid material, from outside the United States. Such importation requires the recipient to hold a valid import permit. Before receiving living material from outside the United States it is advised to contact your local USDA office for the proper permits.

FOODPLANTS OF WORLD SATURNIIDAE

FRONTISPICE

1. *Citheronia beledonon* Dyar, MEXICO: Cuernavaca, on *Liquidambar styraciflua* (HAMAMELIDACEAE) (photo, Simon, L.).
2. *Eochroa trimeni* Felder, SOUTH AFRICA: Namaquland, on *Melianthus dregianus* (MELIANTHACEAE) (photo, Wolfe, K. L.).
3. *Actias truncatipennis* (Sonthonnax), MEXICO: Veracruz near Las Minas, on *Liquidambar* (HAMAMELIDACEAE) (photo, Wolfe, K. L.).

5. *Arsenura* Duncan sp., COSTA RICA: Río Negro, on *Curatella americana* (DILLENIACEAE) (photo, Wolfe, K. L.) (foodplant record received after publication went to press).

PART 1

SATURNIIDS AND THEIR FOODPLANTS

ACTIAS Leach

artemis Bremer - *Juglans regia*, *Quercus*, *Prunus* (Crotch, 1956); *Carya* (Gardiner, 1982); *Alnus firma*, *Betula platyphyllea*, *Fagus crenata*, *Rosa* (Inoue et al., 1982); *Castanea mollissima*, *Salix*, *Prunus pseudo-cerasus* (Zhu & Wang, 1983); *Pyrus malus*, *P. communis*, *Prunus armeniaca*, *Ilex verticillata*, *Acer*, *Punica* (Albaugh, 1986); *Prunus virginiana* (Stone, S.E., pers. obs.).

dubernardi (Oberthür) - *Pinus massoniana* (Mell, 1950).

luna (Linnaeus) ssp. - *Juglans cinerea*, *Carya* (Morris, 1862); *Liquidambar styraciflua*, *Diospyros virginiana* (Holland, 1903); *Fagus* (Forbes, 1923); *Juglans nigra*, *Quercus*, *Platanus lindeniana*, *Salix caprea*, *Prunus*, *Castanea sativa* (Crotch, 1956); *Betula papyrifera*, *Carpinus*, *Quercus rubra*, *Q. alba*, *Ulmus*, *Populus tremuloides*, *Salix*, *Acer saccharum*, *A. rubrum*, *Corylus*, *Alnus*, *Tilia* (McGugan et al., 1958); *Carya cordiformis* (Wright, 1967); "various JUGLANDACEAE, including" *Carya illinoensis* (Ferguson, 1971-72); *Castanea dentata*, *Humulus lupulus*, *Nyssa sylvatica*, *Ostrya virginiana*, *Prunus domestica* (Tietz, 1972); *Juglans regia*, *Populus*, *Acer* (Gardiner, 1982); *Betula pendula* (Naumann, S., pers. comm.); *Carya glabra*, *Rhus glabra* (Tuttle, J.P., pers. comm.); *Carya ovata* (Williams, B.D., pers. comm.).

maenas Doubleday - *Turpina pomifera* (Arora & Gupta, 1979); *Eucalyptus gunnii*, *Castanea* (Gardiner, 1982); *Averrhoa bilimbi*, *Adinandra dumosa*, *Liquidambar styraciflua*, *Rhus typhina*, *R. copallina*, *R. glabra*, *R. radicans*, *Quercus*, *Turpina sphaerocarpa*, *Schima wallichii* (Nässig & Peigler, 1984); *Canarium* (Holloway, 1987).

selene (Hübner) ssp. - *Salix fragilis* (Packard, 1914); *Prunus*, *Crataegus* (Crotch, 1956); *Terminalia crenulata* (Deodikar et al., 1969); *Azadirachta indica*, *Cedrela paniculata*, *Corylus colurna*, *Lannea coromandelica*, *Lawsonia alba*, *Moringa oleifera*, *Prunus amygdalus*, *P. cerasus*, *P. padus*, *Rhamnus frangula*, *Salix babylonica*, *Zanthoxylum acanthopodium*, *Z. alatum* (Arora & Gupta, 1979); *Cinnamomum camphora*, *Sapium sebiferum* (Allen, 1981); *Mangifera*, *Juglans regia*, *Pyrus malus*, *Salix*, *Hibiscus*, *Coriaria nepalensis*, *Andromeda ovalifolia*, *Rhododendron*, *Quercus* (Gardiner, 1982); *Andromeda glaucocephala*, *Liquidambar styraciflua*, *Syringa vulgaris*, *Ligustrum*, *Pyrus communis* (Albaugh, 1986); *Terminalia* (Holloway, 1987); *Castanea* (Heppner et al., 1988); *Alnus glutinosa* (Naumann, S., pers. comm.); *Rhus laurina* (Wolfe, K.L., pers. comm.).

selene gnoma Butler - *Alnus japonica* (Inoue et al., 1982).

selene ningpoana Felder - *Quercus ilex* (Crotch, 1956); *Pterocarya stenoptera*, *Salix*, *Castanea mollissima*, *Sapium sebiferum*, *Prunus armeniaca*, *Malus pumila*, *M. asiatica*, *Pyrus communis*, *Alnus cremastogynae*, *Hibiscus syriacus* (Zhu & Wang, 1983); *Alnus formosana* (Heppner et al., 1988); *Liquidambar formosana*, *Prunus pseudo-cerasus*, *Cinnamomum camphora*, *Lagerstroemia subcostata* (Wang, 1988).

sinensis heterogyna Mell - *Liquidambar formosana*, *L. styraciflua* (Nässig & Peigler, 1984).

truncatipennis (Sonthonnax) - *Liquidambar* (Beutelspacher, 1978); JUGLANDACEAE (Gardiner, 1982); *Juglans* (Wolfe, K.L., pers. comm.).

ADELOCEPHALA Travassos

brevis Walker - See *Oiticella brevis* (Walker) (Lemaire, 1988: 431).

crocata Boisduval - See *Cicia crocata* (Boisduval) (Lemaire, 1988: 189).

wardii (Boisduval) - See *Adelowlakeria flavosignata* (Walker) (Lemaire, 1988: 377).

ADELONEIVAIA Travassos

boisduvali (Doumergue) - *Acacia dealbata* (Herbin, D., pers. comm.).

fallax (Boisduval) - *Inga* (Lemaire, 1988).

isara (Dognin) - *Lysiloma divaricata*, *L. auritum* (Janzen, 1984a).

jason (Boisduval) ssp. - *Quercus agrifolia*, *Q. dumosa*, *Q. kelloggii* (Wolfe, K.L., pers. comm.).

subangulata (Herrick-Schaeffer) ssp. - "A spiny *Mimosa*" (Packard, 1905); *Salix capraea* (Lemaire, 1988).

ADELOWALKERIA Travassos

flavosignata (Walker) - "A spiny *Mimosa*" (Packard, 1905); *Machaerium brasiliensis* (Lemaire, 1988).

ADETOMERIS Michener

erythrops (Blanchard) - *Fagus pumilio*, *Maytenus boaria*, *Rubus ulmifolius* (Gardiner, 1982); *Rhus laurina*, *Prunus armeniaca*, *Fraxinus*, *Rhamnus* (Wolfe, K.L., pers. comm.).

AGAPEMA Neumoegen & Dyar

galbina Clemens ssp. - *Ribes* (Crotch, 1956); *Condalia hookeri*, *Ligustrum*, *Prunus* (Collins & Weast, 1961); *Celtis* (Gardiner, 1982).

galbina anona (Ottolengui) - *Sarcobatus maximiliani* (Packard, 1914); *Lycium* (Weast, 1962); *Condalia spathulata* (Ferguson, 1971-72).

galbina galbina (Clemens) - *Condalia ericoides* (Tuttle, J.P., pers. comm.).

homogena Dyar - *Rhamnus californicus*, *Salix* (Tuskes & Smith, 1984); *Ribes cereum* (Evans, H.E., pers. comm.); *Rhamnus frangula* (Naumann, S., pers. comm.); *Ribes alpinum* (Stone, S.E., pers. obs.).

solita Ferguson - *Condalia obovata* (Ferguson, 1971-72).

AGLIA Ochsenheimer

tau (Linnaeus) ssp. - *Fagus*, *Betula*, *Platanus*, *Acer pseudoplatanus* (Crotch, 1956); *Fagus sylvatica*, *Quercus robur*, *Carpinus betulus*, *Betula alba*, *Corylus avellana*, *Pyrus communis*, *Salix capraea* (Rougeot, 1971); "most deciduous trees, esp."

Pyrus malus, *Tilia* (Gardiner, 1982); *Alnus japonica*, *Castanea crenata*, *Fagus crenata*, *Quercus dentata*, *Q. serrata* (Inoue et al., 1982); *Corylus heterophylla*, *Alnus cremastogyne*, *Betula platyphylla*, *Fagus longipetiolata* (Zhu & Wang, 1983); *Juglans regia*, *Ilex verticillata* (Albaugh, 1986); *Betula pendula* (Naumann, S., pers. comm.).

ANISOTA Hübner

"Larvae of all species eat *Quercus* and some will accept *Castanea*" (Riotte & Peigler, 1980).

assimilis (Druce) - *Quercus grisea* (Riotte & Peigler, 1980); *Quercus albocincta* (Smith, M.J., pers. comm.).

consularis Dyar - *Quercus virginiana* (Ferguson, 1971-72); *Quercus nigra*, *Q. falcata*, *Q. laevis*, *Q. myrtifolia* (Riotte & Peigler, 1980); *Quercus palustris* (Tuttle, J.P., pers. comm.).

dissimilis (Boisduval) - *Quercus* (Schaus, 1884).

finlaysoni Riotte - *Castanea vulgaris*, *Quercus muehlenbergii*, *Q. alba*, *Q. rubra*, *Q. prinus*¹ (Riotte & Peigler, 1980); *Quercus palustris* (Tuttle, J.P., pers. comm.).

manitobensis McDunnough - *Corylus* (McGugan et al., 1958); *Quercus macrocarpa* (Ferguson, 1971-72); *Quercus* (Tietz, 1972).

oslari W. Rothschild - *Acer negundo*, *A. rubrum*, *A. saccharinum*, *Quercus velutina* (Tietz, 1972); *Quercus kelloggii* (Riotte & Peigler, 1980); *Quercus turbinella* (Lemaire, 1988); *Quercus arizonica* (Smith, M.J., pers. comm.); *Quercus gambelii* (Stone, S.E., pers. obs.); *Quercus oblongifolia*, *Q. palustris* (Tuttle, J.P., pers. comm.); *Quercus rubra* (Williams, B.D., pers. comm.).

peigleri Riotte - *Quercus palustris*, *Q. rubra*, *Q. marilandica*, *Q. velutina*, *Q. nigra*, *Q. falcata*, *Q. pubescens* (Riotte & Peigler, 1980); *Castanea vulgaris* (Lemaire, 1988); *Quercus gambelii* (Stone, S.E., pers. obs.).

pellucida discolor Ferguson - *Quercus nigra*, *Q. macrocarpa*, *Q. stellata*, *Q. velutina*, *Q. falcata*, *Q. marilandica* (Riotte & Peigler, 1980); *Quercus pubescens* (Lemaire, 1988); *Quercus palustris* (Tuttle, J.P., pers. comm.).

pellucida pellucida (J. E. Smith) - *Quercus nigra*, *Q. marilandica* (Ferguson, 1971-72); *Quercus falcata*, *Q. myrtifolia*, *Q. imbricaria*, *Q. nuttallii*, *Q. lyrata* (Riotte & Peigler, 1980); *Quercus pubescens*, *Q. ilex*, *Castanea vulgaris* (Lemaire, 1988); *Quercus velutina*, *Q. palustris* (Tuttle, J.P., pers. comm.).

senatoria (J. E. Smith) - *Fagus* (Forbes, 1923); *Quercus alba*, *Q. bicolor*, *Q. coccinea*, *Q. macrocarpa*, *Q. rubra*, *Q. velutina*, *Q. palustris* (McGugan et al., 1958); *Carya*, *Castanea dentata*, *Corylus*, *Quercus ilicifolia*, *Q. imbricaria*, *Q. prinoides*, *Q. prinus*, *Rubus allegheniensis*, ?*R. idaeus* var. *strigosus* (Tietz, 1972); *Castanea vulgaris* (Lemaire, 1988).

¹ This was incorrectly reported as *Q. pini* in Riotte & Peigler (1980: 149) (Peigler, R. S., pers. comm.) and in Lemaire (1988: 312).

stigma (Fabricius) ssp. - *Quercus* (Morris, 1862); *Corylus* (Forbes, 1923); *Carya*, *Castanea dentata* (Tietz, 1972).

stigma fuscosa Ferguson - *Quercus nigra*, *Q. stellata*, *Q. falcata*, *Q. marilandica*, *Castanea vulgaris* (Riotte & Peigler, 1980); *Quercus palustris* (Tuttle, J.P., pers. comm.).

stigma stigma (Fabricius) - *Corylus* (Packard, 1905); *Quercus rubra* (McGugan et al., 1958); *Quercus michauxii*, *Q. alba*, *Castanea mollissima* (Riotte & Peigler, 1980); *Quercus pubescens*, *Castanea vulgaris* (Lemaire, 1988); *Quercus nigra*, *Q. palustris*, *Q. velutina*, *Q. virginiana* (Tuttle, J.P., pers. comm.).

virginiensis (Drury) - *Quercus* (Holland, 1903); *Corylus* (Crotch, 1956); *Quercus macrocarpa* (McGugan et al., 1958); *Quercus nigra* (Dominick & Edwards, 1971); *Carpinus caroliniana*, *Castanea dentata*, *Quercus alba*, *Q. prinus*, *Q. stellata* (Tietz, 1972); *Quercus rubra* (Riotte & Peigler, 1980); *Quercus robur*, *Q. petraea* (Naumann, S., pers. comm.); *Quercus velutina*, *Q. palustris* (Tuttle, J.P., pers. comm.).

ANTHERAEA Hübner

"Larvae of all but one species eat *Quercus* and also do well on *Fagus*. They also accept *Betula*, *Prunus*, *Salix*, *Carpinus*, *Castanea*, *Crataegus*" (Gardiner, 1982).
assamensis (Helfer) - *Quercus* (Crotch, 1956); *Cinnamomum obtusifolium*, *Laurus obtusifolia*, *Litsea citrata*, *L. polyantha*, *L. salicifolia*, *Machilus bombycina*, *M. odoratissima*, *Magnolia sphenocarpa*, *Michelia*, *Sarcostemma brevistigma*, *Symplocos grandiflora*, *Tetranthera diglottica*, *T. glauca*, *T. macrophylla*, *T. monopetala*, *T. polyantha* (Arora & Gupta, 1979); *Pyrus malus* (Albaugh, 1986); *Persea* (Holloway, 1987).

fritii (Moore) ssp. - *Shorea robusta* (Arora & Gupta, 1979).

fritii javanensis Bouvier - *Sapium sebiferum*, *Cinnamomum camphora* (Zhu & Wang, 1983).

godmani (Druce) - *Quercus* (Wolfe, K.L., pers. comm.).

harti Moore - *Quercus alba*, *Q. macrocarpa*, *Q. lyrata*, *Q. stellata*, *Q. palustris*, *Q. falcata*, *Q. phellos* (Furr, M., pers. comm.); *Quercus robur* (Naumann, S., pers. comm.).

korintjiana Bouvier - "Similar to *Antheraea roylei*" (Holloway, 1987).

knyvetti Hampson - *Quercus*, *Prunus puddum* (Crotch, 1956); *Betula alnoides* (Arora & Gupta, 1979).

larissa Westwood - *Shorea glauca* (Holloway, 1987).

montezuma (Sallé) - *Quercus* (Smith, M.J., pers. comm.).

mylitta (Guérin-Méneville) - *Quercus*, *Fagus* (Crotch, 1956); *Quercus alba*, *Carpinus*, *Prunus* (Villiard, 1969); *Quercus robur* (Naumann, S., pers. comm.).

paphia Linnaeus - *Eugenia jambolana* (Watt, 1908); *Anogeissus latifolia*, *Bassia latifolia*, *B. longifolia*, *Bauhinia variegata*, *Bombax heptaphyllum*, *B. malabaricum*, *Canthium dicoccum*, *Carpinus betulus*, *Careya arborea*, *C. sphaerica*, *Carissa carandas*, *Cassia lanceolata*, *Celastrus paniculatus*, *Chloroxylon swietenia*,

Cipadessa fruticosa, *Dodonaea viscosa*, *Eugenia cuminii*, *Ficus benjamina*, *F. religiosa*, *F. retusa*, *Lagerstroemia indica*, *L. parviflora*, *Mangium caseolari*, *Pentaptera tomentosa*, *P. glabra*, *Prunus domestica*, *Rhizophora calceolaris*, *Ricinus communis*, *Shorea robusta*, *S. talura*, *Tectona grandis*, *Terminalia alata*, *T. arjuna*, *T. tomentosa*, *T. bellirica*, *T. catappa*, *Webera corymbosa*, *Ziziphus jujuba* (Arora & Gupta, 1979); *Quercus*, *Salix* (Albaugh, 1986).

pernyi (Guérin-Méneville) - *Quercus*, *Betula*, *Carpinus*, *Prunus* (Crotch, 1956); *Quercus serrata* (Inoue et al., 1982); *Fagus* (Rougeot & Viette, 1983); *Crataegus pinnatifida*, *Cinnamomum camphora*, *Xylosma japonicum* (Zhu & Wang, 1983); *Pyrus malus*, *Castanea*, *Salix* (Albaugh, 1986); *Quercus alba*, *Q. macrocarpa*, *Q. lyrata*, *Q. stellata*, *Q. palustris*, *Q. falcata*, *Q. phellos* (Furr, M., pers. comm.); *Quercus robur* (Naumann, S., pers. comm.).

polyphemus (Cramer) ssp. - *Quercus*, *Juglans cinerea*, *J. nigra*, *Carya*, *Tilia*, *Ulmus*, *Acer*, *Betula*, *Platanus*, *Castanea*, *Rosa*, *Fagus* (Holland, 1903); *Prunus*, *Corylus* (Saunders, 1909); *Tilia americana*, *T. europaea*, *Prunus virginiana*, *Hamamelis virginiana*, *Castanea vesca*, *Crataegus tomentosa*, *C. coccinea*, *C. crus-galli*, *Amelanchier canadensis*, *Ribes cynosbati*, *Corylus americana*, *C. rostrata*, *Fagus ferruginea*, *Carpinus americana*, *Ostrya virginiana*, *Carya tomentosa*, *C. amara*, *Betula lenta*, *B. alba*, *Alnus incana*, *A. serrulata*, *Salix alba*, *S. humilis*, *Populus grandidentata*, *P. tremuloides*, *Baptisia tinctoria*, *Vaccinium*, *Gleditsia*, *Quercus alba*, *Q. nigra*, *Q. macrocarpa*, *Q. rubra*, *Q. virens* (Packard, 1914); *Cornus* (Galtsoff, et al., 1937); *Sorbus*, *Weigela*, "rosaceous trees" (Ferguson, 1971-72); *Fraxinus* (Baker, 1972); *Myrica cerifera* (Brown, 1972); *Acer pensylvanicum*, *A. rubrum*, *A. saccharinum*, *Alnus*, *Arbutus menziesii*, *Capsicum annuum*, *Carpinus caroliniana*, *Castanea dentata*, *C. sativa*, *Cydonia oblonga*, *Gaylussacia dumosa*, *Gleditsia triacanthos*, *Liriodendron tulipifera*, *Malus pumila*, *Pinus*, *Platanus occidentalis*, *Prunus cerasus*, *P. domestica*, *P. domestica* var. *galatensis*, *P. persica*, *P. serotina*, *Pyrus communis*, *Quercus coccinea*, *Ribes sanguineum*, *R. sativum*, *Sassafras albidum*, *Ulmus*, *Vitis* (Tietz, 1972); *Betula pendula*, *Carya glabra*, *C. ovata*, *Cornus racemosa*, *Quercus X bebbiana*, *Q. velutina*, *Salix babylonica*, *S. fragilis* (Wagner & Mayfield, 1980); *Quercus lyrata*, *Q. stellata*, *Q. falcata*, *Q. phellos* (Furr, M., pers. comm); *Quercus robur* (Naumann, S., pers. comm.); *Betula populifolia* (Sblendorio, D.C., pers. comm.); *Rhamnus*, *Sambucus* (Stone, S.E., pers. obs.); *Quercus palustris*, *Salix interior*, *Ulmus americana*, *Acer negundo* (Tuttle, J.P., pers. comm.); *Betula papyrifera* (Williams, B.D., pers. comm.).

roylei Moore - *Quercus* (Crotch, 1956); *Bassia latifolia*, *B. longifolia*, *Betula alnoides*, *Cyperus esculentus*, *Daphniphyllum himalense*, *Euodia fraxinifolia*, *Prunus puddum*, *Pyrus communis*, *P. malus*, *Quercus dealbata*, *Q. dilatata*, *Q. glauca*, *Q. himalayana*, *Q. ilex*, *Q. incana*, *Q. semicarpifolia*, *Q. semiserrata*, *Q. serrata* (Arora & Gupta, 1979); *Quercus robur*, *Q. turneri* (Naumann, S., pers. comm.).

semperi Felder - *Quercus turneri* (Naumann, S., pers. comm.).

yamamai (Guérin-Méneville) ssp. - *Quercus*, *Castanea* (Crotch, 1956); *Castanea crenata*, *Quercus acutissima*, *Q. dentata*, *Q. serrata*, *Malus pumila*, *Prunus* (Inoue et al., 1982); *Pyrus malus*, *Fagus*, *Carya*, *Morus* (Albaugh, 1986); *Quercus robur* (Naumann, S., pers. comm.).

yamamai superba Inoue - *Quercus acutissima* (Wang, 1988).

ANTHERINA Sonthonnax

suraka (Boisduval) - *Nerium* (Bouvier, 1936); *Vitis vinifera*, *Schinus*, *Eugenia*, *Maesa*, *Strophanthus*, "fruit trees" (Griveaud, 1961); *Ligustrum japonicum*, *Liquidambar*, *Salix*, *Fagus*, *Crataegus* (Probst, H., pers. comm.).

ANTISTATHMOPTERA Tams

daltonae Tams - ?*Cordyla africana* (Gardiner, 1982).

ARCHAEATTACUS J. H. Watson

edwardsii (White) - *Ligustrum*, *Syringa vulgaris*, *Salix*, *Prunus*, *Populus* (Villiard, 1969); "foodplant preferences of the larvae coincide with those of *Attacus atlas* and include *Ailanthus altissima* and especially LAURACEAE" (Peigler, 1989); *Ilex chinensis* (Zhu & Wang, 1983).

ARGEMA Wallengren

besanti Rebel - *Sclerocarya caffra*, *Spirostachys africana*, *Commiphora mollis*, *Juglans regia*, *Eucalyptus*, *Liquidambar* (Gardiner, 1982).

kuhnei Pinhey - *Monotes katangensis* (Pinhey, 1972).

mimosae (Boisduval) - *Sclerocarya caffra* (Platt, 1921); *Juglans regia* (Crotch, 1956); *Commiphora mollis*, *Spirostachys africana* (Pinhey, 1972); *Eucalyptus*, *Liquidambar* (Gardiner, 1982); *Sclerocarya birrea* (Oberprieler, 1987); *Rhus laurina* (Wolfe, K.L., pers. comm.).

mittrei (Guérin-Méneville) - *Rhus toxicodendron*, *Schinus molle*, *Mimosa*, *Eugenia cuneifolia*, *Weinmannia eriocarpa* (Villiard, 1969); *Uapaca*, MIMOSACEAE (=FABACEAE: MIMOSOIDEAE) (Gardiner, 1982); *Rhus copallina*, *R. typhina* (Albaugh, 1986); *Rhus laurina* (Wolfe, K.L., pers. comm.).

ARSENURA Duncan

Arsenura sp. - ?MALVACEAE, ?TILIACEAE (Crotch, 1956); *Chorisia* (Gardiner, 1982).

armida (Cramer) ssp. - "Palisade tree", *Annona*, *Bombax ceiba* (Packard, 1914); *Bombacopsis quinatum* (Janzen, 1984a); *Chorisia insignis*, *C. speciosa* (Wolfe, K.L., pers. comm.).

aspasia (Herrich-Schäffer) - "A Melastomaceous tree" (Packard, 1914).

polyodonta (Jordan) - *Chorisia insignis* (Gardiner, 1982); *Chorisia speciosa* (Wolfe, K.L., pers. comm.).

rebeli Gschwandner - *Tilia* (Herbin, D., pers. comm.).

xanthopodus (Walker) - *Urena sinuata* (Packard, 1914).

ATHLETES Karsch

gigas Sonthonnax - *Brachystegia randii* (Bouvier, 1936); ?*Cercis siliquastrum*, “woody” LEGUMINOSAE (=FABACEAE) (Crotch, 1956); *Julbernardia paniculata* (Pinhey, 1972).
semialba Santhonnax - *Brachystegia randii*, *B. globifera*, *Cassia* (Platt, 1921); *Brachystegia spiciformis* (Pinhey, 1972).

ATTACUS Linnaeus

atlas (Linnaeus) - *Phyllanthus emblica* (Moore, 1859); *Glochidion velutinum* (=*Bradleia ovata* & *Phyllanthus velutinus*), *Sapium insigne* (Moore, 1862); *Pyrus malus*, *P. communis* (Wailly, 1879); *Prunus* (Poujade, 1880); *Schleichera oleosa*, *Nauclea rotundifolia*, *Leucosceptrum canum* (=*Teucrium macrostachyum*), *Lagerstroemia indica* (Cotes, 1891-93); *Nerium oleander*, *Quisqualis indica*, *Sapium sebiferum* (Fauvel, 1895); *Artemisia vulgaris*, *Symplocos paniculata* (=*S. crategoides*) (Silbermann, 1897); *Ailanthus altissima* (Voelchow, 1902); *Cinchona succirubra*, *Coffea arabica* (Fruhstorfer, 1904); *Clerodendrum serratum*, *C. viscosum* (=*C. infortunatum*), *Dillenia pentagyna*, *Melastoma malabathricum*, *Meyna grisea* (=*Vangueria spinosa*), *Morus* (André, 1908); “Samalu hedges” (Packard, 1914); *Dillenia indica* (Rama Rao, 1914); *Camellia* (=*Thea*) *sinensis*, *Ceiba pentandra*, *Hibiscus*, *Piper*, *Stachytarpheta cayennensis*, *Theobroma cacao* (Jurriaanse & Lindemans, 1920); CUPULIFERAE (archaic group name for *Quercus*, *Carpinus*, etc.) (Seitz, 1926); *Aleurites montana*, *Canarium indicum* (=*C. commune*), *Uncaria gambir* (Dammerman, 1929); *Alstonia scholaris*, *Cinnamomum iners*, *Clidemia hirta*, *Curcuma viridiiflora* (=*C. longa*), *Ficus*, *Nephelium lappaceum*, *Lantana camara*, *Lannea grandis*, *Lonicera japonica*, *Nephelium lappaceum*, *Nicolaia speciosa*, *Parkia intermedia*, *P. speciosa*, *Ricinus communis*, *Rosa*, *Sesbania grandiflora*, *Spathodea campanulata*, *Syzygium aqueum*, *S. malaccense* (=*E. malaccensis*) (Dupont & Scheepmaker, 1936); *Fraxinus*, *Kalmia latifolia*, *Rhododendron*, *Sassafras albidum*, *Syringa vulgaris* (Villiard, 1969); *Euphorbia longana*, *Litchi chinensis* (=*Nephelium litchi*) (SsuMa, 1972); *Populus* (Dickens, 1973); *Schefflera octophylla* (Hill & Cheung, 1978); *Carpinus betulus*, *Sarcostemma brunonianum* (=*S. brevistigma*) (Arora & Gupta, 1979); *Ardisia sieboldii* (Inoue et al., 1982); *Betula platyphylla*, *Ilex chinensis*, *Ipomoea batatas*, *Setaria viridis* (Zhu & Wang, 1983); *Glochidion rubrum* (Wang, 1988); *Annona muricata*, *Averrhoa carambola*, *Berberis asiatica*, *B. vulgaris*, *B. thunbergii*, *Bischofia javanica*, *Canangium odoratum* (=*Cananga odorata*), *Cinnamomum camphora*, *Cinnamomum zeylanicum*, *Citrus*, *Erythrina subumbrana*, *Ligustrum*, *Mangifera indica*, *Persea americana*, *P. pyriformis* (=*P. gratissima*), *Salix*, *Sandoricum koetjape*, *Swietenia mahogani* (Peigler, 1989).
caesar Maassen - *Syringa vulgaris*, *Annona squamosa*, *Artocarpus integer*, *Canangium odoratum* (=*Cananga odorata*), *Citrus*, *Erythrina subumbrana*, *Myrica cerifera*, *Persea americana*, *P. pyriformis* (=*P. gratissima*), *Salix*, *Sandoricum koetjape*, *Swietenia mahogany* (Peigler, 1989).

erebus Fruhstorfer - ?*Ficus* (Ver Huell, 1836).

lorquinii C. & R. Felder - *Psidium guajava* (=*P. pyriforme*), *P. cujavillus* (Laporte, 1830); *Quercus* (Gosse, 1879); *Theobroma cacao* (Jurriaanse & Lindemans, 1920); *Fraxinus*, *Syringa vulgaris*, *Annona squamosa*, *Artocarpus integra*, *Canangium odoratum* (=*Cananga odorata*), *Chrysophyllum*, *Citrus*, *Heliconia*, *Ligustrum*, *Magnolia virginiana*, *Mangifera indica*, *Myrica cerifera*, *Persea americana*, *P. pyriformis* (=*P. gratissima*), *Persea borbonia*, *Quercus glauca* (=*Cyclobalanopsis glauca*), *Salix*, *Sandoricum koetjape*, *Schefflera arboricola* (=*Brassaia actinophylla* var. *arboricola*) (Peigler, 1989).

mcmullenii J. H. Watson - "Samalu hedges" (Packard, 1914).

taprobanis Moore - ?*Ocimum* (Cotes, 1891-93); *Aglaiia roxburghiana* (=*Milnea roxburghiana*) (Voelschow, 1902); *Berberis asiatica*, *B. vulgaris*, *B. thunbergii*, *Cinnamomum camphora*, *Cinnamomum zeylanicum*, *Ligustrum* (Peigler, 1989).

AURIVILLIUS Packard

arata (Westwood) - *Albizia fastigiata* (Platt, 1921); *Piptadenia buchanani* (Rougeot, 1962); *Albizia gummifera*, *Parkia biglobosa*, *Peltophorum africanum*, *Piptadenia* (Pinhey, 1972); *Salix* (Gardiner, 1982).

triramis Rothschild - *Albizia* (Rougeot, 1962).

AUTOMERELLA Michener

flexuosa Felder - *Fagus*, *Quercus*, *Robinia pseudoacacia*, *Laburnum* (Gardiner, 1982).

AUTOMERINA Michener

cypria (Gmelin) - *Theobroma cacao* (Gardiner, 1982).

vala (Kirby) - *Theobroma cacao* (Gardiner, 1982).

AUTOMERIS Hübner

Automeris sp. - *Brosimum utile*, *Cordia alliodora*, *Juglans neotropica*, *Cupressus*, *Schizolobium parahybum*, *Swietenia macrophylla*, *Virola sebifera*, *Prunus capuli*, *Cecropia*, *Leucaena leucocephala* (Gara & Onore, 1989).

amanda Schaus ssp. - *Piptadenia*, *Selinum*, *Gourliea* (=*Geoffroea*) *decorticans*, LEGUMINOSAE (=FABACEAE) (Gardiner, 1982).

aurantiaca Weymer - See *Automeris naranja* Schaus ssp. (Lemaire, 1971-74: 300).

banus (Boisduval) ssp. - *Gleditsia triacanthos* (Herbin, D., pers. comm.); *Robinia pseudoacacia*, *Rhus laurina*, *Pyrus malus* (Wolfe, K.L., pers. comm.).

beckeri (Herrich-Schäffer) - *Sorocea ilicifolia*, *Fagus*, *Prunus*, *Quercus*, URTICACEAE (Gardiner, 1982).

boucardi Druce - *Laburnum* (Gardiner, 1982).

boudinotiana Lemaire - *Quercus* (Wolfe, K.L., pers. comm.).

cecrops cecrops (Boisduval) - *Liriodendron tulipifera* (Lemaire, C., pers. comm.).

cecrops peigleri Lemaire - *Quercus grisea* (Lemaire, 1979b).

colenon Dyar - "Grasses, esp." *Cynodon* (Smith, M.J., pers. comm.).

- complicata** (Walker) - *Pyrus communis*, *Bauhinia forficata*, *Tipuana speciosa*, *Wisteria sinensis*, *Prunus triflora*, *Lagerstroemia indica*, *Spartium junceum*, *Psidium guajava*, *Citrus aurantium*, *Passiflora* (Gardiner, 1982).
- coresus** (Boisduval) - *Platanus orientalis*, *Acer*, *Ligustrum* (Crotch, 1956); *Quercus robur* (Naumann, S., pers. comm.).
- excreta** Draudt - *Robinia pseudoacacia*, *Prunus*, *Pyrus malus* (Wolfe, K.L., pers. comm.).
- godartii** (Boisduval) - *Gleditsia triacanthos* (Herbin, D., pers. comm.).
- hamata** Shaus - *Robinia pseudoacacia*, *Laburnum*, *Fagus* (Gardiner, 1982); *Salix* (Herbin, D., pers. comm.).
- illustris** (Walker) - *Platanus orientalis*, *Ficus benjamina*, *Ligustrum*, *Syringa vulgaris*, *Fagus*, *Crataegus* (Gardiner, 1982).
- incarnata** (Walker) - *Eucalyptus*, *Robinia pseudoacacia*, *Laburnum*, *Fagus* (Gardiner, 1982).
- inornata** (Walker) - *Robinia pseudoacacia*, *Prunus*, *Quercus* (Gardiner, 1982).
- io** (Fabricius) ssp. - *Laurus sassafras* (= *Sassafras albidum*), *Cornus florida*, *Liriodendron* (Morris, 1862); *Pyrus malus*, *Prunus*, *Salix*, *Ulmus*, *Populus balsamifera*, *Quercus*, *Ribes*, *Melilotus*, *Gossypium herbaceum*, *Gleditsia triacanthos*, "thorn" (= *Crataegus*) (Saunders, 1909); *Baptisia tinctoria* (Packard, 1914); *Liquidambar styraciflua*, *Nephelium litchi*, *Persea americana* (Brown, 1972); *Abies balsamea*, *Acer*, *Amorpha fruticosa*, *Betula*, *Carpinus caroliniana*, *Carya*, *Cassia fasciculata*, *Cercis canadensis*, *Comptonia peregrina*, *Corylus*, *C. avellana*, *Fagus*, *Fraxinus*, *Hibiscus lasiocarpus*, *Hunnulus lupulus*, *Ilex verticillata*, *Lespedeza*, *Liriodendron tulipifera*, *Magnolia virginiana*, *Malus pumila*, *Melilotus alba*, *M. officinalis*, *Myrica pensylvanica*, *Ostrya virginiana*, *Platanus occidentalis*, *Populus gileadensis*, *P. tremuloides*, *Prunus cerasus*, *P. domestica*, *P. pensylvanica*, *P. serotina*, *P. virginiana*, *Pyrus communis*, *Rhizophora mangle*, *Rhododendron*, *Ribes sativum*, *Robinia pseudoacacia*, *Rosa*, *Rubus allegheniensis*, *R. canadensis*, *R. idaeus* var. *strigosus*, *Sassafras albidum* var. *molle*, *Serenoa repens*, *Spirea*, *Symporicarpos albus*, *Tilia*, *Trifolium*, *T. repens*, *Viburnum dentatum*, *Wisteria frutescens*, *W. sinensis*, *Zea mays* (Tietz, 1972); *Celtis laevigata*, *Malvaviscus arboreus* var. *drummondii*, *Leucaena pulverulenta* (Neck, 1976); *Populus deltoides*, *Quercus palustris*, *Salix interior*, *Acer rubrum* (Tuttle, J.P., pers. comm.); *Mimosa* (Sblendorio, D.C., pers. comm.); *Robinia* (Wolfe, K.L., pers. comm.).

obs.); *Quercus palustris* (Tuttle, J.P., pers. comm.); *Rhus laurina* (Wolfe, K.L., pers. comm.); *Quercus rubra* (Williams, B.D., pers. comm.).

phrynon Druce - *Rhus laurina* (Wolfe, K.L., pers. comm.).

randa Druce - *Quercus, Celtis pallida* (Tuskes, 1985b); *Quercus gambelii* (Stone, S.E., pers. obs.); *Prunus serotina, Quercus palustris* (Tuttle, J.P., pers. comm.); *Quercus rubra* (Williams, B.D., pers. comm.).

rubrescens (Walker) ssp. - *Sida vera* (Janzen, 1982); *Inga vera, Rourea glabra, Guazuma ulnifolia, Cassia biflora, C. grandis, Quercus oleoides, Cordia alliodora, Lonchocarpus minimiflorus, Calycophyllum candidissimum, Crescentia alata, Zuelania guidonia* (Janzen, 1984a); *Quercus robur* (Naumann, S., pers. comm.); *Salix, Syringa vulgaris* (Simon, L.D., pers. comm.).

saturata (Walker) - See *Leucanella saturata* (Walker) (Lemaire, 1971-74: 411).

tridens (Herrick-Schäffer) - *Ligustrum* (Herbin, D., pers. comm.); *Quercus* (Purdum, D.A., pers. comm.).

vinosus Conte - See *Automeris incarnata* (Walker) (Lemaire, 1971-74: 244).

zephyria Grote - *Quercus gambelii* (Tietz, 1972); *Prunus serotina* (Donahue, 1979); *Salix, Cercocarpus betuloides, Cercis canadensis, Quercus phellos, Q. nigra, Q. oblongifolia, Q. alba* (Tuskes & Smith, 1988); *Quercus robur, Q. petraea* (Naumann, S., pers. comm.); *Tilia, Prunus virginiana* (Stone, S.E., pers. obs.); *Quercus palustris, Salix babylonica* (Tuttle, J.P., pers. comm.); *Quercus rubra* (Williams, B.D., pers. comm.); *Pyrus malus* (Wolfe, K.L., pers. comm.).

zoxine Druce - *Quercus robur* (Naumann, S., pers. comm.); *Rhus laurina, Robinia pseudoacacia* (Wolfe, K.L., pers. comm.).

zugana Druce - *Annona purpurea, Lonchocarpus costaricensis, L. eriocarinalis, Quercus oleoides, Cydista heterophylla, Calycophyllum candidissimum, Hymenaea courbaril, Solanum hazenii, Lantana camara, Centrosemia pubescens, Cassia hayesina, Inga vera, Serjania atrolineata* (Janzen, 1984a); *Ulmus* (Ringle, G., pers. comm.).

BUNAEA Hübner

alcinoe (Stoll) - *Cussonia spicata, Ekebergia meyeri* (Platt, 1921); *Maesa lanceolata* (Bouvier, 1936); *Prunus, Crataegus* (Crotch, 1956); *Harpephyllum caffrum* (Taylor, 1957); *Khaya senegalensis, Terminalia catappa* (Rougeot, 1962); *Rhus glabra, Rosa, Pyrus malus* (Villiard, 1969); *Bauhinia reticulata, Celtis, Croton, E. ruepellii, Gymnosporia senegalensis* (Pinhey, 1972); *Ligustrum* (Gardiner, 1982); *Quercus robur* (Naumann, S., pers. comm.).

heroum Oberthür - See *Imbrasia macrothyris* Rothschild (Pinhey, 1972: 94).

BUNAEOPSIS Bouvier

arabella (Aurivillius) - "A reedlike grass" (Platt, 1921).

aurantiaca (Rothschild) - "Grasses", *Bridelia micrantha* (Pinhey, 1972).

bomfordi Pinhey - *Dolichos* (Pinhey, 1972).

- hersilia** (Westwood) - GRAMINEAE (=POACEAE) (Crotch, 1956); *Chrysophyllum* (Rougeot, 1962); *Hyparrhenia contracta*, *Bequaertiodendron*, *Irvingia*, *Pennisetum* (Pinhey, 1972); "several genera of bamboo" (Gardiner, 1982).
- hersilioides** Fleury - *Annona senegalensis* (Bouvier, 1936).
- jacksoni** (Jordan) - *Scleria rehmanii* "and a reedlike grass" (Pinhey, 1972).
- licharbas** (Maassen & Weymer) - "Leguminous plants" (Pinhey, 1972); *Quercus*, *Salix capraea* (Gardiner, 1982).
- oubie** (Guérin-Méneville) - "Grasses" (Platt, 1921); *Pycreus muricatus* (Crotch, 1956); *Euclea* (Pinhey, 1956); *Fagus*, *Salix* (Gardiner, 1982).
- phidias** (Weymer) - "?Grasses" (Pinhey, 1972).
- zaddachi** (Dewitz) - "Grasses", *Euclea*, *Sporobolus* (Pinhey, 1972); *Heteropogon* (Pinhey, 1975).

CAIO Travassos & Noronha

- championi** (Druce) - *Bombacopsis quinatum* (Janzen, 1984a); *Chorisia*, *Tilia* (Wolfe, K.L., pers. comm.).
- richardsoni** (Druce) - *Chorisia*, *Ceiba acuminata* (Smith, M.J., pers. comm.).

CALIGULA Moore

- boisduvali** (Eversmann) ssp. - *Quercus*, *Castanea*, *Acer*, *Zelkova serrata*, *Acacia*, *Juglans*, *Prunus*, *Pyrus*, *P. communis*, *Sorbus* (Villiard, 1969); *Lonicera japonica*, *Cornus controversa*, *Fagus crenata*, *Rosa* (Inoue et al., 1982).
- boisduvali fallax** (Jordan) - *Corylus heterophylla*, *Tilia*, *Quercus* (Zhu & Wang, 1983).
- cachara** Moore - *Crataegus*, *Quercus acuta*, *Q. ilex*, *Juglans regia* (Crotch, 1956).
- japonica** Moore ssp. - *Castanea crenata*, *Prunus*, *Pyrus malus*, *Quercus*, *Salix*, *Crataegus*, *Viburnum opulus* var. *sterile* (Crotch, 1956); *Schleichera trijuga*, *Rhus verniciflua*, *Zelkova serrata*, *Acer*, *Prunus persica*, *P. armeniaca*, *Cinnamomum camphora*, *Lagerstroemia indica*, *Platanus*, *Cercis siliquastrum* (Villiard, 1969); *Juglans regia* (Gardiner, 1982); *Castanea mollissima*, *Prunus salicina*, *Pyrus communis*, *Corylus heterophylla*, *Catalpa bungei* (Zhu & Wang, 1983); *Aesculus hippocastanum* (Naumann, S., pers. comm.); *Populus deltoides* (Peigler, R.S., pers. comm.); *Prunus virginiana* (Stone, S.E., pers. obs.).
- japonica arisana** Shiraki - *Castanea crenata*, *Cinnamomum camphora*, *Juglans cathayensis*, *Quercus acutissima*, *Ginkgo biloba* (Wang, 1988).
- jonasi** Butler - *Populus deltoides* (Peigler, R.S., pers. comm.).
- simla** (Westwood) - *Salix fragilis* (Packard, 1914); *Salix babylonica*, *Pyrus communis*, *P. malus*, *Crataegus* (Crotch, 1956); *Betula*, *Quercus*, *Carya* (Villiard, 1969); *Juglans regia* (Gardiner, 1982); *Crataegus oxyacantha* (Naumann, S., pers. comm.).
- thibeta** (Westwood) ssp. - *Andromeda ovalifolia* (Bouvier, 1936).
- thibeta extensa** (Butler) - *Ligustrum ovalifolium* (Nardelli, 1986).
- thibeta okurai** Okano - *Glochidion hongkongense*, *Quercus variabilis* (Wang, 1988).
- zuleika** (Westwood) - *Acer caudatum*, *Actinodaphne sikkimensis* (Bouvier, 1936).

CALLOSAMIA Packard

angulifera (Walker) - *Liriodendron tulipifera* (Holland, 1903); *Sassafras albidum* (Ferguson, 1971-72); *Prunus serotina* (Tietz, 1972); *Magnolia tripetala* (Peigler, 1988).

promethea (Drury) - *Laurus sassafras* (= *Sassafras albidum*), *L. benzoin*, *Cephalanthus occidentalis* (Morris, 1862); *Liquidambar styraciflua*, *Liriodendron tulipifera*, *Malus pumila*, *Populus*, *Pyrus communis*, *Prunus*, *P. domestica*, *Salix*, *Syringa vulgaris*, *Viburnum* (Eliot & Soule, 1902); "a predilection for the LAURACEAE" (Holland, 1903); *Fraxinus*, *Rhododendron* (Saunders, 1909); *Prunus serotina*, *Berberis*, *Betula* (Packard, 1914); *Fraxinus pennsylvanica*, *Prunus pensylvanica* (McGugan et al., 1958); *Acer*, *Berberis vulgaris*, *Fraxinus americana*, *Tilia* (Collins & Weast, 1961); *Ligustrum* (Villiard, 1969); *Diospyros*, *Symplocos tinctoria*, *Corylus*, *Prunus virginiana* (Ferguson, 1971-72); *Fagus*, *Halesia carolina*, *Magnolia*, *Myrica pensylvanica*, *Pinus*, *Prunus persica*, *Quercus*, *Styrax americana*, *Thuja occidentalis*, *Tilia americana* (Tietz, 1972); *Magnolia virginiana* (Peigler, 1976); *Betula papyrifera* (Gardiner, 1982); *Kalmia* (Albaugh, 1986); *Magnolia acuminata*, *Cinnamomum camphora*, *Gordonia lasianthus* (Peigler, 1988).

securifera (Maassen) - *Magnolia virginiana* (Jones, 1909); *Gordonia lasianthus*, *Magnolia grandiflora*, *Liriodendron tulipifera* (Peigler, 1988); *Cinnamomum camphora* (Simon, L.D., pers. comm.).

CARNEGIA Aurivillius

mirabilis Aurivillius - *Annona senegalensis* (Rougeot, 1962).

CATOCEPHALA Blanchard

socialis Feisthamel - *Cryptocarya peumus* (Gardiner, 1982).

CICIA Oiticica

crocata (Boisduval) - *Gleditsia triacanthos* (Packard, 1905).

CINABRA Sonthonnax

hyperbius (Westwood) - *Brachystegia randii*, *Protea* (Platt, 1921); *Berlinia paniculata*, *Brachystegia venosa* (Crotch, 1956); *Brachystegia spiciformis*, *Julbernardia paniculata* (Pinhey, 1972); *Ekebergia* (Pinhey, 1975); *Prunus*, *Robinia pseudoacacia* (Gardiner, 1982).

CIRINA Walker

forda (Westwood) - *Sideroxylon inerme* (Dickerson, 1945); *Rhus longifolia*, *Carissa grandiflora* (Platt, 1921); *Prunus*, *Pyrus malus* (Crotch, 1956); *Hippobromus pauciflora*, *Pappea capensis*, *Euclea undulata*, *Schotia speciosa* (Taylor, 1957); *Erythrophleum guineense*, *Faidherbia albida* (Rougeot, 1962); "woody shrubs," *Albizia versicolor*, *Carissa edulis*, *Ekebergia meyeri*, *Schinus molle*, *Warburgia*

(Pinhey, 1972); *Aloe* (Pinhey, 1975); *Acacia nilotica*, *Burkea africana* (Gardiner, 1982); *Rhus laurina* (Wolfe, K.L., pers. comm.).

CITHERONIA Hübner

- andina* Lemaire - *Schinus terebinthifolius* (Wolfe, K.L., pers. comm.).
- armata armata* W. Rothschild - *Anacardium occidentale* (Lemaire, 1988).
- azteca* Schaus ssp. - *Rhus typhina* (Purdum, D.A., pers. comm.); *Rhus laurina*, *Schinus terebinthifolius* (Wolfe, K.L., pers. comm.).
- beledonon* Dyar - *Rhus typhina* (Purdum, D.A., pers. comm.); *Liquidambar styraciflua*, *Ligustrum* (Simon, L.D., pers. comm.); *Gossypium* (Smith, M.J., pers. comm.); *Rhus laurina*, *Schinus terebinthifolius* (Wolfe, K.L., pers. comm.).
- bellavista* Draudt ssp. - *Phoradendron quadrangulare* (Janzen, 1984a); *Rhus laurina* (Wolfe, K.L., pers. comm.).
- brisottii* (Boisduval) ssp. - *Excoecaria biglandulosa* (Packard, 1905); *Ligustrum*, EUPHORBIACEAE (Crotch, 1956); *Juglans*, *Carya illinoensis*, *Carya* (Albaugh, 1986); *Prunus*, *Amygdalus communis* (Lemaire, 1988).
- brisottii meridionalis* Bouvier - *Prunus persica* (Dias, 1978).
- hamifera* W. Rothschild ssp. - *Terminalia catappa*, *Salix capraea*, *Ligustrum* (Lemaire, 1988).
- laocoon* (Cramer) - *Aleurites fordii*, *Psidium albortum*, *P. araca*, *P. guajava*, *P. incanescens*, *P. mediterraneum*, *P. petrosum*, *P. pomiferum*, *Acalypha*, *Caryocar brasiliensis*, *Terminalia catappa*, *Rosa*, *Joannesia princeps*, *Anacardium occidentale*, *Gossypium herbaceum*, *Ilex paraguaiensis*, *Zinnia elegans*, *Schinus terebinthifolius*, *Sebastiania klotzschiana*, *Vernonia polyanthus*, *V. tweedieana*, *Diospyros kaki*, *Cupressus* (Dias, 1978); COMBRETACEAE, ROSACEAE, MYRTACEAE, CARYOCARACEAE, MALVACEAE, ANACARDIACEAE, AQUIFOLIACEAE, RICINUS COMMUNIS (Lemaire, 1988).
- lobesis* W. Rothschild ssp. - *Cochlospermum vitifolium*, *Bursera simaruba*, *Spondias mombin*, *Psidium guajava*, *Calycophyllum candidissimum*, *Phoradendron quadrangulare* (Janzen, 1984a).
- mexicana* Grote & Robinson - *Juglans*, *Carya* (Albaugh, 1986).
- phoronea* (Cramer) - "Fruta de erbe" (Packard, 1905); *Bixa orellana* (Dias, 1978); *Urucu* (= *Bixa*) (Lemaire, 1988).
- regalis* (Fabricius) - *Juglans regia*, *Diospyros virginiana* (Morris, 1862); *Juglans cinerea*, *Rhus* (Holland, 1903); *Gossypium herbaceum*, *Juglans nigra* (Packard, 1905); *Liquidambar styraciflua* (Forbes, 1923); *Corylus*, *Ligustrum* (Crotch, 1956); *Carya* (English, 1958); *Rhus glabra*, *R. copallina*, *R. cismontana*, *Salix*, *Quercus* (Villiard, 1969); *Cephalanthus occidentalis*, *Fraxinus*, *Oxydendrum arboreum*, *Platanus occidentalis*, *P. orientalis*, *Prunus domestica*, *Sassafras albidum* var. *molle* (Tietz, 1972); *Nyssa sylvatica*, *Syringa vulgaris* (Ferguson, 1971-72); *Carya illinoensis*, *Diervilla* (Albaugh, 1986); *Rhus typhina* (Lemaire, 1988); *Carya glabra*, *Prunus serotina* (Tuttle, J.P., pers. comm.); *Carya ovata* (Williams, B.D., pers. comm.); *Rhus laurina* (Wolfe, K.L., pers. comm.).

sepulcralis Grote & Robinson - *Pinus* (Holland, 1903); *Pinus caribaea* (Kimball, 1965); *Pinus rigida*, *P. strobus* (Packard, 1905); *Pinus nigra*, *P. mitis*, *P. sylvestris* (Crotch, 1956); *Pinus halepensis* (Lemaire, 1988); *Pinus mugo* (Naumann, S., pers. comm.); *Pinus ponderosa* (Stone, S.E., pers. obs.).

splendens (Druce) ssp. - *Lithrea brasiliensis*, *Schinus dependens*, *Loranthus flexicaulis*, *Mangifera indica* (Dias, 1978); *Rhus* (Platt & Williams, 1982).

splendens sinaloensis C. C. Hoffmann - *Gossypium thurberi* (Weast, 1962); *Arctostaphylos pungens*, *Rhus choriophylla* (Tuskes, 1986b); *Juglans nigra*, *Pistacia lentiscus* (Lemaire, 1988); *Arbutus menziesii*, *Juglans regia*, *Liquidambar styraciflua*, *Schinus molle* (Smith, M.J., pers. comm.); *Carya glabra* (Tuttle, J.P., pers. comm.); *Rhus typhina* (Williams, B.D., pers. comm.); *Rhus laurina* (Wolfe, K.L., pers. comm.).

splendens splendens (Druce) - *Schinus molle* (Vasquez, 1944); *Gossypium thurberi*, *Juglans* (Gardiner, 1982); *Carya illinoensis* (Albaugh, 1986).

vogleri (Weyenbergh) - *Lithrea brasiliensis* (Dias, 1978); *Schinus dependens*, *Phrygilanthus cuneifolius*, *P. eugenoides* (Gardiner, 1982); *Loranthus eugenoides*, *L. acutifolius*, *Eucalyptus*, *Lithrea molleoides* (Lemaire, 1988).

CITIOICA Travassos & Noronha

anthornilis (Herrich-Schäffer) - *Salix capraea*, *Robinia pseudoacacia* (Lemaire, 1988).

COLORADIA Blake

doris Barnes - *Pinus ponderosa* (Ferguson, 1971-72); *Pinus strobus* (Tuttle, J.P., pers. comm.).

luski Barnes & Benjamin - *Pinus strobus* (Tuttle, J.P., pers. comm.).

pandora Blake ssp. - *Pinus ponderosa* (Aldrich, 1912); *Pinus echinata*, *Populus tremuloides* (Tietz, 1972).

pandora davisi Barnes & Benjamin - ?*Pinus edulis* (Ferguson, 1971-72); *Pinus ponderosa*, *P. sylvestris* (Tuttle, J.P., pers. comm.).

pandora lindseyi Barnes & Benjamin - *Pinus jeffreyi* (Aldrich, 1921); *Pinus murrayana* (= *P. contorta* var. *murrayana*), *P. ponderosa* (Patterson, 1929); *Pinus sylvestris* (Tuttle, J.P., pers. comm.); *Pinus thunbergiana* (Wolfe, K.L., pers. comm.).

pandora pandora Blake - *Pinus ponderosa* (Packard, 1914); *Pinus contorta* (Wyrant, 1941); *Pinus contorta* var. *latifolia* (Ferguson, 1971-72); *Pinus strobus*, *P. sylvestris* (Tuttle, J.P., pers. comm.).

velda J. W. Johnson & Walter - *Pinus monophylla* (Tuskes, 1984); *Pinus edulis*, *P. sylvestris* (Smith, M.J., pers. comm.); *Pinus strobus* (Tuttle, J.P., pers. comm.); *Pinus jeffreyi*, *P. thunbergiana* (Wolfe, K.L., pers. comm.).

COPAXA Walker

andensis Lemaire - *Persea* (Lemaire, C., pers. comm.); *Persea americana* (Wolfe, K.L., pers. comm.).

canella Walker - *Phoebe porphyria* (Bouvier, 1936).

- cydippe* (Druce) - *Pinus nigra*, *P. radiata* (Wolfe, K.L., pers. comm.).
decrescens Walker - *Salix* (Herbin, D., pers. comm.); *Persea americana* (Wolfe, K.L., pers. comm.).
denda Druce - *Persea* (Lemaire, C., pers. comm.); *Persea americana* (Wolfe, K.L., pers. comm.).
escalantei Lemaire - *Persea* (Lemaire, C., pers. comm.); *Persea americana* (Wolfe, K.L., pers. comm.).
joinvillea Schaus - *Persea* (Lemaire, C., pers. comm.).
lavendera (Westwood) - *Quercus* (Crotch, 1956); *Salix babylonica*, *Persea* (Lemaire, C., pers. comm.); *Rhus trilobata* (Stone, S.E., pers. obs.); *Persea americana*, *Rhus laurina*, *Cinnamomum camphora* (Wolfe, K.L., pers. comm.).
mannana Dyar - *Quercus gambelii*, *Q. robur* (Stone, S.E., pers. obs.); *Quercus agrifolia*, *Q. ilex*, *Q. kelloggii* (Wolfe, K.L., pers. comm.).
mazaorum Lemaire - *Persea americana*, *Prunus* (Wolfe, K.L., pers. comm.).
medea (Maassen) - *Pinus radiata* (Gara & Onore, 1989).
moinieri Lemaire - *Ocotea veraguensis* (Janzen, 1984a).
muellerana (Dyar) - *Quercus* (Smith, M.J., pers. comm.).
multifenestrata multifenestrata (Herrich-Schäffer) - *Persea americana* (Gara & Onore, 1989).
multifenestrata (Herrich-Schäffer) ssp. - *Salix capraea* (Naumann, S., pers. comm.); *Persea americana* (Wolfe, K.L., pers. comm.).
rufinans Schaus - *Rhus laurina*, *Prunus*, *Quercus*, *Persea americana* (Wolfe, K.L., pers. comm.).
semioculata orientalis Lemaire - *Brachyotum ledifolium* (Onore, G., pers. comm., via Rawlins, J. E.).
syntheratoides W. Rothschild - *Crataegus* (Lemaire, C., pers. comm.).

COPIOPTERYX Duncan

- semiramis* (Cramer) - *Manilkara chicle* (Janzen, 1984a).

COSCINOCERA Butler

- hercules* (Miskin) - *Homalanthus populifolia*, *Panax elegans*, *Dysoxylum* (Crotch, 1956); *Timonius*, *Polyscias*, *Glochidion* (Peigler, 1989); *Ligustrum*, *Syringa vulgaris*, *Prunus serotina* (Sblendorio, D.C., pers. comm.).

CRICULA Walker

- andrei* Jordan - *Rhododendron ponticum* (Packard, 1914); *Prunus*, *Quercus*, *Pyrus malus*, *P. communis*, *Crataegus*, *Ligustrum*, *Salix* (Crotch, 1956); "fruit trees" (Zhu & Wang, 1983).
trifenestrata (Helfer) - *Canarium commune*, *Mangifera indica*, *Persea americana*, *Cinchona succirubra*, *Eugenia aquea*, *E. malaccense*, *Psidium guajava* (Dupont & Scheepmaker, 1936); *Anacardium occidentale*, *Careya arborea*, *Pyrus communis*, *P. malus*, *Machilus odoratissima*, *Salix babylonica*, *Schleichera oleosa* (Arora &

Gupta, 1979); *Rhododendron*, *Eucalyptus gunnii*, *Quercus* (Gardiner, 1982); *Canarium album* (Zhu & Wang, 1983); *Spondias*, *Bischofia*, *Cinnamomum*, *Artocarpus*, *Ziziphus*, *Prunus* (Holloway, 1987).

DECACHORDA Aurivillius

- aspera* Bouvier - *Chloris virgata* (Pinhey, 1972).
- fulvia* (Druce) - "Broad-leaved lawn grasses" (Pinhey, 1972).
- rosea* Aurivillius - "Grasses", *Hyparrhenia* (Pinhey, 1972).

DIRPHIA Hübner

- avia* (Stoll) - *Fagus sylvatica*, *Crataegus oxyacantha*, *Quercus ilex*, *Malus*, *Prunus*, *Salix* (Gardiner, 1974); *Hymenaea courbaril*, *Cedrela odorata* (Janzen, 1984a).
- baroma* Schaus - *Fagus sylvatica*, *Quercus ilex* (Gardiner, 1974).
- curitiba* Draudt - *Quercus*, *Prunus persica*, *Fagus*, JUGLANDACEAE (Gardiner, 1982).
- jorgenseni* Schaus - See *Dirphiopsis ursina* Walker (Lemaire, C., pers. comm.).
- panamensis* Schaus - *Salix* (Herbin, D., pers. comm.); *Robinia pseudoacacia*, *Schinus terebinthifolius* (Wolfe, K.L., pers. comm.).
- tarquinia* (Cramer) - "Locos tree" (Packard, 1914).

DIRPHIOPSIS Bouvier

- delta* (Foetterlé) (= *lombardi* Bouvier) (Lemaire, C., pers. comm.) - ?*Prunus* (Gardiner, 1982).
- ursina* Walker - *Wisteria*, *Schinus gracilipes* (Gardiner, 1982).

DRYOCAMPA Harris

- rubicunda* (Fabricius) ssp. - *Acer saccharinum* (Holland, 1903); *Acer negundo*, *A. rubrum*, *Fagus grandifolia*, *Juglans cinerea*, *Quercus coccinea*, *Q. ilicifolia*, ?*Q. velutina* (Tietz, 1972).
- rubicunda rubicunda* (Fabricius) - *Acer rubrum* (Packard, 1893); *Acer spicatum*, *A. saccharinum*, *A. saccharum* (McGugan et al., 1958); *Quercus laevis* (Ferguson, 1971-72); *Platanus* (Gardiner, 1982); *Acer monspessulanum* (Lemaire, 1988).
- rubicunda alba* Grote - *Acer saccharinum* (Ferguson, 1971-72).

DYSDAEMONIA Hübner

- boreas* (Cramer) - "Paineira" (Packard, 1914); *Bombax ceiba* (Crotch, 1956); *Ceiba pentandra*, MALVACEAE, TILIACEAE (Janzen, 1984a); *Chorisia* (Wolfe, K.L., pers. comm.).
- fosteri* W. Rothschild - *Chorisia speciosa*, ?MALVACEAE, ?TILIACEAE (Crotch, 1956); *Samanea* (= *Albizia*) (Moucha, 1966).

EACLES Hübner

- canaima* Feige - CORNACEAE (Lemaire, 1988).

ducalis Walker - MALVACEAE, MELASTOMATACEAE, *Ligustrum*, *Juglans*, *Fagus*, *Quercus* (Lemaire, 1988).

imperialis (Drury) ssp. - *Platanus occidentalis*, *Quercus*, *Liquidambar styraciflua*, *Pinus* (Morris, 1862); *Prunus virginiana* (Packard, 1893); *Acer*, *Cedrus*, *Prunus* (Forbes, 1923); *Ligustrum*, *Ulmus*, *Fagus*, *Castanea* (Crotch, 1956); *Diospyros* (Baker, 1972); *Abies grandis*, *Acer negundo*, *A. pseudoplatanus*, *A. rubrum*, *A. saccharinum*, *A. saccharum*, *Aesculus hippocastanum*, *Alnus*, *A. serrulata*, *Betula alba*, *B. alba* var. *laciniata*, *B. papyrifera*, *B. populifolia*, *Carpinus caroliniana*, *Carya*, *Castanea dentata*, *C. pumila*, *C. sativa*, *Chamaecyparis thyoides*, *Cornus*, *Crataegus*, *Fagus grandifolia*, *F. sylvatica*, *Gleditsia triacanthos*, *Gossypium herbaceum*, *Juglans cinerea*, *Juniperus communis*, *J. virginiana*, *Koelreuteria paniculata*, *Larix laricina*, *Lindera benzoin*, *Myrica cerifera*, *Ostrya virginiana*, *Picea*, *Pinus banksiana*, *P. echinata*, *P. griffithii*, *P. strobus*, *Platanus orientalis*, *Prunus serotina*, *Quercus coccinea*, *Q. laevis*, *Q. macrocarpa*, *Q. palustris*, *Q. rubra*, *Rhus glabra*, *Rosa*, *Salix*, *Sambucus canadensis*, *Sassafras albidum* var. *molle*, *Taxodium distichum*, *Tilia*, *T. americana*, *T. europaea*, *T. heterophylla*, *Tsuga canadensis*, *Ulmus alata*, *U. americana*, *U. procera*, *U. rubra*, *U. thomasii*, *Viburnum dentatum* (Tietz, 1972); *Cochlospermum vitifolium*, *Bursera tomentosa* (Janzen, 1982); *Platanus*, *Rhus*, *Ulmus* (Albaugh, 1986); *Pinus taeda* (Furr, M., pers. comm.); *Pinus serotina* (Williams, B.D., pers. comm.); *Robinia*, *Rhus laurina* (Wolfe, K.L., pers. comm.).

imperialis anchicayensis Lemaire - *Quercus robur* (Naumann, S., pers. comm.).

imperialis cacicus (Boisduval) - *Mangifera indica*, *Erythrina crista-galli* (Packard, 1905); *Quercus ilex*, *Pistacia lentiscus* (Lemaire, 1988).

imperialis decoris W. Rothschild - *Cochlospermum vitifolium*, *Bursera tomentosa*, *Astronium graveolens*, *Cedrela odorata* (Janzen, 1984a); *Quercus* (Purdum, D.A., pers. comm.).

imperialis imperialis (Drury) - *Carya*, *Juniperus*, *Pinus rigida* (Eliot & Soule, 1902); *Quercus*, *Platanus*, *Tilia*, *Acer saccharinum*, *Gleditsia triacanthos*, *Prunus virginiana*, *Rhus*, *Sassafras albidum*, *Ulmus*, *Fagus*, *Alnus*, *Pinus*, *Picea*, *Betula*, *Carpinus*, *Cupressus*, *Juglans regia*, *Liquidambar styraciflua*, *Tsuga* (Ferguson, 1971-72).

imperialis opaca (Burmeister) - *Erythrina crista-galli*, *Salix babylonica* (Lemaire, 1988); *Quercus robur* (Naumann, S., pers. comm.); *Prunus serotina* (Purdum, D.A., pers. comm.); *Ligustrum* (Stone, S.E., pers. obs.).

*imperialis oslari*² W. Rothschild - *Juglans* (Gardiner, 1982); *Quercus oblongifolia*, *Q. emoryi*, *Schinus molle*, *Liquidambar styraciflua* (Tuskes, 1986b); *Robinia neomexicana* (Sblendorio, D.C., pers. comm.); *Quercus chihuahuensis* (Smith, M.J., pers. comm.); *Quercus robur*, *Q. gambelii* (Stone, S.E., pers. obs.);

² Lemaire (1988: 34) lists several conifers as foodplants for *E. imperialis oslari*. However, Gage (1976: 175-176) records high larval mortality on conifers.

Quercus rubra (Williams, B.D., pers. comm.); *Rhus laurina* (Wolfe, K.L., pers. comm.).

imperialis pini Michener - *Pinus banksiana*, *P. strobus* (Michener, 1950); *Pinus resinosa* (McGugan et al., 1952); *Pinus sylvestris*, *Picea glauca* (Ferguson, 1971-72); *Sapindus saponaria*, *Quercus palustris* (Tuttle, J.P., pers. comm.).

imperialis tucumana W. Rothschild - *Ligustrum* (Crotch, 1956); *Schinus dependens*, *Celtis* (Lemaire, 1988).

masoni Schaus ssp. - *Rhus laurina* (Wolfe, K.L., pers. comm.).

ormondei Schaus ssp. - *Quercus*, *Rhus laurina* (Wolfe, K.L., pers. comm.).

penelope (Cramer) - *Psidium pomiferum*, MELASTOMATACEAE (Packard, 1905); *Quercus ilex*, *Fagus sylvatica* (Gardiner, 1966); *Laburnum*, *Ligustrum*, *Juglans regia* (Gardiner, 1982); *Salix* (Lemaire, 1988).

EOCHROA Felder

trimeni Felder - *Melianthus minor* (Pinhey, 1972); *Melianthus pectinatus* (Oberprieler, 1987); *Melianthus dregianus* (Wolfe, K.L., pers. comm.).

EPIPHORA Wallengren

albida (Druce) - *Paullinia*, *Fagara macrophylla* (Gardiner, 1982).

atbarina Butler - *Ziziphus* (Gardiner, 1982).

bauhiniae (Guérin-Méneville) - *Ziziphus mucronata*, *Z. spinachristii*, *Z. jujuba*, *Z. mauritiana* (Pinhey, 1972).

boolana Strand - *Discoglypremma caloneura* (Rougeot, 1962).

lugardi Kirby - *Discoglypremma caloneura* (Gardiner, 1982).

mythimnia (Westwood) - "Psekamafoura", *Croton sylvaticus*, *Helinus ovatus*, *Ziziphus mucronata* (Platt, 1921); *Croton gratissimus* (Oberprieler, 1987); *Rhamnus frangula* (Naumann, S., pers. comm.).

ploetzi (Plötz) - *Fagara macrophylla* (Gardiner, 1982).

rectifascia Rothschild - *Ziziphus mauritiana*, *Maesopsis emini* (Crotch, 1956); *Ziziphus mauritanicus* (Rougeot, 1962); *Croton* (Gardiner, 1982).

vacuna (Westwood) - *Maesopsis emini* (Pinhey, 1972); *Fagara heitzii*, *Croton oligondrum* (Gardiner, 1982).

ERIOGYNA Jordan

pyretorum Westwood - *Liquidambar formosana*, *Cinnamomum camphora* (Crotch, 1956); *Crataegus* (Gardiner, 1982); *Eriobotrya japonica*, *Pterocarya stenoptera*, *Rosa multifolia*, *Psidium guajava*, *Pyrus pyrifolia*, *Ulmus pumila* (Zhu & Wang, 1983).

EUBERGIA Bouvier

caisa (Berg) (=boetifica Druce) (Lemaire, C., pers. comm.) - *Mimosa laurentzii* (Gardiner, 1982).

EUDYARIA Butler

venata Butler - *Eryngium agavifolium*, *Poterium*, *Sanguisorba*, *Conopodium denudatum*, *Pimpinella saxifraga*, UMBELLIFERAE (= APIACEAE) (Crotch, 1956).

EUPACKARDIA Cockerell

calleta (Westwood) - *Prunus serotina* (Packard, 1914); *Ligustrum*, *Betula* (Crotch, 1956); *Leucophyllum frutescens*, *Fraxinus*, *Syringa vulgaris*, *Salix*, *Schinus molle* (Collins & Weast, 1961); *Fouquieria splendens* (Ferguson, 1971-72); *Pyrus malus* (Gardiner, 1982); *Forestiera angustifolia* (Peigler, R.S., pers. comm.); *Sapium bilobulare* (Smith, M.J., pers. comm.); *Salix babylonica* (Tuttle, J.P., pers. comm.); *Rhus laurina* (Wolfe, K.L., pers. comm.).

EUSTERA Duncan

argiphontes Maassen & Kirby - *Albizia* (Gardiner, 1982).

brachyura Drury - *Dialium guineense* (Packard, 1914).

GAMELIA Hübner

abasia (Stoll) - *Psidium guajava* (Gardiner, 1982).

GONIMBRASIA Butler

belina (Westwood) - *Carissa grandiflora*, *Ficus*, *Rhus longifolia*, *Sclerocarya caffra*, *Trema bracteolata* (Platt, 1921); *Terminalia schweinfurthi*, *T. velutina* (Rougeot, 1962); *Colophospermum mopane*, *Diospyros*, *Rhus lancea* (Pinhey, 1972); *Copaifera* (Gardiner, 1982); *Pinus radiata*, *Sclerocarya birrea*, *Schotia brachypetala*, *Burkea africana*, *Trema orientalis*, *Platanus* (Oberprieler, 1986).

hecate (Rougeot) - *Combretum*, *Berlinia* (Rougeot, 1962); *Terminalia*, *Annona*, *Bauhinia* (Gardiner, 1982).

osiris annulata (Druce) - *Terminalia schweinfurthi* (Bouvier, 1936).

tyrrhea (Cramer) ssp. - *Acacia mollissima* (Platt, 1921); *Acacia karroo* (Dickerson, 1945); *Pyrus malus*, *Crataegus* (Crotch, 1956); *Salix* (Pinhey, 1972); *Diospyros lycioides* (Oberprieler, 1987); *Quercus robur* (Naumann, S., pers. comm.); *Prunus virginiana* (Stone, S.E., pers. obs.); *Rhus laurina* (Wolfe, K.L., pers. comm.).

zambesina (Walker) - *Nerium oleander* (Platt, 1921); *Mangifera*, *Poinciana* (= *Delonix*), *Diospyros mespiliformis* (Pinhey, 1972); *Fagus* (Gardiner, 1982); *Rhus* (Wolfe, K.L., pers. comm.).

GOODIA Holland

kuntzei (Dewitz) - *Brachystegia randii* (Platt, 1921); *Berlinia paniculata*, *Brachystegia venosa* (Crotch, 1956); *Acacia sieberiana*, *Brachystegia spiciformis*, *Julbernardia paniculata* (Pinhey, 1972).

lunata Holland - *Aframomum* (Rougeot, 1962); *Ficus*, *Amomum* (Gardiner, 1982).

nubilata Holland - ZINGIBERACEAE, AMPELIDACEAE (= VITACEAE), STERCULIACEAE (Gardiner, 1982).

sentosa Jordan - *Aframomum* (Rougeot, 1962); *Amomum* (Gardiner, 1982).

GRAELLSIA Grote

isabellae (Graëlls) ssp. - *Pinus maritima* (Packard, 1914); *Pinus*, esp. *P. sylvestris* (Crotch, 1956); *Pinus laricio* (Rougeot & Viette, 1983).

GYNANISA Walker

ata Strand - ?*Khaya nyasica* (Pinhey, 1968); *Brachystegia venosa*, *Acacia*, *Julbernardia* (Pinhey, 1972).

maja (Klug) ssp. - *Acacia mollissima* (Platt, 1921); *Acacia karroo* (Taylor, 1947); *Berlinia paniculata*, *Brachystegia venosa*, *Laburnum* (Crotch, 1956); *Elephantorrhiza burchelli* (Rougeot, 1962); *Prunus persica* (Pinhey, 1972); *Cassia*, *Berlinia*, *Robinia pseudoacacia*, "fruit trees" (Gardiner, 1982); *Colophospermum*, *Peltophorum*, *Pterocarpus*, *Schotia*, *Julbernardia* (Oberprieler, 1987); *Quercus robur*, *Q. turneri* (Naumann, S., pers. comm.); *Quercus gambelii* (Stone, S.E., pers. obs.).

nigra Bouvier - *Colophospermum mopane* (Pinhey, 1968); *Acacia* (Pinhey, 1972).

HELICONISA Walker

pagenstecheri (Geyer) - "Grasses" (Gardiner, 1982).

HEMILEUCA Walker

artemis Packard - *Populus fremontii* (Packard, 1893); *Salix longifolia* (Packard, 1914).

burnsi J. H. Watson - *Eriogonum fasciculatum*, *Parosela* (=*Dalea*) *californica*, *Tetradymia spinosa* (Comstock & Dammers, 1937); *Tetradymia glabrata*, *Dalea fremontii* (Ferguson, 1971-72); *Tetradymia axillaris* (McFarland, 1975); *Prunus fasciculata*, *Eriogonum fasciculatum* var. *polifolium* (later instars) (Tuskes, 1984); *Acacia greggi* (Stone & Smith, 1990); *Gleditsia triacanthos* (Curtis, W.M., pers. comm.); *Prunus virginiana* (Stone, S.E., pers. obs.).

chinatiensis (Tinkham) - *Mimosa lindheimeri*, *M. borealis*, *Ephedra nevadensis* var. *aspera*, *Rhus aromatica* var. *flabelliformis*, *Forestiera angustifolia* (Ferguson, 1971-72); *Condalia*, *Acacia* (Stone & Smith, 1990); *Fremontia californica*, *Rhus microphylla* (Smith, M.J., pers. comm.); *Cercocarpus* (Wolfe, K.L., pers. comm.).

conwayae Peigler - *Condalia ericoides*, *Rhus microphylla* (Peigler, 1985).

diana Packard - *Quercus oblongifolia* (Kendall & Peigler, 1981); *Quercus emoryi* (Tuskes, 1986a); *Quercus turbinella* (Smith, M.J., pers. comm.); *Quercus gambelii*, *Q. robur* (Stone, S.E., pers. obs.); *Quercus lobata* (Tuskes, P.M., pers. comm.); *Quercus palustris* (Tuttle, J.P., pers. comm.).

eglantina (Boisduval) ssp. - *Prunus*, *Ceanothus*, *Arctostaphylos*, *Rosa*, *Rhamnus purshiana* (Packard, 1914); *Ceanothus thyrsiflorus* (Tilden, 1945); *Amelanchier* (Evans, 1958); *Salix*, *Betula*, *Populus tremuloides*, *Acer circinatum*, *Holodiscus discolor* (McGugan et al., 1958); *Ceanothus spinosa*, *Rhamnus californicus*, *Prunus*

virginiana, *Purshia tridentata* (Ferguson, 1971-72); *Arctostaphylos glauca*, *A. uva-ursi*, *Prunus cerasus*, *P. domestica*, *P. domestica* var. *gelatensis*, *P. serotina*, *Rhamnus alnifolia*, *Rubus allegheniensis*, *Vitis californica*, *V. vulpina*, ROSACEAE (Tietz, 1972); *Cercocarpus betuloides* (McFarland, 1974); *Symporicarpos* (Tuskes, 1976); *Pyrus malus*, *Acer*, *Symporicarpos albus*, *S. mollis*, *Spiraea menziesii* (Gardiner, 1982); *Pyracantha*, *Rubus*, ?*Quercus*, *Prunus emarginata*, *Ceanothus velutinus*, *Symporicarpos vaccinoides* (Tuskes, 1984); *Prunus avium* (Naumann, S., pers. comm.); *Adenostoma fasciculatum* (Smith, M.J., pers. comm.); *Cercocarpus montanus* (Stone, S.E., pers. obs.); *Potentilla* (Warren, A.D., pers. comm.); *Salix discolor* (Williams, B.D., pers. comm.).

electra W. G. Wright ssp. - *Eriogonum fasciculatum* (Comstock & Dammers, 1939); *Eriogonum fasciculatum* var. *polifolium* (Smith, 1974); *Bursera microphylla*, *Idria columnaris*, *Tamarix gallica*, *Simmondsia chinensis* (Stone & Smith, 1990).

griffini Tuskes - *Coleogyne ramosissima*, *Cercocarpus betuloides* (Tuskes, 1978); *Amelanchier* (Smith, 1988); *Ephedra* (Stone & Smith, 1990).

grotei Grote & Robinson - *Quercus virginiana* var. *fusiformis*, *Q. virginiana* (Ferguson, 1971-72); *Quercus havardii* X *Q. stellata*, *Q. marilandica*, *Q. texana* (Kendall & Peigler, 1981); *Quercus gambelii* (Stone, S.E., pers. obs.); *Quercus stellata* (Tuttle, J.P., pers. comm.).

hera hera (Harris) - *Artemisia* (Packard, 1914); *Artemisia tridentata* (McFarland, 1974); *Lupinus*, *Eriogonum* (Tuskes, 1976); *Artemisia cana* (Collins, M.M., pers. comm.).

hera marcata (Neumoegen) - *Artemisia tridentata* (Stone et al., 1988).

hualapai (Neumoegen) - *Bouteloua curtipendula* (Ferguson, 1971-72); *Cynodon* (Smith, M.J., pers. comm.).

juno Packard - *Prosopis juliflora* (Comstock & Dammers, 1939); *Prosopis glandulosa* (Tietz, 1972); *Gleditsia triacanthos* (Tuttle, J.P., pers. comm.).

lex (Druce) - "Leguminous plants", *Robinia pseudoacacia*, *Fagus* (Gardiner 1982); *Quercus arizonica*, *Eriogonum wrightii* (Hansen, K.C., pers. comm.).

lucina Henry Edwards - *Spiraea latifolia* (Reiff, 1910); *Betula populifolia*, *Prunus serotina*, *Quercus*, *Spiraea salicifolia* (Tietz, 1972); ?*Salix* (Peigler & Stone, 1989); *Spiraea tomentosa* (Tuttle, J.P., pers. comm.).

magnifica (Rotger) - *Artemisia filifolia* (Townsend, 1893 [as *Hemileuca maia*]); *Artemisia tridentata* (Stone et al., 1988); *Eriogonum effusum* (Beutler, L., pers. comm.).

maia (Drury) - *Quercus rubra* var. *ambigua* (Smith, 1797); *Prunus*, *Salix*, *Corylus* (Holland, 1903); *Quercus velutina* (Ely, 1954); *Quercus ilicifolia*, *Q. shumardii*, *Q. virginiana* (Ferguson, 1971-72); *Populus tremuloides*, *Prunus cerasus*, *P. serotina*, *Quercus laevis*, *Q. stellata* (Tietz, 1972); *Salix babylonica* (Leeuw, 1974); *Salix hindsiana* (Smith, 1974); *Quercus prinoides* (Cryan & Dirig, 1977); *Populus fremontii* (Stone, S.E., pers. obs.); *Salix interior*, *Betula pumila* (Tuttle, J.P., pers. comm.).

mania (Druce) - "Pasture grasses", *Zea mays* (Crotch, 1956).

- neumoegeni* Henry Edwards - *Eriogonum fasciculatum* (Bauer, 1948); *Prunus fasciculata*, *Rhus trilobata* (Tuskes, 1976); *Fallugia paradoxa* (Stone & Smith, 1990); *Prunus virginiana* (Stone, S.E., pers. obs.).
- nevadensis* Stretch - *Populus fremontii*, *Salix longifolia* (Packard, 1914 [as *Hemileuca maia*]); *Populus tremuloides* (McGugan et al., 1958); *Prunus* (Ferguson, 1971-72); *Salix interior*, *S. lasiandra*, *S. lasiolepis* (Tietz, 1972); *Corylus* (Villiard, 1969); *Salix babylonica* (Tuttle, J.P., pers. comm.); *Salix discolor* (Williams, B.D., pers. comm.); *Quercus agrifolia* (Wolfe, K.L., pers. comm.).
- nuttalli nuttalli* (Strecker) - *Purshia tridentata*, *Symporicarpos* (Ferguson, 1971-72); *Cercocarpus betuloides* (McFarland, 1974); *Symporicarpos oreophilus* (Richards, J.L., pers. comm.); *Pyracantha* (Smith, M.J., pers. comm.); *Symporicarpos albus* (Stone, S.E., pers. obs.).
- nuttalli uniformis* (Cockerell) - *Symporicarpos* (Ferguson, 1971-72); *Purshia tridentata*, *Symporicarpos vaccinoides* (Tuskes, 1984).
- oliviae* Cockerell - *Bouteloua hirsuta*, *B. oligostachya*, *B. curtipendula*, *Buchloe dactyloides*, *Hilaria cenchroides*, *Andropogon hallii*, *Lycurus phleoides*, *Distichlis spicata*, *Sitanion jubatum*, *Hordeum caespitosum*, *Bromus polyanthus* (Ainslie, 1910); "a grass-feeder", *Muhlenbergia ?texana* (Packard, 1914); *Agropyron smithii*, *Bouteloua gracilis*, *Sporobolus airoides* (Tietz, 1972); *Sorghum* (Peigler, R.S., pers. comm.).
- peigleri* Lemaire - *Quercus havardii* (Lemaire, 1979a); *Quercus fusiformis*, *Q. texana* (Peigler & Stone, 1989); *Quercus robur* (Stone, S.E., pers. obs.).
- rubridorsa* Felder - "Leguminous plants", *Mimosa dealbata*, *Robinia pseudoacacia*, *Salix*, *Quercus* (Gardiner, 1982); *Acacia* (Wolfe, K.L., pers. comm.).
- slosseri* Peigler & Stone - *Quercus havardii*, *Q. fusiformis* (Peigler & Stone, 1989); *Quercus macrocarpa* (Peigler, R.S., pers. comm.); *Quercus robur* (Stone, S.E., pers. obs.).
- tricolor* (Packard) - *Cercidium* (Bauer, 1948); *Cercidium microphyllum*, *Idria columnaris*, *Prosopis* (Stone & Smith, 1990); *Gleditsia triacanthos*, *Quercus* (Smith, M.J., pers. comm.); *Robinia neomexicana*, *Quercus rubra* (Stone, S.E., pers. obs.); *Mimosa* (Wolfe, K.L., pers. comm.).

HENIOCHA Hübner

- apollonia* (Cramer) - *Acacia mollissima* (Platt, 1921).
- dyops* (Maassen & Weymer) - *Acacia mollissima* (Platt, 1921).
- marnois* Rogenhofer - *Acacia mollissima* (Pinhey, 1972).

HOLOCERINA Pinhey

- agomensis* (Karsch) - *Uapaca*, *Brachystegia*, *Bauhinia reticulata* (Crotch, 1956); *Monotes glaberi*, *Protea*, *Uapaca kirkiana*, *U. nitida* (Pinhey, 1972); *Laburnum* (Gardiner, 1982).
- angulata* (Aurivillius) - *Bauhinia reticulata* (Crotch, 1956); *Spathodea campanulata* (Rougeot, 1962); *Psorospermum*, *Piliostigma* (= *Bauhinia*) (Pinhey, 1972).

rholodesiensis (Janse) - *Cussonia spicata* (Platt, 1921).

smilax (Westwood) - *Jasminum pubigerum*, *Quercus* (Packard, 1914); *Rhus laevigata*, *R. longifolia*, *R. villosa*, *Psidium*, *Ekebergia meyeri*, *Quercus pedunculata* (Platt, 1921); *Ligustrum*, *Psidium guajava* (Pinhey, 1972); *Pinus patula* (Van den Berg & Van den Berg, 1973); *Piliostigma* (= *Bauninia*) (Pinhey, 1975); *Rhus trilobata* (Gardiner, 1982); *Pyrus malus*, *Syringa vulgaris*, *Rhus glabra* (Peigler, R.S., pers. comm.); *Quercus gambelii* (Stone, S.E., pers. obs.).

HOMOEOPTERYX Jordan

RUBIACEAE (Crotch, 1956).

HYALOPHORA Duncan

cecropia (Linnaeus) - *Pyrus malus*, *Prunus*, *Ribes*, *Berberis* (Morris, 1862); *Tilia americana*, *T. europaea*, *Acer spicatum*, *A. saccharinum*, *A. dasycarpum*, *A. rubrum*, *Negundo aceroides*, *Prunus americana*, *P. domestica*, *P. pennsylvanica*, *P. serotina*, *P. vulgaris*, *Spiraea opulifolia*, *S. salicifolia*, *S. tomentosa*, *Crataegus coccinea*, *C. tomentosa*, *C. crus-galli*, *Pyrus communis*, *P. coronaria*, *P. americana*, *Amelanchier canadensis*, *Ribes floridum*, *R. floridum* var. *officinale*, *R. rubrum* var. *officinale*, *Sambucus canadensis*, *S. pubens*, *Ulmus americana*, *U. racemosa*, *U. fulva*, *Quercus alba*, *Fagus ferruginea*, *Corylus americana*, *C. rostrata*, *Carpinus americana*, *Betula alba*, *B. excelsa*, *B. lenta*, *Alnus incana*, *A. serrulata*, *Salix humilis*, *S. lucida*, *S. viminalis*, *S. alba*, *Populus tremuloides*, *P. balsamifera* (Brodie, 1882)³; "a predilection for the ROSACEAE" (Holland, 1903); *Syringa vulgaris*, *Alnus glutinosa*, *Ribes rubrum*, *Carya*, *Gleditsia triacanthos* (Saunders, 1909); *Fraxinus*, *Populus*, *Rosa*, *Liriodendron*, *Rubus*, *Ceanothus*, *Vaccinium*, *Acer plantanoides*, "fruit trees" (Packard, 1914); *Acer negundo* (Priddle, 1966); *Myrica cerifera*, *M. carolinensis*, *Spiraea latifolia*, *Viburnum cassinoides*, *Betula populifolia* (Ferguson, 1971-72); *Juglans regia*, *Salix discolor* (Baker, 1972); *Carya illinoensis* (Brown, 1972); *Aronia arbutifolia*, *Berberis vulgaris*, *Betula alleghaniensis*, *B. papyrifera*, *Cephalanthus occidentalis*, *Corylus cornuta*, *Crataegus calpodendron*, *C. oxyacantha*, *C. pedicellata*, *Gaylussacia frondosa*, *Hunnulus lupulus*, *Malus coronaria*, *M. pumila*, *Ostrya virginiana*, *Paeonia officinalis*, *Parthenocissus quinquefolia*, *Philadelphus inodorus*, *Physocarpus opulifolius*, *Prunus cerasus*, *P. ilicifolia*, *P. maritima*, *P. virginiana*, *Ribes americanum*, *R. grossularia*, *R. nigrum*, *R. sativum*, *Rosa blanda*, *Rubus allegheniensis*, *R. idaeus* var. *strigosus*, *R. occidentalis*, *Sambucus racemosa* var. *pubens*, *Sassafras albidum* var. *molle*, *Sorbus americana*, *Spiraea betulifolia* var. *corymbosa*, *Symporicarpos albus*, *Ulmus rubra*, *U. thomasii*, *Wisteria sinensis* (Tietz, 1972); *Cornus stolonifera* (Waldbauer & Sternburg, 1973); *Larix*

³ Packard (1914: 212) incorrectly gives this citation as Brodie (*Papilio*, Feb., 1882, v. 1, p. 32-33). The correct citation is in References Consulted here.

(Scarborough *et al.*, 1974); *Rhus glabra*, *Salix interior*, *Toxylon* (=*Maclura pomifera*) (*Sternburg & Waldbauer*, 1981); *Cephalanthus* (*Albaugh*, 1986); *Prunus avium* (*Naumann*, S., pers. comm.); *Morus alba*, *Rhus typhina* (*Sblendorio*, D.C., pers. comm.); *Ribes alpinum* (*Stone*, S.E., pers. obs.); *Rhus laurina* (*Wolfe*, K.L., pers. comm.).

columbia (S. I. Smith) ssp. - *Abies balsamea*, *Myrica pensylvanica*, *Picea glauca*, *P. marina*, *Prunus cerasus*, *P. pensylvanica*, *P. virginiana*, *Salix alba*, *Spiraea tomentosa*, *Tsuga canadensis*, *Ulmus* (*Tietz*, 1972); *Prunus serotina* (*Sblendorio*, D.C., pers. comm.).

columbia columbia (S. I. Smith) - ?*Nemopanthus canadensis* (=*Nemopanthus mucronata*), ?*Rhodora canadensis* (=*Rhododendron canadense*), ?*Kalmia angustifolia*, ?*Acer*, *Larix laricina* (Smith, 1865)⁴; *Prunus virginiana* (*Collins & Weast*, 1961); *Salix babylonica* (*Tuttle*, 1985); *Prunus domestica*, *Pseudotsuga menziesii* (*Stone*, S.E., pers. obs.).

columbia gloveri (*Strecker*) - *Prunus serotina*, *P. virginiana* (*Eliot & Soule*, 1902); *Salix* (*Comstock*, 1931); *Larix decidua* (*Crotch*, 1956); *Acer*, *Alnus*, *Elaeagnus angustifolia*, *Ribes*, *Salix exigua* (*Collins & Weast*, 1961); *Ligustrum*, *Syringa vulgaris* (*Villiard*, 1969); *Shepherdia* (*Ferguson*, 1971-72); *Acer negundo*, *Larix laricina*, *Ribes lacustre*, *R. sativum*, *Ulmus* (*Tietz*, 1972); *Pseudotsuga* (*Collins*, 1973); *Purshia*, *Rosa* (*Tuskes*, 1976); *Arctostaphylos patula*, *Ceanothus cordulatus*, *C. velutinus*, *Prunus demissa*, *P. emarginata*, *Purshia tridentata*, *Shepherdia argentea* (*Collins*, 1984); *Prunus domestica*, *Betula pendula* (*Naumann*, S., pers. comm.); *Arctostaphylos* (Smith, M.J., pers. comm.); *Ribes alpinum* (*Stone*, S.E., pers. obs.); *Salix babylonica*, *Rhus trilobata* (*Tuttle*, J.P., pers. comm.); *Salix discolor* (*Williams*, B.D., pers. comm.).

columbia nokomis (*Brodie*) - *Salix alba* (*Skinner*, 1908); *Elaeagnus argentea* (*Packard*, 1914).

euryalus euryalus (*Boisduval*) - *Ceanothus thyrsiflorus* (*Holland*, 1903); *Prunus serotina* (*Packard*, 1914); *Amelanchier alnifolia*, *Ceanothus sanguineus*, *Acer glabrum*, *Ribes sanguineum* (*Jones*, 1951); *Salix* (*Crotch*, 1956); *Alnus rubra*, *Rosa*, *Shepherdia canadensis* (*McGugan et al.*, 1958); *Arctostaphylos*, *Betula occidentalis*, *Pyrus malus*, *Schinus molle*, *Cephalanthus*, *Rhamnus californicus*, *Ribes* (*Collins & Weast*, 1961); *Malus pumila*, *Syringa vulgaris* (*Villiard*, 1969); *Amelanchier florida*, *Arctostaphylos glauca*, *Ceanothus integerrimus*, *Larix laricina*, *Photinia arbutifolia*, *Picea*, *Prunus virginiana*, *Pseudotsuga menziesii*, *Rhamnus californicus* var. *tomentella*, *R. crocea*, *R. purshiana* (*Tietz*, 1972); *Rhus*, *Arbutus*, *Quercus* (*Tuskes*, 1976); *Purshia tridentata* (*Furniss & Carolin*, 1977); *Arctostaphylos patula*, *Ceanothus cordulatus*, *C. velutinus*, *Prunus demissa*, *P. emarginata*, *Salix exigua*, *Shepherdia argentea* (*Collins*, 1984); *Coffea* (*Albaugh*,

⁴ Except for *Larix laricina* these foodplants are probably erroneous, as explained by Ferguson (1971-72: 253).

1986); *Ribes alpinum* (Stone, S.E., pers. obs.); *Salix babylonica* (Tuttle, J.P., pers. comm.); *Salix discolor* (Williams, B.D., pers. comm.); *Rhus laurina*, *Liquidambar styraciflua* (Wolfe, K.L., pers. comm.).
euryalus cedrosensis (Cockerell) - *Pachycormus discolor*, *Rhus laurina*, *R. integrifolia*, *Schinus molle* (Smith, M.J., pers. comm.).

HYLESIA Hübner

acuta Druce - *Schinus terebinthifolius* (Wolfe, 1988); *Bursera simaruba* (Wolfe, K.L., pers. comm.).
alinda Druce - *Persea americana* (Gardiner, 1982).
continua *cressida* Dyar - *Quercus* (Smith, M.J., pers. comm.).
dalina Schaus - *Casearia odorata*, *Malvaviscus arboreus* (Janzen, 1984a); *Casearia arguta* (Janzen, 1985).
lineata Druce - *Tabebuia rosea*, *Bombacopsis quinatum*, *Cordia alliodora*, *Hirtella racemosa*, *Muntingia calabura*, *Casearia arguta*, *C. corymbosa*, *C. sylvestris*, *Zuelania guidonia*, *Acacia tenuifolia*, *Cassia biflora*, *Diphysa robiniooides*, *Enterolobium cyclocarpum*, *Hymenaea courbaril*, *Lonchocarpus minimiflorus*, *L. costaricensis*, *Lysiloma auritum*, *Machaerium kegelii*, *Mimosa pigra*, *Myrospermum frutescens*, *Pithecellobium lanceolatum*, *Hypsis pectinata*, *Malvaviscus arboreus*, *Banisteriopsis muricata*, *Byrsonima crassifolia*, *Stigmaphyllon ellipticum*, *Psidium guineense*, *Ouratea lucens*, *Gouania polygama*, *Calycophyllum candidissimum*, *Chomelia spinosa*, *Guettarda macrosperma*, *Xanthoxylum setulosum* (= *Zanthoxylum*), *Allophyllum occidentalis*, *Cupania guatemalensis*, *Paullinia cururu*, *Serjania schiedeana*, *Urvillea ulmacea*, *Byttneria aculeata*, *B. catalpaefolia*, *Guazuma ulmifolia*, *Luehea speciosa*, *Lantana camara*, *Erythroxylum havanense*, *Calliandra emarginata* (Janzen, 1984a); *Bauhinia ungulata*, ?*Persea americana*, ?*Dalbergia retusa*, ?*Gliricidia sepium*, ?*Inga vera*, ?*Pithecellobium lanceolatum*, ?*Triunfetta lappula* (Janzen, 1984b); *Quercus* (Smith, M.J., pers. comm.); *Acacia baileyana*, *Robinia pseudoacacia* (larvae are nocturnal feeders, Wolfe, K.L., pers. comm.).
nigricans Berg - "Fruit trees", *Salix* (Crotch, 1956); *Populus*, *Pyrus malus*, *Quercus* (Gardiner, 1982).
remex Dyar - *Porlieria lorentzii* (Gardiner, 1982).
wagneri Bouvier - MELASTOMATAEAE, *Tibouchina holosericea* (Gardiner, 1982).

HYPERCHIRIA Hübner

incisa (Walker) ssp. - *Quercus*, *Q. ilex* (Crotch, 1956); *Cassia corymbosa*, *Celtis spinosa*, *Ficus benjamina*, *Platanus orientalis*, *Wisteria*, *Berberis lauina*, *Serjania*, *Fagus*, *Laburnum* (Gardiner, 1982).
nausica (Cramer) - *Anacardium*, *Laburnum*, *Robinia pseudoacacia*, *Fagus* (Gardiner, 1982).
orodina (Schaus) - SAPINDACEAE, *Quamoclit setosa* (Gardiner, 1982).

IMBRASIA Hübner

anna (Maassen & Weymer) - *Hyphaene crinita* (Platt, 1921).

carnegiei (Janse) - *Brachystegia globifera* (Platt, 1921); *Mimosa richelmanni*, *Brachystegia* (Bouvier, 1936); *Protea* (Pinhey, 1972).

cleoris (Jordan) - *Prunus*, *Crataegus*, *Rosa*, *Ligustrum* (Crotch, 1956).

cytherea (Fabricius) ssp. - *Acacia cyclopis*, *Euclea racemosa* (Dickerson, 1944); *Euclea polyandra* (Dickerson, 1945); *Cydonia*, *Leucospermum ellipticum*, *Psidium*, ?*Pyrus communis*, *Watsonia iridifolia*, *Myrsine melanophloeos*, *Rhus angustifolia*, *R. crenata*, *R. tomentosa*, *R. lucida*, *Protea mellifera*, *P. mundii*, *Acacia saligna*, *A. cyanophylla*, *Myrica conifera*, *Rhamnus pruinaoides* (Pinhey, 1972); *Crataegus*, *Pinus*, *Pyrus malus*, *Quercus*, *Rhamnus* (Pinhey, 1975); *Myrica cordifolia*, *Acacia mollissima*, *Cupressus macrocarpa*, *Eucalyptus globulus*, *Euclea daphnoides*, *Liriodendron tulipifera* (Gardiner, 1982); *Pinus sylvestris* (Naumann, S., pers. comm.).

cytherea clarki (Geertsema) - *Rhus dura* (Van den Burg & Van den Burg, 1973); *Pinus radiata* (Van den Berg, 1974).

dione (Fabricius) - *Ricinus communis*, *Mimosa*, *Theobroma cacao* (Bouvier 1936); *Jatropha curcas*, *Spondias lutea*, *Anacardium occidentale* (Rougeot, 1962); *Aleurites fordii*, *A. montana*, *Chlorophora*, *Bauhinia petersiana*, *Diplorhynchus mossambicensis*, *Eugenia*, *Khaya*, *Psidium* (Pinhey, 1972); *Erythroxylum havanense* (Gardiner, 1982).

emini (Butler) - *Protea affinis* (Gardiner, 1982).

erli Rebel - *Brachystegia randii* (Platt, 1921); *Julbernardia paniculata*, *Brachystegia spiciformis*, *Acacia* (Pinhey, 1972); *Berlinia*, *Laburnum*, *Robinia pseudoacacia* (Gardiner, 1982).

gueinzii (Staudinger) - *Maesa alnifolia* (Platt, 1921); *Myrica* (Bouvier, 1936); *Pyrus malus*, *Prunus* (Crotch, 1956).

krucki (Hering) - *Schinus*, *Acocanthera*, *Fagus*, *Betula* (Gardiner, 1982).

longicaudata (Holland) - "Polyphagous" (Gardiner, 1982).

macrops (Rebel) - *Brachystegia venosa*, *Pinus* (Pinhey, 1972).

macrothyris Rothschild - *Brachystegia randii* (Platt, 1921); *Prunus*, *Pyrus malus* (Crotch, 1956); *Julbernardia*, *Brachystegia spiciformis* (Pinhey, 1972).

nictitans (Fabricius) - *Annona senegalensis*, *Bauhinia reticulata*, *Terminalia schweinfurthii* (Bouvier, 1936); *Berlinia*, *Combretem* (Crotch, 1956); *Brachystegia*, *Acacia mearnsii*, *Holarrhena floribunda*, *Salix* (Gardiner, 1982).

obscura (Butler) - EUPHORBIACEAE, RHAMNACEAE (Gardiner, 1982).

oyemensis (Rougeot) - *Robinia pseudoacacia*, *Laburnum*, *Fagus* (Gardiner, 1982).

rectilineata (Sonthonnax) [=richelmanni (Weymer)] (Lemaire, C., pers. comm.) - "Fruit trees", *Salix* (Crotch, 1956); "a yellow creeper", *Diplorhynchus mossambicensis*, *Uapaca kirkiana*, *Syzygium owariense* (Pinhey, 1972).

rubra (Bouvier) - *Uapaca kirkiana*, *U. nitida* (Crotch, 1956); "fruit trees", *Corylus* (Gardiner, 1982).

wahlbergi (Boisduval) - *Psidium*, *Mangifera indica*, *Ricinus communis*, *Trema bracteolata* (Platt, 1921); *Schinus*, *Quercus* (Crotch, 1956); *Maerua*, *Mangifera*, *Psidium guajava*, *Prunus persica* (Pinhey, 1972).

ITHOMISA Oberthür

Ithomisa sp. - *Paepalanthus polyanthus* (Crotch, 1956).

LEMAIREIA Nässig & Holloway

luteopeplus aureopeplus Nässig & Holloway - *Rhus typhina*, *Liquidambar styraciflua* (Lampe & Nässig, 1989).

LEUCANELLA Lemaire

acutissima (Walker) - *Rhus laurina* (Wolfe, K.L., pers. comm.).

aspera (C. & R. Felder) ssp. - *Prosopis algarobilla*, *Celtis tala*, *Robinia pseudoacacia*, *Laburnum*, *Fagus* (Gardiner, 1982); *Ligustrum* (Naumann, S., pers. comm.).

contempta contempta Lemaire - *Prunus capuli* (Gara & Onore, 1989).

leucane (Geyer) - *Ligustrum* (Packard, 1914); *Betula*, *Pyrus malus*, *Robinia pseudoacacia* (Villiard, 1969); *Prunus*, *Syringa vulgaris* (Gardiner, 1982).

memusae (Walker) ssp. - *Ligustrum*, *Platanus*, *Acer*, *Robinia pseudoacacia* (Crotch, 1956); *Solanum variabile*, *S. tuberosum* (Gardiner, 1982).

memusae gardineri Lemaire - *Ligustrum ovalifolium*, *Laburnum anagyroides* (Gardiner, 1976).

saturata (Walker) - *Platanus lindeniana* (Beutelspacher, 1978).

stuarti (Rothschild & Jordan) ssp. - *Adesmia*, *Berberis flexuosa*, *Cassia hookeriana* (Gardiner, 1982).

viridescens (Walker) ssp. - *Erythrina crista-galli*, *Platanus*, *Acer*, *Ligustrum* (Gardiner, 1982).

viridescens viridior Lemaire - *Ligustrum japonicum* (Probst, H., pers. comm.).

LOBOBUNAEA Packard

acetos (Westwood) - *Mangifera*, *Crataegus* (Gardiner, 1982).

angasana (Westwood) - *Eugenia cordata*, *Rhus longifolia*, *Uapaca kirkiana*, *Apodytes dimidiata* (Platt, 1921); *Acocanthera*, *Anisophyllea laurina*, *Eucalyptus*, *Uapaca nitida* (Pinhey, 1972).

natalensis (Aurivillius) - *Brachystegia randii* (Platt, 1921); "fruit trees" (Crotch, 1956).

phaedusa (Drury) - EUPHORBIACEAE, "deciduous trees" (Gardiner, 1982).

saturnus (Fabricius) - *Anisophyllea laurina*, *Uapaca nitida*, EUPHORBIACEAE, RHIZOPHORACEAE (Crotch, 1956); *Acocanthera*, *Eugenia* (Gardiner, 1982).

LOEPA Moore

katinka (Westwood) ssp. - *Cissus*, *Leea* (Bouvier, 1936); "vines", *Vitis inconstans*,

Parthenocissus tricuspidata (Crotch, 1956); *Dillenia pentagyna* (Arora & Gupta, 1979); *Crataegus* (Gardiner, 1982).
katinka formosensis Mell - *Tetrastigma formosanum*, *Ampelopsis brevipedunculata* (Wang, 1988).
oberthuri Leech - *Citrus reticulata* (Zhu & Wang, 1983).
sikkima Moore - *Saurauia* (Holloway, 1987); *Cissus*, *Leea* (Packard, 1914).

LONOMIA Walker

achelous (Cramer) - *Rhus laurina* (Wolfe, K.L., pers. comm.).
cynira Cramer - *Carpinus betulus*, *Robinia pseudoacacia*, *Fagus*, *Quercus* (Gardiner, 1982).

LUDIA Wallengren

delegorguei (Boisduval) - *Microglossa mesoiloides* (=*M. mespilifolia*), *Senecio deltoideus* (Platt, 1921); *Syringa vulgaris*, *Tarchonanthus minor*, *Vernonia natalensis* (Munro, 1946); *Robinia pseudoacacia*, *Acacia* (Crotch, 1956); *Salvia runcinata*, *Uapaca kirkiana* (Pinhey, 1972); *Brachylaena discolor*, *B. rotundata*, *Tarchonanthus camphoratus*, *Vernonia oligocephala* (Oberprieler, 1987).
hansali Felder - *Tarchonanthus camphoratus* (Gardiner, 1982).
obscura Aurivillius - ZINGIBERACEAE (Gardiner, 1982).
orinoptena Karsch - *Mikania*, *Ocimum*, *Coleus barbatus*, *C. blumei*, *Lactuca*, *Vernonia oligocephala* (Pinhey, 1972); LABIATAE (=LAMIACEAE) (Gardiner, 1982).

MELANOCERA Sonthonnax

menippe (Westwood) - *Ficus cordata*, *Ochna atropurpurea* (Platt, 1921); *Quercus* (Crotch, 1956); *Bauhinia* (Naumann, S., pers. comm.).
parva Rothschild - *Ochna schweinfurtiana* (Pinhey, 1972).
sufferti (Weymer) - OCHACEAE (Crotch, 1956).

MICRAGONE Walker

ansorgei (Rothschild) - *Berlinia paniculata*, LEGUMINOSAE (=FABACEAE) (Crotch, 1956); *Brachystegia spiciformis*, *Jubbernardia paniculata* (Pinhey, 1972).
cana (Aurivillius) - *Syzygium owariense* (Crotch, 1956); *Pappea* (Pinhey, 1972).
ducorspi deFleury - *Annona senegalensis* (Crotch, 1956).
nenia Westwood - *Annona senegalensis*, *Xylopia aethiopica* (Gardiner, 1982).
nubifera Bouvier - *Xylopia aethiopica* (Pinhey, 1972).

MOLIPPA Walker

nibasa Maassen - *Robinia pseudoacacia* (Wolfe, K.L., pers. comm.).
rosea (Druce) - *Platanus* (Simon, L.D., pers. comm.); *Robinia pseudoacacia* (Wolfe, K.L., pers. comm.).

NEORIS Moore

Neoris sp. - *Spiraea*, *Pyrus* (Crotch, 1956); *Prunus amygdalus*, *Salix*, *Ulmus* (Gardiner, 1982).

heraldis Schawerda - *Pyrus malus*, *P. communis*, *Prunus persica*, *Pistacia chinensis* (Zhu & Wang, 1983).

NUDAURELIA Rothschild

alopia (Westwood) - *Trema guineensis* (Gardiner, 1982).

anthina (Karsch) - "False camphor-tree", *Polyscias fulva*, *Mangifera*, EUPHORBIACEAE (Gardiner, 1982).

bamendana (Schultze) - *Maesa lanceolata* (Gardiner, 1982).

belina (Westwood) - ANACARDIACEAE, *Rhus longifolia* (Crotch, 1956); *Terminalia*, *Copaifera*, *Spirocarpus* (=*Medicago*), *Salix* (Gardiner, 1982).

OITICELLA Travassos & Noronha

brevis (Walker) - "A spiny *Mimosa*" (Packard, 1905).

OPODIPHTHERA Wallengren

Opodiphthera sp. - *Elaeocarpus obovatus*, *Podocarpus elata* (Crotch, 1956).

eucalypti (Scott) - *Schinus molle*, *Podocarpus spinulosus*, *Olea paniculata*, *Geijera salicifolia* (Crotch, 1956); *Eucalyptus blakelyi*, *E. botryoides*, *E. bridgesiana*, *E. cinerea*, *E. eugenioides*, *E. fastigiata*, *E. globulus*, *E. leucoxylon*, *E. leucoxylon* var. *macrocarpa*, *E. macarthurii*, *E. maculosa*, *E. macrorhyncha*, *E. maideni*, *E. melliodora*, *E. nitens*, *E. obliqua*, *E. paniculata*, *E. pauciflora*, *E. regnans*, *E. saligna*, *E. viminalis* (White, 1972); *Liquidambar* (Gardiner, 1982); *Eucalyptus gunnii* (Naumann, S., pers. comm.).

helena (White) - *Eucalyptus odorata*, *E. baxteri*, *Betula* (Gardiner, 1982).

loranthi (Lucas) - *Viscum*, *Eucalyptus* (Albaugh, 1986).

ORMISCODES Blanchard

cinnamomea (Feisthamel) - ROSACEAE, *Muehlenbeckia sagittafolia*, *Populus*, *Piper* (Crotch, 1956).

ORTHOGONIOPTILUM Karsch

incana Sonthonnax - *Brachystegia spiciformis* (Pinhey, 1972).

OTHORENE Boisduval

hodeva (Druce) - *Gleditsia triacanthos* (Stone, S.E., pers. obs.).

purpurascens (Schaus) - *Manilkara chicle* (Janzen, 1984a); *Psidium*, *Terminalia catappa* (Lemaire, 1988).

verana Schaus - *Quercus oleoides* (Janzen, 1984a); *Quercus gambelii* (Stone, S.E., pers. obs.).

PARADIRPHIA Michener

boudinoti (Lemaire & Wolfe) - *Malus*, *Prunus*, *Robinia pseudoacacia* (Lemaire & Wolfe, 1988).
hoegei (Druce) - *Platanus lindeniana*, *Salix chilensis* (Beutelspacher, 1978); *Prunus*, *Robinia pseudoacacia*, *Pyrus malus* (Wolfe, K.L., pers. comm.).
lasiocampina C. & R. Felder - *Quercus* (Smith, M.J., pers. comm.); *Pyrus malus*, *Robinia pseudoacacia* (Wolfe, K.L., pers. comm.).
semirosea (Walker) - *Robinia pseudoacacia* (Lemaire & Wolfe, 1988).
valverdei Lemaire & Wolfe - *Prunus* (Lemaire & Wolfe, 1988).

PERISOMENA Walker

caecigena (Kupido) - *Quercus* (Packard, 1914); *Quercus petraea*, *Q. cerris*, *Q. robur*, *Q. pubescens*, *Q. ilex* (Rougeot, 1971); *Populus nigra*, *P. alba*, *Pyrus communis* (Gardiner, 1982); *Quercus nigra* (Peigler, R.S., pers. comm.).

PERIPHOBA Hübner

arcae (Druce) - *Eugenia salamensis*, *Cassia biflora*, *Guazuma ulmifolia*, *Lysiloma auritum*, *Spondias mombin*, *Rourea glabra*, *Annona purpurea*, *Calycophyllum candidissimum*, *Bombacopsis quinatum*, *Cassia alata*, *Inga vera*, *Ardisia revoluta*, *Astronium graveolens*, *Hymenaea courbaril*, *Quercus oleoides*, *Miconia argentea* (Janzen, 1984a).
hircia (Cramer) - *Quercus ilex*, *Fagus*, *Crataegus*, *Prunus*, *Robinia pseudoacacia*, *Pyrus malus*, *Carpinus*, *Populus nigra* (Gardiner, 1982); *Salix babylonica* (Herbin, D., pers. comm.).

POLYTHYSANA Walker

apollina Felder - *Persea americana*, *Liquidambar*, *Maytenus boaria*, *Cryptocarya rubra* (Wolfe, K.L., pers. comm.).
cinerascens Philippi - *Cryptocarya peumus* (Crotch, 1956); *Maytenus boaria*, *Cryptocarya rubra* (Wolfe, K.L., pers. comm.).
rubrescens Bloch - *Maytenus boaria*, *Cryptocarya rubra* (Wolfe, K.L., pers. comm.).

PROCITHERONIA Michener

principalis (Walker) - *Croton floribundus* (Lemaire, 1988).

PSELAPHELIA Aurivillius

flavivitta (Walker) - *Aframomum*, *Trichilia emetica*, *T. lineata* (Pinhey, 1972).
gemmifera (Butler) - *Aframomum* (Gardiner, 1982).

PSEUDAPHELIA Kirby

apolinaris (Boisduval) - *Turraea floribunda* (Platt, 1921); *Turraea heterophylla* (Crotch, 1956); *Combretum*, *Turraea nilotica* (Pinhey, 1972).

PSEUDANTHERAEA Weymer

arnobia (Westwood) - *Poga, Terminalia, Uapaca* (Pinhey, 1972).

discrepans (Butler) - *Terminalia, Poga oleosa, Uapaca guineensis, Mangifera, Fagus* (Gardiner, 1982).

PSEUDAUTOMERIS Lemaire

grammivora (Jones) - *Rottboellia compressa* var. *fasciculata* (Gardiner, 1982).

irene (Cramer) ssp. - *Passiflora quadrangularis* (Gardiner, 1982).

ophthalmica (Moore) - *Iris* (Gardiner, 1982).

salmonea (Cramer) - *Citrus, Passiflora quadrangularis* (Gardiner, 1982).

PSEUDIMBRASIA Rougeot

deyrollei (Thomson) - *Erythrophleum guineense*, EUPHORBIACEAE, MORACEAE,

RUBIACEAE (Pinhey, 1972); *Quercus* (Gardiner, 1982).

PSEUDOBUANEA Bouvier

Pseudobunaea sp. - *Annona senegalensis, Bauhinia reticulata* (Bouvier, 1936).

alinda (Drury) - CAESALPINIACEAE (=FABACEAE: CAESALPINIOIDEAE), *Fagus* (Gardiner, 1982).

callista (Jordan) - *Brachystegia, Julbernardia* (Pinhey, 1972).

cleopatra (Aurivillius) - *Alchornea cordifolia, Bridelia grandis, Croton oligandrum*, EUPHORBIACEAE (Gardiner, 1982).

epithyrena (Maassen & Weymer) - *Brachystegia randi* (Platt, 1921); *Pterocarpus, Uapaca, Berlinia* (Crotch, 1956).

illustris (Weymer) - *Rosa* (Gardiner, 1982).

irius (Fabricius) - *Populus deltoides* (Hepburn et al., 1966); *Bauhinia, Brachystegia spiciformis, ?Julbernardia paniculata, Pterocarpus delevoyi, Uapaca nitida* (Pinhey, 1972); *Pinus patula* (Van den Burg & Van den Burg, 1973).

pallens (Sonthonax) - *Berlinia paniculata, Bauhinia reticulata, Uapaca nitida, Fagus* (Gardiner, 1982).

tyrrhena (Westwood) - *Celtis kraussiana, Albizia fastigiata* (Packard, 1914); *Ekebergia meyeri, Trema bracteolata* (Platt, 1921); *Grunillea capensis* (Bouvier, 1936); *Ulmus, Fagus, Celtis pallida*, RUBIACEAE, BURSERACEAE, LECYTHIDACEAE (Gardiner, 1982).

PSEUDODIRPHIA Bouvier

eumedide Stoll - *Fagus sylvatica, Ulmus campestris, Laburnum anagyroides, Robinia pseudoacacia, ?Quercus ilex, Crataegus oxyacantha* (Gardiner, 1965).

eumedidoides (Vuillot) - *Salix babylonica* (Herbin, D., pers. comm.); *Robinia pseudoacacia* (Wolfe, K.L., pers. comm.).

PSIOPYGIDA Michener

crispula (Dognin) - *Acacia farnesiana, Gleditsia triacanthos* (Lemaire, 1988).

PTIOSCOLA Michener

dargei (Lemaire) - *Acacia tenuifolia* (Janzen, 1984a).

RHESCYNTIS Hübner

hippodamia (Cramer) ssp. - *Virola bicuhyba*, *V. ucuuba* (Gardiner, 1982); *Ligustrum* (Simon, L.D., pers. comm.).

RHODINIA Staudinger

fugax Butler - *Phellodendron amurense*, *Fagus* (Bouvier, 1936); *Quercus*, *Salix* (Crotch, 1956); *Acer*, *Quercus acutissima*, *Q. dentata*, *Q. serrata*, *Prunus*, *Zelkova serrata* (Inoue et al., 1982); *Hevea brasiliensis*, *Cyclobalanopsis glauca* (Zhu & Wang, 1983); *Castanea*, *Ilex verticillata*, *Celtis pallida*, *Platanus* (Albaugh, 1986).

jankowskii Oberthür - *Phellodendron amurense*, *Fagus* (Bouvier, 1936).

newara (Moore) - *Salix*, *Juglans regia*, *Acer*, *Crataegus* (Crotch, 1956); *Acer saccharum*, *Salix babylonica*, *S. elegans* (Arora & Gupta, 1979).

verecunda Inoue - *Quercus acutissima*, *Q. aliena*, *Celtis sinensis*, *Cyclobalanopsis glauca* (Wang, 1988).

ROHANIELLA Bouvier

pygmaea (Maassen & Weymer) - *Burkea africana* (Pinhey, 1972).

ROTHSCHILDIA Grote

arethusa (Walker) ssp. - *Ailanthus altissima*, *Ligustrum*, *Quercus*, *Syringa vulgaris* (Crotch, 1956).

aurota (Cramer) ssp. - *Ricinus communis* (Bouvier, 1936); *Ailanthus altissima*, *Ligustrum* (Crotch, 1956).

aurota speculifera (Walker) - *Prunus*, *Syringa vulgaris*, *Cephalanthus*, *Fraxinus*, *Ligustrum* (Albaugh, 1986).

condor (Staudinger) - *Baccharis sculpta* (Bouvier, 1936).

cincta (Tepper) ssp. - *Quercus*, *Prunus serotina* (Sblendorio, D.C., pers. comm.); *Jatropha*, *Schinus* (Smith, M.J., pers. comm.); *Ligustrum* (Tuttle, J.P., pers. comm.).

erycina (Shaw) ssp. - AURANTEACEAE (=RUTACEAE) (Bouvier, 1936); *Exostema mexicanum*, *Coutarea hexandra*, *Ligustrum* (Janzen, 1984a); *Ailanthus altissima* (Wolfe, K.L., pers. comm.).

hesperus (Linnaeus) ssp. - *Prunus armeniaca*, *Ligustrum*, *Ailanthus altissima* (Wolfe, K.L., pers. comm.).

jacobaeae (Walker) - *Ligustrum* (Crotch, 1956); *Syringa vulgaris* (Gardiner, 1982); *Prunus serotina* (Purdum, D.A., pers. comm.); *Prunus virginiana* (Stone, S.E., pers. obs.).

jorulla (Westwood) ssp. - *Fraxinus*, *Prunus serotina* (Packard, 1914); *Syringa vulgaris*, *Ailanthus altissima*, *Quercus* (Crotch, 1956); *Mimosa* (Collins & Weast, 1961); *Jatropha eurcas* (Comstock & Garcia, 1964); *Ligustrum*, *Salix*, *Sapium*

- biloculare* (Ferguson, 1971-72); *Salix discolor* (Williams, B.D., pers. comm.).
lebeau (Guérin-Méneville) ssp. - *Ligustrum*, *Salix*, *Fraxinus*, *Prunus*, *Citrus*, *Zanthoxylum fagara* (Gardiner, 1982); *Zuelania guidonia* (Janzen, 1982); *Exostema mexicanum*, *Spondias mombin*, *S. purpurea*, *Casearia corymbosa*, *Zuelania guidonia*, *Xanthoxylum* (= *Zanthoxylum*) *setulosum* (Janzen, 1984a); *Rhus laurina*, *Schinus terebinthifolius*, *Ailanthus altissima* (Wolfe, K.L., pers. comm.).
lebeau aroma Schaus - *Prunus serotina* (Purdum, D.A., pers. comm.).
lebeau forbesi Benjamin - *Ligustrum*, *Salix* (Benjamin, 1934); *Fraxinus* (Collins & Weast, 1961); *Citrus*, *Zanthoxylum fagara* (Ferguson, 1971-72); *Salix interior*, *Prunus persica*, *P. serotina*, *Syringa vulgaris* (Tuttle, J.P., pers. comm.); *Salix discolor* (Williams, B.D., pers. comm.).
maurus (Burmeister) - ANACARDIACEAE, BIGNONIACEAE, EUPHORBIACEAE, *Croton* (Bouvier, 1936).
maurusius Schreiter - See *Rothschildia maurus* (Burmeister) (Lemaire, 1978: 77).
orizaba (Westwood) ssp. - *Fraxinus americana* (Packard, 1914); *Ligustrum*, *Prunus* (Crotch, 1956); *Prunus armeniaca*, *Salix*, *Schinus molle*, *Syringa vulgaris*, *Cephalanthus*, *Sassafras albidum* (Villiard, 1969); *Ligustrum japonicum* (Ferguson, 1971-72); *Prunus virginiana*, *P. serotina* (Sblendorio, D.C., pers. comm.); *Rhus laurina* (Wolfe, K.L., pers. comm.).
roxana Schaus - *Prunus serotina* (Purdum, D.A., pers. comm.); *Ligustrum* (Stone, S.E., pers. obs.).
splendidus (Kirby) - See *Rothschildia erycina* (Shaw) ssp. (Lemaire, 1978: 42).
tucumana (Dognin) - *Eupatorium buniifolium* (Bouvier, 1936).

SALASSA Moore

- iris* Jordan - *Prunus* (Allen, M.G., pers. comm.).

SAMIA Hübner

- cynthia* (Drury) ssp. - *Ailanthus altissima* (Holland, 1903); *Cornus*, *Ricinus communis*, *Prunus* (Packard, 1914); *Ligustrum*, *Syringa vulgaris* (Crotch, 1956); *Forsythia* (Rougeot, 1971); *Fraxinus*, *Sassafras albidum*, *Liriodendron tulipifera*, *Lindera benzoin*, *Liquidambar styraciflua*, *Platanus*, *Tilia*, *Juglans cinerea*, *Ilex* (Ferguson, 1971-72); *Althaea rosa*, *Apium graveolens*, *Azadirachta indica*, *Berberis*, *Carica papaya*, *Carpinus betulus*, *Cassia fistula*, *Coriaria nepalensis*, *Euodia fraxinifolia*, *Gmelina arborea*, *Heteropanax fragrans*, *Jatropha curcas*, *Juglans regia*, *Lawsonia alba*, *Manihot utilissima*, *Plumeria acuminata*, *Pyrus malus*, *Zanthoxylum acanthopodium*, *Z. hostile*, *Z. alatum*, *Ziziphus jujuba* (Arora & Gupta, 1979); *Lagerstroemia indica* (Barlow, 1982); *Ilex chinensis*, *Michelia figo*, *Firmiana simplex* (Zhu & Wang, 1983); *Salix* (Albaugh, 1986); *Rhus typhina* (Sblendorio, D.C., pers. comm.); *Prunus serotina* (Williams, B.D., pers. comm.).
cynthia ricini Boisduval - *Manihot esculenta*, *Ricinus communis* (Zhu & Wang, 1983).

cynthia walkeri C. & R. Felder - *Ricinus communis*, *Lindera megaphylla*, *Sapium discolor*, *S. sebiferum*, *Cinnamomum camphora*, *Euscaphis japonica*, *Glochidion hongkongense* (Wang, 1988).

SATURNIA Schrank

albofasciata (J. W. Johnson) - *Cercocarpus betuloides*, *Ceanothus cuneatus*, *C. cordulatus*, *C. leucodermis*, *C. spinosa*, *Fremontia californica* (Hogue et al., 1965); *Cercocarpus montanus* (Stone, S.E., pers. obs.).

atlantica H. Lucas - *Fraxinus berlandierana* (Rougeot, 1971); *Olea europaea*, *Prunus armeniaca* (Gardiner, 1982); *Alnus*, *Rhamnus*, *Rosa*, *Syringa vulgaris* (Rougeot & Viette, 1983); *Pyrus malus* (Stone, S.E., pers. obs.).

cephalariae Christoph - *Cephalaria procera* (Rougeot, 1971).

lindia Moore - *Corylus avellana*, *Betula pendula*, *Pyrus calleryana*, *Malus*, *Salix*, *Populus deltoides*, *Acer*, *Quercus robur*, *Juglans regia*, *Prunus avium*, *P. padus* (Nässig, 1983); *Acer saccharinum* (Peigler, R.S., pers. comm.).

mendocino Behrens - *Arctostaphylos tomentosa* (Edwards, 1880)⁵; *Arbutus menziesii* (Tilden, 1945); ?*Rhus trilobata*, ?*R. integrifolia*, *Ceanothus cuneatus* (Ferguson, 1971-72); *Arctostaphylos glauca* (Tietz, 1972); *Rhus typhina*, *Arctostaphylos uva-ursi*, *A. alpinus* (Naumann, S., pers. comm.).

pavonia (Linnaeus) ssp. - *Spiraea alba* (Villiard, 1969); *Potentilla*, *Hippophae rhamnoides*, *Fagus*, *Fragaria*, *Myrica gale*, *Quercus*, *Rumex*, *Sambucus*, *Sorbus*, *Ulmus*, *Vaccinium myrtillus*, *Juglans* (Rougeot, 1971); *Rosa*, *Rubus*, *Crataegus*, *Pyrus malus*, *Crataegus*, *Prunus spinosa*, *Calluna vulgaris*, *Salix*, *Betula*, *Lythrum salicaria*, *Alnus*, *Fraxinus*, *Humulus* (Albaugh, 1986); *Arbutus unedo*, *Pistacia terebinthus*, *Cornus* (Lemaire, C., pers. comm.); *Prunus domestica*, *Salix babylonica*, *Rubus idaeus*, *Pyrus communis* (Naumann, S., pers. comm.); *Erica*, *Prunus serotina* (Peigler, R.S., pers. comm.); *Schinus terebinthifolius* (Smith, M.J., pers. comm.); *Prunus virginiana* (Stone, S.E., pers. obs.).

pyri (Denis & Schiffermüller) - "Fruit trees", *Pyrus malus*, *Prunus* (Crotch, 1956); *Aesculus hippocastanum* (Villiard, 1969); *Olea europaea*, *Fraxinus excelsior*, *Acer pseudoplatanus*, *Alnus glutinosa*, *Amygdalus communis*, *Cydonia*, *Juglans regia*, *Prunus spinosa*, *Ulmus campestris*, *Salix*, *Syringa*, *Platanus* (Rougeot, 1971); *Castanea*, *Populus* (Gardiner, 1982); *Fraxinus*, *Ligustrum*, *Betula*, *Pyrus communis*, *Humulus*, *Tilia*, *Prunus amygdalus* (Albaugh, 1986); *Prunus armeniaca* (Stone, S.E., pers. obs.).

⁵ Packard (1914: 151, footnote) and Ferguson (1971-72: 181) incorrectly cite Edwards (Proc. Calif. Acad. Sci. 1878, January) as the reference for the larval description and foodplant record for *S. mendocino*. According to Mr. Greg Lym, Assistant Librarian, User Services, California Academy of Sciences, there were no proceedings published for the Academy in 1878. The correct citation is provided in Literature Consulted here.

spini (Denis & Schiffermüller) - *Cephalaria procera* (Rougeot, 1971); *Prunus spinosa*, *Pyrus malus*, *Ubnus campestris*, *Crataegus oxyacantha*, *Alnus glutinosa*, *Rosa*, *Rubus*, *Salix*, *Populus* (Gardiner, 1982); *Salix babylonica* (Naumann, S., pers. comm.); *Prunus* (Wolfe, K.L., pers. comm.).
walterorum Hogue & J. W. Johnson - *Arctostaphylos*, *Rhus laurina* (Sala & Hogue, 1958); *Rhus integrifolia* (Tuskes, 1974); *Arbutus unedo* (Lemaire, C., pers. comm.); *Rhus trilobata* (Stone, S.E., pers. obs); *Schinus terebinthifolius* (Wolfe, K.L., pers. comm.).

SCHAUSIELLA Bouvier

arpi (Schaus) - *Hymenaea altissima* (Lemaire, 1988).
santarosensis Lemaire - *Hymenaea courbaril* (Janzen, 1984a).

SYSSPHINX Hübner

albolineata (Grote & Robinson) - *Acacia angustissima* (Tuskes, 1985a); *Acacia baileyana*, *Robinia pseudoacacia* (Wolfe, K.L., pers. comm.).
bicolor (Harris) - *Gymnocladus canadensis*, *Gleditsia triacanthos* (Packard, 1893); *Gymnocladus dioica* (Holland, 1903); *Hymenaea altissima* (Forbes, 1923); *Quercus* (Tietz, 1972); *Robinia pseudoacacia*, *?Ligustrum* (Gardiner, 1982).
bisecta (Lintner) - *Gleditsia triacanthos*, *Gymnocladus canadensis* (Eyer & Menke, 1914); *Robinia pseudoacacia* (Lemaire, 1988).
blanchardi (Ferguson) - *Acacia flexicaulis* (Ferguson, 1971-72); *Gleditsia triacanthos* (Tuttle, J.P., pers. comm.).
colla Dyar ssp. - *Pithecellobium saman* (Janzen, 1984a).
gomezi Lemaire - *Acacia baileyana*, *Robinia pseudoacacia* (Wolfe, K.L., pers. comm.).
heiligbrodtii (Harvey) - *Prosopis glandulosa*, *Acacia farnesiana*, *A. rigidula* (Blanchard, 1964); *Cercidium floridum*, *C. microphyllum* (Tietz, 1972); *Gleditsia triacanthos* (Tuttle, J.P., pers. comm.).
hubbardi Dyar - *Parkinsonia microphyllum*, *P. torreyana*, *Prosopis* (Kunzé, 1906); *Gleditsia triacanthos* (Lemaire, 1988); *Acacia* (Smith, M.J., pers. comm.); *Prosopis juliflora* (Tuttle, J.P., pers. comm.); *Robinia pseudoacacia* (Williams, B.D., pers. comm.).
jason (Boisduval) ssp. - See *Adeloneivaia jason* (Boisduval) ssp., (Lemaire, 1988: 369).
mexicana (Boisduval) - *Acacia collinsii*, *A. cornigera* (Janzen, 1984a).
molina (Cramer) - "A high forest *Mimosa*" (Packard, 1905); *Pithecellobium saman*, *Cassia grandis*, *Albizia adinocephala* (Janzen, 1984a); *Robinia pseudoacacia*, *Salix capraea* (Lemaire, 1988); *Gleditsia triacanthos* (Smith, M.J., pers. comm.); *Robinia*, *Acacia baileyana* (Wolfe, K.L., pers. comm.).
montana (Packard) - *Acacia farnesiana*, *Gleditsia triacanthos*, *Cassia emarginata*, *Haematoxylum brasiliense* (Tuskes, 1985a); *Albizia* (Wilson, M.F., pers. comm.); *Robinia pseudoacacia* (Wolfe, K.L., pers. comm.).

petersii Peters - See *Syssphinx molina* (Cramer) (Lemaire, 1988: 243).

quadrilineata (Grote & Robinson) ssp. - *Acacia flexicaulis*, *Parkinsonia microphyllum*,
Prosopis juliflora (Packard, 1905); *Gleditsia triacanthos* (Heitzman, 1961); *Acacia collinsii* (Janzen, 1984a); *Pithecellobium saman* (Janzen, 1985); *Acacia dealbata* (Herbin, D., pers. comm.); *Acacia baileyana* (Wolfe, K.L., pers. comm.).
raspa (Boisduval) - *Acacia angustissima*, *Gleditsia texana* (Tuskes, 1985a).

TAGOROPSIS Felder

flavinata (Walker) - *Schmidelia africana* (= *Allophylus melanocarpus*) (Platt, 1921);
Allophylus africanus (Bouvier, 1936).

hanningtoni Butler - *Allophylus africanus* "and other SAPINDACEAE" (Crotch, 1956).
songeana Strand - *Schmidelia africana* (= *Allophylus melanocarpus*) (Pinhey, 1972).
subocellata (Butler) - *Agauria salicifolia*, EUPHORBIACEAE (Griveaud, 1961).

TITAEA Hübner

tamerlan (Maassen) ssp. - *Bombax* (Gardiner, 1982); *Bombacopsis quinatum* (Janzen, 1984a); *Tilia platyphyllos* (Herbin, D., pers. comm.).

UROTA Westwood

sinope Westwood - *Sclerocarya caffra* (Platt, 1921); *Erythrina abyssinica*, *E. caffra* (Crotch, 1956); *Erythrina tomentosa* (Pinhey, 1972); *Laburnum*, *Robinia pseudoacacia* (Gardiner, 1982).

USTA Wallengren

terpsichore (Maassen & Weymer) - *Commiphora caryaefolia* (Platt, 1921);
 BURSERACEAE (Crotch, 1956); *Schinus molle*, *Melia azedarach*, *Sclerocarya caffra* (Pinhey, 1972).

VEGETIA Jordan

ducalis Jordan - *Eriopephalus umbellatus*, *Eriosema* (Pinhey, 1972); *Eriopephalus africanus*, *E. ericoides* (Oberprieler, 1987); *Artemisia californica* (Wolfe, K.L., pers. comm.).

grimmia (Geyer) - *Eriopephalus racemosus* (Oberprieler, 1987).

dewitzi (Maassen & Weymer) - *Eriopephalus?* *ericoides* (Oberprieler, 1987).

FOODPLANTS OF SATURNIID HYBRIDS

Attacus atlas ♂ X *A. lorquinii* ♀

Ligustrum, Ailanthus, & Berberis (Peigler, 1989).

Actias luna luna ♂ X *A. truncatipennis* ♀

Juglans (Wolfe, K. L., pers. comm.).

Actias truncatipennis ♂ X *A. luna luna* ♀

Juglans (Wolfe, K. L., pers. comm.).

Anisota virginiensis ♂ X *A. discolor* ♀

Probably *Quercus* (Riotte & Peigler, 1981).

Anisota peigleri ♂ X *A. consularis* ♀

Probably *Quercus* (Riotte & Peigler, 1981).

Anisota senatoria ♂ X *A. oslari* ♀

Quercus coccinea (Peigler & Williams, 1984).

Automeris louisiana ♂ X *A. io* io ♀

Celtis (Tuskes, P. M., pers. comm.).

Callosamia promethea ♂ X *C. securifera* ♀

Liriodendron tulipifera (Peigler, 1977).

Callosamia angulifera ♂ X *C. promethea* ♀

Liriodendron tulipifera (Peigler, 1977).

Callosamia angulifera ♂ X *C. securifera* ♀

Liriodendron tulipifera, Magnolia virginiana (Peigler, 1977).

Callosamia securifera ♂ X *C. promethea* ♀

Liriodendron tulipifera, Magnolia virginiana (Peigler, 1981).

Callosamia [angulifera ♂ X (angulifera ♂ X securifera ♀) ♀] ♂ X C. securifera ♀

Liriodendron tulipifera (Peigler, 1981).

Callosamia angulifera ♂ X *C. (angulifera ♂ X securifera ♀) ♀*

Liriodendron tulipifera (Peigler, pers. comm.).

Callosamia (angulifera ♂ X securifera ♀) ♂ X C. securifera ♀

Magnolia virginiana until last two instars then transferred to *Liriodendron tulipifera* (Peigler, 1977).

Callosamia (securifera ♂ X angulifera ♀) ♂

X C. [angulifera ♂ X (angulifera ♂ X securifera ♀) ♀] ♀
Liriodendron tulipifera (Peigler, 1977).

Callosamia (securifera ♂ X angulifera ♀) ♂ X (angulifera ♂ X securifera ♀) ♀

Liriodendron tulipifera (Peigler, 1977).

Callosamia securifera ♂ X C. (securifera ♂ X angulifera ♀) ♀

Magnolia virginiana (Peigler, 1977).

Callosamia securifera ♂ X C. angulifera ♀

Liriodendron tulipifera (Peigler, 1977).

Callosamia angulifera ♂ X Hyalophora cecropia ♀

Liriodendron tulipifera (Carr, 1984).

Callosamia (angulifera ♂ X securifera ♀) F₂

Liriodendron tulipifera (Peigler, 1977).

Callosamia angulifera ♂ X Samia cynthia ♀

Liriodendron tulipifera (Peigler, 1978).

Citheronia regalis ♂ X C. splendens ssp. ♀

Liquidambar styraciflua (Simon, L. D., pers. comm.); *Arctostaphylos* (Stone, S. E., pers. obs.).

Graellsia isabellae ♂ X Actias luna luna ♀

Juglans (Vuattoux, R., pers. comm.).

Hemileuca artemis ♂ X H. maia ♀

Salix (Carr, T. W., pers. comm.).

Hemileuca maia ♂ X H. artemis ♀

Salix (Carr, T. W., pers. comm.).

Hemileuca maia ♂ X H. lucina ♀ F₁

Salix (Carr, T. W., pers. comm.).

Hemileuca maia ♂ X *H. lucina* ♀ F₂
Salix (Carr, T. W., pers. comm.).

Hemileuca griffini ♂ X *H. chinatiensis* ♀
Amelanchier utahensis (Stone, S. E., pers. obs.).

Hemileuca nuttalli ♂ X *H. eglanterina shastaensis* ♀
Symporicarpos albus (Stone, S. E., pers. obs.).

Hemileuca lucina ♂ X *Hemileuca nevadensis* ♀
Salix gracilis, S. ?nigra (Peigler & Williams, 1984).

Hyalophora cecropia ♂ X *H. columbia gloveri* ♀
Sambucus, Prunus virginiana (Stone, S. E., pers. obs.).

Hyalophora euryalus euryalus ♂ X *H. cecropia* ♀
Sambucus (Stone, S. E., pers. obs.).

Hyalophora columbia gloveri ♂ X *H. cecropia* ♀
Sambucus, Prunus virginiana (Stone, S. E., pers. obs.).

Hyalophora cecropia ♂ X *H. euryalus euryalus* ♀
Sambucus (Stone S. E., pers. obs.).

Hyalophora cecropia ♂ X *H. columbia columbia* ♀
Prunus serotina (Packard, 1914); *Prunus virginiana* (Stone, S. E., pers. obs.).

Hyalophora columbia columbia ♂ X *H. columbia gloveri* ♀
Prunus virginiana (Stone, S. E., pers. obs.).

Hyalophora columbia columbia ♂ X *H. euryalus euryalus* ♀
Larix laricina, Salix (Köhalmi & Moens, 1975); *Prunus virginiana* (Stone, S. E., pers. obs.).

Hyalophora columbia gloveri ♂ X *H. columbia columbia* ♀
Prunus virginiana (Stone, S. E., pers. obs.).

Hyalophora euryalus euryalus ♂ X *H. columbia gloveri* ♀
Prunus virginiana (Stone, S. E., pers. obs.).

Hyalophora columbia columbia ♂ X *H. cecropia* ♀
Larix laricina, Salix (Köhalmi & Moens, 1975); *Prunus virginiana* (Stone, S. E., pers. obs.).

Hyalophora columbia nokomis ♂ X *H. cecropia* ♀

Prunus serotina or *Sambucus* or *Salix* or *Alnus* (Sweedner, 1937).

Hyalophora columbia gloveri ♂ X *H. euryalus euryalus* ♀

Prunus virginiana (Stone, S. E., pers. obs.).

Hyalophora euryalus euryalus ♂ X *H. columbia columbia* ♀

Prunus virginiana (Stone, S. E., pers. obs.).

Hyalophora (cecropia ♂ X *columbia gloveri* ♀) ♂ X *H. euryalus euryalus* ♀

Salix babylonica, *Prunus serotina* (Wright, 1971).

Hyalophora [(cecropia ♂ X *columbia gloveri* ♀) ♂ X *H. euryalus euryalus* ♀] ♂

X *H. columbia columbia* ♀

Salix babylonica, *Prunus serotina*, *Larix americana* (Wright, 1971).

Hyalophora (cecropia ♂ X *columbia gloveri* ♀) ♂ X *H. cecropia* ♀

Prunus serotina or *Sambucus* or *Salix* or *Alnus* (Sweedner, 1937).

Saturnia (walterorum ♂ X mendocino ♀) F₁
Arctostaphylos (Tuskes & Collins, 1981).

Saturnia ([walterorum ♂ X mendocino ♀] ♂ X S. walterorum ♀) F₂
Arctostaphylos (Tuskes & Collins, 1981).

Syssphinx bicolor ♂ X S. hubbardi ♀
Gleditsia triacanthos (Carr, T. W., pers. comm.).

PART 2

SATURNIID FOODPLANT GENERA AND SPECIES

ABIES

(PINACEAE)

- balsamea* - *Automeris io* ssp., *Hyalophora columbia* ssp.
grandis - *Eacles imperialis* ssp.

ACACIA

(FABACEAE: MIMOSOIDEAE)

- sp. unspecified - *Caligula boisduvali* ssp., *Gynanisa ata*, *G. nigra*, *Hemileuca chinatiensis*, *H. rubridorsa*, *Imbrasia ertli*, *Ludia delegorguei*, *Syssphinx albovittata*, *S. hubbardi*.
angustissima - *Syssphinx albovittata*, *S. raspa*.
baileyana - *Hylesia lineata*, *Syssphinx albovittata*, *S. gomezi*, *S. molina*, *S. quadrilineata* ssp.
collinsi - *Syssphinx mexicana*, *S. quadrilineata* ssp.
cornigera - *Syssphinx mexicana*.
cyanophylla - *Imbrasia cytherea*.
cyclopis - *Imbrasia cytherea*.
dealbata - *Adeloneivaia boisduvali*, *Syssphinx quadrilineata*.
farnesiana - *Psilopygida crispula*, *Syssphinx heiligbrodti*, *S. montana*.
flexicaulis - *Syssphinx blanchardi*, *S. quadrilineata* ssp.
greggi - *Hemileuca burnsi*, *H. tricolor*.
karroo - *Gonimbrasia tyrrhea* ssp., *Gynanisa maja* ssp.
mearnsii - *Imbrasia nictitans*.
mollissima - *Gonimbrasia tyrrhea* ssp., *Gynanisa maja* ssp., *Heniocha apollonia*, *H. dyops*, *H. marnois*, *Imbrasia cytherea*.
nilotica - *Cirina forda*.
rigidula - *Syssphinx heiligbrodti*.
saligna - *Imbrasia cytherea*.
sieberiana - *Goodia kuntzei*.
tenuifolia - *Hylesia lineata*, *Ptiloscola dargei*.

ACALYPHA

(EUPHORBIACEAE)

- sp. unspecified - *Citheronia laocoon*.

ACER

(ACERACEAE)

- sp. unspecified - *Actias artemis*, *A. luna* ssp., *Aglia tau* ssp., *Antheraea polyphemus* ssp., *Automeris coresus*, *A. io* ssp., *Caligula boisduvali* ssp., *C. japonica* ssp., *Callosamia promethea*, *Eacles imperialis* ssp., *Hemileuca eglanterina* ssp., ?*Hyalophora columbia columbia*, *H. columbia gloveri*, *Leucanella memusae* ssp., *L. viridescens* ssp., *Rhodinia fugax*, *R. newara*, *Saturnia lindia*.
caudatum - *Caligula zuleika*.

- circinatum* - *Hemileuca eglanterina* ssp.
dasyarpum - *Hyalophora cecropia*.
monspessulanum - *Dryocampa rubicunda rubicunda*.
negundo - *Anisota oslari*, *Anthraea polyphemus* ssp., *Automeris io io*, *Dryocampa rubicunda* ssp., *Eacles imperialis* ssp., *Hyalophora cecropia*, *H. columbia gloveri*.
pensylvanicum - *Anthraea polyphemus* ssp.
plantanoides - *Hyalophora cecropia*.
pseudoplatanus - *Aglia tau* ssp., *Eacles imperialis* ssp., *Saturnia pyri*.
rubrum - *Actias luna* ssp., *Anisota oslari*, *Anthraea polyphemus* ssp., *Automeris io* ssp., *Dryocampa rubicunda* ssp., *D. rubicunda rubicunda*, *Eacles imperialis* ssp., *Hyalophora cecropia*.
saccharinum - *Anisota oslari*, *Anthraea polyphemus* ssp., *Eacles imperialis* ssp., *E. imperialis imperialis*, *Dryocampa rubicunda* ssp., *D. rubicunda alba*, *D. rubicunda rubicunda*, *Hyalophora cecropia*, *Saturnia lindia*.
saccharum - *Actias luna* ssp., *Dryocampa rubicunda rubicunda*, *Eacles imperialis* ssp., *Rhodinia newara*.
spicatum - *Dryocampa rubicunda rubicunda*, *Hyalophora cecropia*.

ACOCANTHERA

(APOCYNACEAE)

- sp. unspecified - *Imbrasia krucki*, *Lobobunaea angasana*, *L. saturnus*.

ACTINODAPHNE

(LAURACEAE)

- sikkimensis* - *Caligula zuleika*.

ADENOSTOMA

(ROSACEAE)

- fasciculatum* - *Hemileuca eglanterina* ssp.

ADESMIA

(FABACEAE: FABOIDEAE)

- sp. unspecified - *Leucanella stuarti* ssp.

ADINANDRA

(THEACEAE)

- dumosa* - *Actias maenas*.

AESCRULUS

(HIPPOCASTANACEAE)

- hippocastanum* - *Caligula japonica* ssp., *Eacles imperialis* ssp., *Saturnia pyri*.

AFRAMOMUM

(ZINGIBERACEAE)

- sp. unspecified - *Goodia lunata*, *G. sentosa*, *Pselaphelia gemmifera*, *P. flavivitta*.

AGAURIA

(ERICACEAE)

- salicifolia* - *Tagoropsis subocellata*.

AGROPYRON

(POACEAE)

*smühi - Hemileuca oliviae.***AILANTHUS**

(SIMAROUBACEAE)

*altissima - Archaeoattacus edwardsii, Attacus atlas, Rothschildia arethusa ssp., R. aurota ssp., R. erycina ssp., R. hesperus ssp., R. jorulla ssp., R. lebeau ssp., Samia cynthis ssp.***ALBIZIA**

(FABACEAE: MIMOSOIDEAE)

*sp. unspecified - Aurivillius triramis, Dysdaemonia fosteri, Eustera argiphontes, Gonimbrasia tyrrhea ssp., Syssphinx montana.**adinocephala - Syssphinx molina.**fastigiata - Aurivillius arata, Pseudobunaea tyrrhena.**gummifera - Aurivillius arata.**versicolor - Cirina forda.***ALCHORNEA**

(EUPHORBIACEAE)

*cordifolia - Pseudobunaea cleopatra.***ALEURITES**

(EUPHORBIACEAE)

*fordii - Citheronia laocoon, Imbrasia dione.**montana - Attacus atlas, Imbrasia dione.***ALLOPHYLUS**

(SAPINDACEAE)

*africanus - Tagoropsis flavinata, T. hanningtoni.**melanocarpus - Tagoropsis flavinata, T. songeana.**occidentalis - Hylesia lineata.***ALNUS**

(BETULACEAE)

*sp. unspecified - Actias luna ssp., Antheraea polyphemus ssp., Eacles imperialis ssp., E. imperialis imperialis, Hyalophora cecropia, H. columbia gloveri, Saturnia atlantica, S. pavonia ssp.**cremastogyne - Actias selene ningpoana, Aglia tau ssp.**firma - Actias artemis.**formosana - Actias selene ningpoana.**glutinosa - Actias selene ssp., Hyalophora cecropia, Saturnia pyri, S. spini.**incana - Antheraea polyphemus ssp., Hyalophora cecropia.**japonica - Actias selene gnoma, Aglia tau ssp.**rubra - Hyalophora euryalus euryalus.**serrulata - Antheraea polyphemus ssp., Eacles imperialis ssp., Hyalophora cecropia.***ALOE**

(LILIACEAE)

sp. unspecified - Cirina forda.

ALSTONIA	(APOCYNACEAE)
<i>scholaris</i> - <i>Attacus atlas</i> .	
ALTHAEA	(MALVACEAE)
<i>rosa</i> - <i>Samia cynthia</i> ssp.	
AMELANCHIER	(ROSACEAE)
sp. unspecified - <i>Hemileuca griffini</i> , <i>H. eglanterina</i> ssp.	
<i>alnifolia</i> - <i>Hyalophora euryalus</i> <i>euryalus</i> .	
<i>canadensis</i> - <i>Antheraea polyphemus</i> ssp., <i>Hyalophora cecropia</i> .	
<i>florida</i> - <i>Hyalophora euryalus</i> <i>euryalus</i> .	
AMOMUM	(ZINGIBERACEAE)
sp. unspecified - <i>Goodia lunata</i> , <i>G. sentosa</i> .	
AMORPHA	(FABACEAE: FABOIDEAE)
sp. unspecified - <i>Automeris io</i> <i>io</i> .	
<i>fruticosa</i> - <i>Automeris io</i> ssp., <i>A. io</i> <i>lilith</i> .	
AMPELOPSIS	(VITACEAE)
<i>brevipedunculata</i> - <i>Loepa katinka formosensis</i> .	
AMYGDALUS	(ROSACEAE)
<i>communis</i> - <i>Citheronia brissotii</i> ssp.	
ANACARDIUM	(ANACARDIACEAE)
sp. unspecified - <i>Hyperchiria nausica</i> .	
<i>occidentale</i> - <i>Citheronia laoocoen</i> , <i>C. armata armata</i> , <i>Cricula trifenestrata</i> , <i>Imbrasia dione</i> .	
ANDROMEDA	(ERICACEAE)
<i>glaucophylla</i> - <i>Actias selene</i> ssp.	
<i>ovalifolia</i> - <i>Actias selene</i> ssp., <i>Caligula thibeta</i> ssp.	
ANDROPOGON	(POACEAE)
<i>hallii</i> - <i>Hemileuca oliviae</i> .	
ANISOPHYLLEA	(RHIZOPHORACEAE)
<i>laurina</i> - <i>Lobobunaea angasana</i> , <i>L. saturnus</i> .	
ANNONA	(ANNONACEAE)
sp. unspecified - <i>Arsenura armida</i> ssp., <i>Gonimbrasia hecate</i> .	
<i>muricata</i> - <i>Attacus atlas</i> .	

purpurea - *Automeris zugana*, *Periphoba arcae*.

senegalensis - *Bunaeopsis hersilioides*, *Carnegia mirabilis*, *Imbrasia nictitans*,

Micragone ducorpsi, *M. nenia*, *Pseudobunaea* sp.

squamosa - *Attacus caesar*, *Attacus lorquinii*.

ANOGEISSUS

(COMBRETACEAE)

latifolia - *Antheraea paphia*.

APIUM

(APIACEAE)

graveolens - *Samia cynthia* ssp.

APODYTES

(ICACINACEAE)

dimidiata - *Lobobunaea angasana*.

ARBUTUS

(ERICACEAE)

sp. unspecified - *Hyalophora euryalus euryalus*.

menziesii - *Antheraea polyphemus* ssp., *Citheronia splendens sinaloensis*, *Saturnia mendocino*.

unedo - *Saturnia pavonia* ssp., *S. walterorum*.

ARCTOSTAPHYLOS

(ERICACEAE)

sp. unspecified - *Hemileuca eglanterina* ssp., *Hyalophora euryalus euryalus*, *H. columbia gloveri*, *Saturnia walterorum*.

alpinus - *Saturnia mendocino*.

glaуca - *Hemileuca eglanterina* ssp., *Hyalophora euryalus euryalus*, *Saturnia mendocino*.

patula - *Hyalophora columbia gloveri*, *H. euryalus euryalus*.

pungens - *Citheronia splendens sinaloensis*.

tomentosa - *Saturnia mendocino*.

uva-ursi - *Hemileuca eglanterina* ssp., *Saturnia mendocino*.

ARDISIA

(MYRSINACEAE)

revoluta - *Periphoba arcae*.

sieboldii - *Attacus atlas*.

ARONIA

(ROSACEAE)

arbutifolia - *Hyalophora cecropia*.

ARTEMISIA

(ASTERACEAE)

sp. unspecified - *Hemileuca hera hera*.

californica - *Vegetia ducalis*.

cana - *Hemileuca hera hera*.

filifolia - *Hemileuca magnifica*.

tridentata - *Hemileuca hera hera*, *H. hera marcata*, *H. magnifica*.
vulgaris - *Attacus atlas*.

ARTOCARPUS (MORACEAE)
 sp. unspecified - *Cricula trifenestrata*.
integer - *Attacus caesar*, *A. lorquinii*.

ASTRONIUM (ANACARDIACEAE)
graveolens - *Eacles imperialis* ssp., *Periphoba arcae*.

AVERRHOA (OXALIDACEAE)
bilimbi - *Actias maenas*.
carambola - *Attacus atlas*.

AZADIRACHTA (MELIACEAE)
indica - *Actias selene* ssp., *Samia cynthia* ssp.

BACCHARIS (ASTERACEAE)
sculpta - *Rothschildia condor*.

BANISTERIOPSIS (MALPIGHIAEAE)
muricata - *Hylesia lineata*.

BAPTISIA (FABACEAE: FABOIDEAE)
tinctoria - *Antheraea polyphemus* ssp., *Automeris io* ssp., *A. io io*.

BASSIA (CHENOPODIACEAE)
latifolia - *Antheraea paphia*, *A. roylei*.
longifolia - *Antheraea paphia*, *A. roylei*.

BAUHINIA (FABACEAE: CAESALPINIOIDEAE)
 sp. unspecified - *Gonimbrasia hecate*, *Holocerina angulata*, *H. smilax*, *Melanocera menippe*, *Pseudobunaea irius*.
forficata - *Automeris complicata*.
petersiana - *Imbrasia dione*.
reticulata - *Bunaea alcinoe*, *Holocerina agomensis*, *H. angulata*, *Imbrasia nictitans*,
Pseudobunaea pallens, *Pseudobunaea* sp.
ungulata - *Hylesia lineata*.
variegata - *Antheraea paphia*.

BEQUAERTIODENDRON (SAPOTACEAE)
 sp. unspecified - *Bunaeopsis hersilia*.

BERBERIS

(BERBERIDACEAE)

- sp. unspecified - *Callosamia promethea*, *Hyalophora cecropia*, *Samia cynthia* ssp.
asiatica - *Attacus atlas*, *A. taprobanis*.
flexuosa - *Leucanella stuarti* ssp.
lauina - *Hyperchiria incisa* ssp.
thunbergii - *Attacus atlas*, *A. taprobanis*.
vulgaris - *Attacus atlas*, *A. taprobanis*, *Callosamia promethea*, *Hyalophora cecropia*.

BERLINIA

(FABACEAE: CAESALPINIOIDAE)

- sp. unspecified - *Gonimbrasia hecate*, *Gynanisa maja* ssp., *Imbrasia ertli*, *I. nictitans*,
Pseudobunaea epithyrena.
paniculata - *Cinabra hyperbius*, *Goodia kuntzei*, *Gynanisa maja* ssp., *Micragone ansorgei*, *Pseudobunaea pallens*.

BETULA

(BETULACEAE)

- sp. unspecified - *Aglia tau* ssp., most *Antheraea* sp., *A. polyphemus* ssp., *Automeris io* ssp., *A. io io*, *Callosamia promethea*, *Eacles imperialis imperialis*, *Imbrasia krucki*, *Leucanella leucane*, *Opodiphthera helena*, *Saturnia pavonia* ssp., *S. pyri*.
alba - *Aglia tau* ssp., *Antheraea polyphemus* ssp., *Eacles imperialis* ssp., *Hyalophora cecropia*.
alba var. *laciniata* - *Eacles imperialis* ssp.
alleghaniensis - *Hyalophora cecropia*.
alnoides - *Antheraea knyvetti*, *A. roylei*.
excelsa - *Hyalophora cecropia*.
lenta - *Antheraea polyphemus* ssp., *Hyalophora cecropia*.
occidentalis - *Hyalophora euryalus euryalus*.
papyrifera - *Actias luna* ssp., *Antheraea polyphemus* ssp., *Caligula simla*, *Callosamia promethea*, *Eacles imperialis* ssp., *Eupackardia calleta*, *Hemileuca eglanterina* ssp., *Hyalophora cecropia*.
pendula - *Actias luna* ssp., *Aglia tau* ssp., *Antheraea polyphemus* ssp., *Hyalophora columbia gloveri*, *Saturnia lindia*.
platyphylla - *Actias artemis*, *Aglia tau* ssp., *Attacus atlas*.
populifolia - *Antheraea polyphemus* ssp., *Eacles imperialis* ssp., *Hyalophora cecropia*, *Hemileuca lucina*.
pumila - *Hemileuca maia*.

BISCHOFIA

(EUPHORBIACEAE)

- sp. unspecified - *Cricula trifenestrata*.
javanica - *Attacus atlas*.

BIXA

(BIXACEAE)

- sp. unspecified - *Citheronia phoronea*.
orellana - *Citheronia phoronea*.

BOMBACOPSIS

(BOMBACACEAE)

quinatum - *Arsenura armida* ssp., *Caio championi*, *Hylesia lineata*, *Periphoba arcae*,
Titaea tamerlan ssp.

BOMBAX

(BOMBACACEAE)

sp. unspecified - *Titaea tamerlan* ssp.
ceiba - *Arsenura armida* ssp., *Dysdaemonia boreas*.
heptaphyllum - *Antheraea paphia*.
malabaricum - *Antheraea paphia*.

BOUTELOUA

(POACEAE)

curtipendula - *Hemileuca hualapai*, *H. oliviae*.
gracilis - *Hemileuca oliviae*.
hirsuta - *Hemileuca oliviae*.
oligostachya - *Hemileuca oliviae*.

BRACHYLAENA

(ASTERACEAE)

discolor - *Ludia delegorguei*.
rotundata - *Ludia delegorguei*.

BRACHYOTUM

(MELASTOMATACEAE)

ledifolium - *Copaxa semioculata orientalis*.

BRACHYSTEGIA

(FABACEAE: CAESALPINIOIDEAE)

sp. unspecified - *Gynanisa maja* ssp., *Holocerina agomensis*, *Imbrasia carnegiei*, *I. nictitans*, *Pseudobunaea callista*.
globifera - *Athletes semialba*, *Imbrasia carnegiei*.
randii - *Athletes gigas*, *A. semialba*, *Cinabra hyperbius*, *Goodia kuntzei*, *Imbrasia ertli*, *I. macrothyris*, *Lobobunaea natalensis*, *Pseudobunaea epithyrena*.
spiciformis - *Athletes semialba*, *Cinabra hyperbius*, *Goodia kuntzei*, *Imbrasia ertli*, *I. macrothyris*, *Micragone ansorgei*, *Orthogonioptilum incana*, *Pseudobunaea irius*.
venosa - *Cinabra hyperbius*, *Goodia kuntzei*, *Gynanisa ata*, *G. maja* ssp., *Imbrasia macrops*.

BRASSAIA

(ARALIACEAE)

actinophylla var. *arboricola* - *Attacus atlas*.

BRIDELIA

(EUPHORBIACEAE)

micrantha - *Bunaeopsis aurantiaca*.
grandis - *Pseudobunaea cleopatra*.

BROMUS	(POACEAE)
<i>polyanthus</i> - <i>Hemileuca oliviae</i> .	
BROSIMUN	(MORACEAE)
<i>utile</i> - <i>Automeris</i> sp.	
BUCHLOE	(POACEAE)
<i>dactyloides</i> - <i>Hemileuca oliviae</i> .	
BURKEA	(FABACEAE: CAESALPINIOIDEAE)
<i>africana</i> - <i>Cirina forda</i> , <i>Gonimbrasia belina</i> , <i>Rohaniella pygmaea</i> .	
BURSERA	(BURSERACEAE)
<i>microphylla</i> - <i>Hemileuca electra</i> ssp.	
<i>simaruba</i> - <i>Citheronia lobesis</i> ssp., <i>Hylesia acuta</i> .	
<i>tomentosa</i> - <i>Eacles imperialis</i> ssp., <i>E. imperialis decoris</i> .	
BYRSONIMA	(MALPIGHIACEAE)
<i>crassifolia</i> - <i>Hylesia lineata</i> .	
BYTTNERIA	(STERCULIACEAE)
<i>aculeata</i> - <i>Hylesia lineata</i> .	
<i>catalpaeifolia</i> - <i>Hylesia lineata</i> .	
CALLIANDRA	(FABACEAE: MIMOSOIDEAE)
<i>emarginata</i> - <i>Hylesia lineata</i> .	
CALLUNA	(ERICACEAE)
<i>vulgaris</i> - <i>Saturnia pavonia</i> ssp.	
CALYCOPHYLLUM	(RUBIACEAE)
<i>candidissimum</i> - <i>Automeris rubrescens</i> ssp., <i>Citheronia lobesis</i> ssp., <i>Hylesia lineata</i> , <i>Periphoba arcae</i> .	
CANANGA	(ANNONACEAE)
<i>odorata</i> - <i>Attacus atlas</i> , <i>A. caesar</i> , <i>A. lorquinii</i> .	
CANARIUM	(BURSERACEAE)
sp. unspecified - <i>Actias maenas</i> .	
<i>album</i> - <i>Cricula trifenestrata</i> .	
<i>commune</i> - <i>Attacus atlas</i> , <i>Cricula trifenestrata</i> .	

CANTHIUM (RUBIACEAE)
diccocum - *Antheraea paphia*.

CAPSICUM (SOLANACEAE)
annuum - *Antheraea polyphemus* ssp.

CAREYA (BARRINGTONIACEAE)
arborea - *Antheraea paphia*, *Cricula trifenestrata*.
sphaerica - *Antheraea paphia*.

CARICA (CARICACEAE)
papaya - *Samia cynthia* ssp.

CARISSA (APOCYNACEAE)
carandas - *Antheraea paphia*.
edulis - *Cirina forda*.
grandiflora - *Cirina forda*, *Gonimbrasia belina*.

CARPINUS (BETULACEAE)
 sp. unspecified - *Actias luna* ssp., *Antheraea mylitta*, *Eacles imperialis* *imperialis*,
Periphoba hircia.
americana - *Antheraea polyphemus* ssp., *Hyalophora cecropia*.
betulus - *Aglia tau* ssp., *Antheraea paphia*, *A. pernyi*, *Attacus atlas*, *Lonomia cynira*,
Samia cynthia ssp.
caroliniana - *Anisota virginiensis*, *Antheraea polyphemus* ssp., *Automeris io* ssp.,
Eacles imperialis ssp.

CARYA (JUGLANDACEAE)
 sp. unspecified - *Actias artemis*, *Actias luna* ssp., *Anisota senatoria*, *A. stigma* ssp.,
Antheraea polyphemus ssp., *A. yamamai* ssp., *Automeris io* ssp., *A. io io*, *Caligula simla*,
Citheronia brissotii ssp., *C. mexicana*, *C. regalis*, *Eacles imperialis* ssp.,
Hyalophora cecropia.
amara - *Antheraea polyphemus* ssp.
cordiformis - *Actias luna* ssp.

glabra - *Actias luna* ssp., *Antheraea polyphemus* ssp., *Citheronia regalis*, *C. splendens*
sinaloensis.
illinoensis - *Actias luna* ssp., *Citheronia brissotii* ssp., *C. regalis*, *C. splendens*
splendens, *Hyalophora cecropia*.
ovata - *Actias luna* ssp., *Antheraea polyphemus* ssp., *Citheronia regalis*.
tomentosa - *Antheraea polyphemus* ssp.

CARYOCAR*brasiliensis* - *Citheronia laocoon*.

(CARYOCARACEAE)

CASEARIA*arguta* - *Hylesia dalina*, *H. lineata*.*corymbosa* - *Hylesia lineata*, *Rothschildia lebeau* ssp.*odorata* - *Hylesia dalina*.*sylvestris* - *Hylesia lineata*.

(FLACOURTIACEAE)

CASSIAsp. unspecified - *Athletes semialba*, *Gynanisa maja* ssp.*alata* - *Periphoba arcae*.*biflora* - *Automeris io* *io*, *A. rubrescens* ssp., *Hylesia lineata*, *Periphoba arcae*.*chamaecrista* - *Automeris io* *io*.*corymbosa* - *Hyperchiria incisa* ssp.*emarginata* - *Syssphinx montana*.*fasciculata* - *Automeris io* ssp.*fistula* - *Samia cynthia* ssp.*grandis* - *Automeris rubrescens* ssp., *Syssphinx molina*.*hayesina* - *Automeris zugana*.*hookeriana* - *Leucanella stuarti* ssp.*lanceolata* - *Antheraea paphia*.

(FABACEAE: CAESALPINIOIDEAE)

CASTANEA

(FAGACEAE)

sp. unspecified - *Actias maenas*, *A. selene* ssp., *Anisota stigma fuscosa*, *Antheraea pernyi*, *A. polyphemus* ssp., *A. yamamai* ssp., *Caligula boisduvali* ssp., *Eacles imperialis* ssp., *Rhodinia fugax*, *Saturnia pyri*.*crenata* - *Aglia tau* ssp., *Antheraea yamamai* ssp., *Caligula japonica arisana*, *C. japonica* ssp.*dentata* - *Actias luna* ssp., *Anisota senatoria*, *A. stigma* ssp., *A. virginensis*, *Antheraea polyphemus* ssp., *Eacles imperialis* ssp.*mollissima* - *Actias artemis*, *A. selene ningpoana*, *Anisota stigma stigma*, *Caligula japonica* ssp.*pumila* - *Eacles imperialis* ssp.*sativa* - *Actias luna* ssp., *Antheraea polyphemus* ssp., *Eacles imperialis* ssp.*vesca* - *Antheraea polyphemus* ssp.*vulgaris* - *Anisota finlaysoni*, *A. peigleri*, *A. pellucida pellucida*, *A. senatoria*, *A. stigma fuscosa*, *A. stigma stigma*.**CATALPA**

(BIGNONIACEAE)

bungei - *Caligula japonica* ssp.

CEANOOTHUS

(RHAMNACEAE)

- sp. unspecified - *Hemileuca eglanterina* ssp., *Hyalophora cecropia*, *H. euryalus euryalus*.
cordulatus - *Hyalophora columbia gloveri*, *H. euryalus euryalus*, *Saturnia albofasciata*.
cuneatus - *Saturnia albofasciata*, *S. mendocino*.
fendleri - *Automeris panina*.
integerimus - *Hyalophora euryalus euryalus*.
leucodermis - *Saturnia albofasciata*.
sanguineus - *Hyalophora euryalus euryalus*.
spinosa - *Hemileuca eglanterina* ssp., *Saturnia albofasciata*.
thyrsiflorus - *Hemileuca eglanterina* ssp., *Hyalophora euryalus euryalus*.
velutinus - *Hemileuca eglanterina* ssp., *Hyalophora columbia gloveri*, *H. euryalus euryalus*.

CECROPIA

(MORACEAE)

- sp. unspecified - *Automeris* sp.

CEDRELA

(MELIACEAE)

- odorata* - *Dirphia avia*, *Eacles imperialis decoris*.
paniculata - *Actias selene* ssp.

CEDRUS

(PINACEAE)

- sp. unspecified - *Eacles imperialis* ssp.

CEIBA

(BOMBACACEAE)

- acuminata* - *Caio richardsoni*.
pentandra - *Attacus atlas*, *Dysdaemonia boreas*.

CELASTRUS

(CELASTRACEAE)

- paniculatus* - *Antheraea paphia*.

CELTIS

(ULMACEAE)

- sp. unspecified - *Agapema galbina* ssp., *Bunaea alcinoe*, *Eacles imperialis tucumana*.
kraussiana - *Pseudobunaea tyrrhena*.
laevigata - *Automeris io* ssp.
pallida - *Automeris io io*, *A. pamina*, *A. randa*, *Pseudobunaea tyrrhena*, *Rhodinia fugax*.
sinensis - *Rhodinia verecunda*.
spinosa - *Hyperchiria incisa* ssp.
tala - *Leucanella aspera* ssp.

- CENTROSEMA** (FABACEAE: FABOIDEAE)
pubescens - *Automeris zugana*.
- CEPHALANTHUS** (RUBIACEAE)
 sp. unspecified - *Hyalophora cecropia*, *H. euryalus euryalus*, *Rothschildia aurota speculifera*, *R. orizaba* ssp.
occidentalis - *Callosamia promethea*, *Citheronia regalis*, *Hyalophora cecropia*.
- CEPHALARIA** (DIPSACACEAE)
procera - *Saturnia cephalariae*, *S. pyri*.
- CERCIDIUM** (FABACEAE: CAESALPINIOIDEAE)
 sp. unspecified - *Hemileuca tricolor*.
floridum - *Syssphinx heiligbrodti*.
microphyllum - *Hemileuca tricolor*, *Syssphinx heiligbrodti*.
- CERCIS** (FABACEAE: CAESALPINIOIDEAE)
canadensis - *Automeris io* ssp., *A. io liliiflora*, *A. zephyria*.
siliquastrum - ?*Athletes gigas*, *Caligula japonica* ssp.
- CERCOCARPUS** (ROSACEAE)
 sp. unspecified - *Hemileuca chinatiensis*.
betuloides - *Hemileuca eglanterina* ssp., *H. griffini*, *H. nuttalli nuttalli*, *Saturnia albofasciata*.
betuloides var. *blancheri* - *Automeris pamina*, *A. zephyria*.
montanus - *Hemileuca eglanterina* ssp., *Saturnia albofasciata*.
parvifolius - *Automeris pamina*.
- CHAMAECYPARIS** (CUPRESSACEAE)
thyoides - *Eacles imperialis* ssp.
- CHILOPSIS** (BIGNONIACEAE)
linearis - *Automeris iris hesselorum*.
- CHLORIS** (POACEAE)
virgata - *Decachorda aspersa*.
- CHLOROPHORA** (MORACEAE)
 sp. unspecified - *Imbrasia dione*.
- CHLOROXYLON** (RUTACEAE)
swietenia - *Antheraea paphia*.

CHOMELIA*spinosa* - *Hylesia lineata*.

(RUBIACEAE)

CHORISIAsp. unspecified - *Caio championi*, *C. richardsoni*, *Dysdaemonia boreas*.*insignis* - *Arsenura armida* ssp., *A. polyodonta*.*speciosa* - *Arsenura armida* ssp., *Dysdaemonia fosteri*.

(BOMBACACEAE)

CHRYSOPHYLLUMsp. unspecified - *Attacus lorquinii*, *Bunaeopsis hersilia*.

(SAPOTACEAE)

CINCHONA*succirubra* - *Attacus atlas*, *Cricula trifenestrata*.

(RUBIACEAE)

oxyacantha - *Caligula simla*, *Dirphia avia*, *Hyalophora cecropia*, *Paradirphia eumedide*, *Saturnia spinii*.

pedicellata - *Hyalophora cecropia*.

pinnatifida - *Antheraea pernyi*.

tomentosa - *Antheraea polyphemus* ssp., *Hyalophora cecropia*.

CRESCENTIA

(BIGNONIACEAE)

alata - *Automeris io io*, *A. rubrescens* ssp.

CROTON

(EUPHORBIACEAE)

sp. unspecified - *Bunaea alcinoe*, *Epiphora rectifascia*, *Rothschildia maurus*.

floribundus - *Prociheronia principalis*.

gratissimus - *Epiphora mylitta*.

oligondrum - *Epiphora vacuna*, *Pseudobunaea cleopatra*.

sylvaticus - *Epiphora mylitta*.

CRYPTOCARYA

(LAURACEAE)

peumus - *Catocephala socialis*, *Polythysana cinerascens*.

rubra - *Polythysana apollina*, *P. cinerascens*, *P. rubrescens*.

CUPANIA

(SAPINDACEAE)

guatemalensis - *Hylesia lineata*.

CUPRESSUS

(CUPRESSACEAE)

sp. unspecified - *Automeris* sp., *Citheronia laocoon*, *Eacles imperialis imperialis*.

macrocarpa - *Imbrasia cytherea*.

CURCUMA

(ZINGIBERACEAE)

longa - *Attacus atlas*.

CUSSONIA

(ARALIACEAE)

spicata - *Bunaea alcinoe*, *Holocerina rhodesiensis*.

CYCOBALANOPSIS

(FAGACEAE)

glauca - *Antheraea roylei*, *Attacus lorquinii*, *Rhodinia fugax*, *R. verecunda*.

CYDISTA

(BIGNONIACEAE)

heterophylla - *Automeris zugana*.

CYDONIA

(ROSACEAE)

sp. unspecified - *Imbrasia cytherea*, *Saturnia pyri*.

oblonga - *Antheraea polyphemus* ssp.

CYNODON	(POACEAE)
sp. unspecified - <i>Automeris colenon</i> , <i>Hemileuca hualapai</i> .	
CYPERUS	(CYPERACEAE)
<i>esculentus</i> - <i>Antheraea roylei</i> .	
DALBERGIA	(FABACEAE: FABOIDEAE)
<i>retusa</i> - ? <i>Hylesia lineata</i> .	
DALEA	(FABACEAE: FABOIDEAE)
<i>californica</i> - <i>Hemileuca burnsi</i> .	
<i>fremontii</i> - <i>Hemileuca burnsi</i> .	
DAPHNIPHYLLUM	(DAPHNIPHYLLACEAE)
<i>himalense</i> - <i>Antheraea roylei</i> .	
DELONIX	(FABACEAE: CAESALPINIOIDEAE)
sp. unspecified - <i>Gonimbrasia zambesina</i> .	
DIALIUM	(FABACEAE: CAESALPINIOIDEAE)
<i>guineense</i> - <i>Eustera brachyura</i> .	
DIERVILLA	(CAPRIFOLIACEAE)
sp. unspecified - <i>Citheronia regalis</i> .	
DILLENIANIA	(DILLENIACEAE)
<i>indica</i> - <i>Attacus atlas</i> .	
<i>pentagyna</i> - <i>Attacus atlas</i> , <i>Loepa katinka</i> ssp.	
DIOSPYROS	(EBENACEAE)
sp. unspecified - <i>Automeris io io</i> , <i>Callosamia promethea</i> , <i>Eacles imperialis</i> ssp., <i>Gonimbrasia belina</i> .	
<i>kaki</i> - <i>Citheronia laocoon</i> .	
<i>lycioides</i> - <i>Gonimbrasia tyrrhea</i> ssp.	
<i>mespiliformis</i> - <i>Gonimbrasia zambesina</i> ssp.	
<i>virginiana</i> - <i>Actias luna</i> ssp., <i>Citheronia regalis</i> .	
DIPHYSIA	(FABACEAE: FABOIDEAE)
<i>robinoides</i> - <i>Hylesia lineata</i> .	
DIPLORHYNCHUS	(APOCYNACEAE)
<i>mossambicensis</i> - <i>Imbrasia dione</i> , <i>I. rectilineata</i> .	

DISCOGLYPREMNA	(EUPHORBIACEAE)
<i>caloneura</i> - <i>Epiphora boolana, E. lugardi.</i>	
DISTICHLIS	(POACEAE)
<i>spicata</i> - <i>Hemileuca oliviae.</i>	
DODONAEA	(SAPINDACEAE)
<i>viscosa</i> - <i>Antheraea paphia.</i>	
DOLICHOS	(FABACEAE: FABOIDEAE)
sp. unspecified - <i>Bunaeopsis bomfordi.</i>	
DYSOXYLUM	(MELIACEAE)
sp. unspecified - <i>Coscinocera hercules.</i>	
EKEBERGIA	(MELIACEAE)
sp. unspecified - <i>Cinabra hyperbius.</i>	
<i>meyeri</i> - <i>Bunaea alcinoe, Pseudobunaea tyrrhena, Cirina forda, Holocerina smilax.</i>	
<i>ruepellii</i> - <i>Bunaea alcinoe.</i>	
ELAEAGNUS	(ELAEAGNACEAE)
<i>angustifolia</i> - <i>Hyalophora columbia gloveri.</i>	
<i>argentea</i> - <i>Hyalophora columbia nokomis.</i>	
ELAEOCARPUS	(ELAEOCARPACEAE)
<i>obovatus</i> - <i>Opodiphthera</i> sp.	
ELEPHANTORRHIZA	(FABACEAE: MIMOSOIDEAE)
<i>burchelli</i> - <i>Gynanisa maja</i> ssp.	
ENTEROLOBIUM	(FABACEAE: MIMOSOIDEAE)
<i>cyclocarpum</i> - <i>Hylesia lineata.</i>	
EPHEDRA	(EPHEDRACEAE)
sp. unspecified - <i>Hemileuca griffini.</i>	
<i>nevadensis</i> var. <i>aspera</i> - <i>Hemileuca chinatiensis.</i>	
ERICA	(ERICACEAE)
sp. unspecified - <i>Saturnia pavonia</i> ssp.	
ERIOBOTRYA	(ROSACEAE)
<i>japonica</i> - <i>Eriogyna pyretorum.</i>	

ERIOCEPHALUS

(ASTERACEAE)

- africanus* - *Vegetia ducalis*.
ericoides - *Vegetia ducalis*, *V. dewitzii*.
racemosus - *Vegetia grimmia*.
umbellatus - *Vegetia ducalis*.

ERIOGONUM

(POLYGONACEAE)

- sp. unspecified - *Hemileuca hera hera*.
effusum - *Hemileuca magnifica*.
fasciculatum - *Hemileuca burnsi*, *H. electra* ssp., *H. neumoegeni*.
fasciculatum var. *polifolium* - ?*Hemileuca burnsi*, *H. electra* ssp.
wrightii - *Hemileuca lex*.

ERIOSEMA

(FABACEAE: FABOIDEAE)

- sp. unspecified - *Vegetia ducalis*.

ERYNGIUM

(APIACEAE)

- agavifolium* - *Eudyaria venata*.

ERYTHRINA

(FABACEAE: FABOIDEAE)

- sp. unspecified - *Attacus atlas*, *A. caesar*, *Automeris janus*.
abyssinica - *Urota sinope*.
caffra - *Urota sinope*.
crista-galli - *Eacles imperialis cacicus*, *E. imperialis opaca*, *Leucanella viridescens*
 ssp.
rubra - *Automeris metzli*.
subumbrana - *Attacus atlas*, *A. caesar*.
tomentosa - *Urota sinope*.

ERYTHROPHLEUM

(FABACEAE: CAESALPINIOIDEAE)

- guineense* - *Cirina forda*, *Pseudimbrasia deyrollei*.

ERYTHROXYLUM

(ERYTHROXYLACEAE)

- havanense* - *Hylesia lineata*, *Imbrasia dione*.

EUCALYPTUS

(MYRTACEAE)

- sp. unspecified - *Argema besanti*, *A. mimosae* ssp., *Automeris incarnata*, *Citheronia vogleri*, *Lobobunaea angasana*, *Opodiphthera loranthi*.
baxteri - *Opodiphthera helena*.
blakelyi - *Opodiphthera eucalypti*.
botryoides - *Opodiphthera eucalypti*.
bridgesiana - *Opodiphthera eucalypti*.
cinerea - *Opodiphthera eucalypti*.

eugeniooides - *Opodiphthera eucalypti*.
fastigiata - *Opodiphthera eucalypti*.
globulus - *Imbrasia cytherea*, *Opodiphthera eucalypti*.
gunnii - *Actias maenas*, *Cricula trifenestrata*, *Opodiphthera eucalypti*.
leucoxylon - *Opodiphthera eucalypti*.
leucoxylon var. *macrocarpa* - *Opodiphthera eucalypti*.
macarthuri - *Opodiphthera eucalypti*.
maculosa - *Opodiphthera eucalypti*.
macrorhyncha - *Opodiphthera eucalypti*.
maideni - *Opodiphthera eucalypti*.
melliodora - *Opodiphthera eucalypti*.
nitens - *Opodiphthera eucalypti*.
odorata - *Opodiphthera helena*.
obliqua - *Opodiphthera eucalypti*.
paniculata - *Opodiphthera eucalypti*.
pauciflora - *Opodiphthera eucalypti*.
regnans - *Opodiphthera eucalypti*.
saligna - *Opodiphthera eucalypti*.
viminalis - *Opodiphthera eucalypti*.

EUCLEA

(EBENACEAE)

sp. unspecified - *Bunaeopsis oubie*, *B. zaddachi*.
daphnooides - *Imbrasia cytherea*.
polyandra - *Imbrasia cytherea*.
racemosa - *Imbrasia cytherea*.
undulata - *Cirina forda*.

EUGENIA

(MYRTACEAE)

sp. unspecified - *Antherina suraka*, *Imbrasia dione*, *Lobobunaea saturnus*.
aquea - *Cricula trifenestrata*.
cordata - *Lobobunaea angasana*.
cumini - *Antheraea paphia*.
cuneifolia - *Argema mittrei*.
jambolana - *Antheraea paphia*.
malaccense - *Cricula trifenestrata*.
salamensis - *Periphoba arcae*.

EUODIA

(RUTACEAE)

fraxinifolia - *Antheraea roylei*, *Samia cynthia* ssp.

EUPATORIUM

(ASTERACEAE)

buniifolium - *Rothschildia tucumana*.

EUPHORBIA	(SAPINDACEAE)
<i>longana</i> - <i>Attacus atlas</i> .	
EUSCAPHIS	(STAPHYLEACEAE)
<i>japonica</i> - <i>Samia cynthia walkeri</i> .

PSEUDOTSUGA

(PINACEAE)

- menziesii* - *Hyalophora columbia columbia*, *H. columbia gloveri*, *H. euryalus euryalus*.

PSIDIUM

(MYRTACEAE)

- sp. unspecified - *Holocerina smilax*, *Imbrasia cytherea* ssp., *I. dione*, *I. wahlbergi*,
Othorene purpurascens.
albortum - *Citheronia laocoon*.
araca - *Citheronia laocoon*.
cujavillius - *Attacus lorquinii*.
guajava - *Attacus lorquinii*, *Automeris complicata*, *Citheronia laocoon*, *C. lobesis* ssp.,
Cricula trifenestrata, *Eriogyna pyretorum*, *Gamelia abasia*, *Holocerina smilax*,
Imbrasia wahlbergi.
guineense - *Hylesia lineata*.
icanescens - *Citheronia laocoon*.
mediterraneum - *Citheronia laocoon*.
petrosum - *Citheronia laocoon*.
pomiferum - *Citheronia laocoon*, *Eacles penelope*.
pyriforme - *Attacus lorquinii*.

PSOROSPERMUM

(HYPERICACEAE)

- sp. unspecified - *Holocerina angulata*.

PTEROCARPUS

(FABACEAE: FABOIDEAE)

- sp. unspecified - *Gynanisa maja* ssp., *Pseudobunaea epithyrena*.
delevoyi - *Pseudobunaea irius*.

PTEROCARYA

(JUGLANDACEAE)

- stenoptera* - *Actias selene ningpoana*, *Eriogyna pyretorum*.

PUNICA

(PUNICACEAE)

- sp. unspecified - *Actias artemis*.

PURSHIA

(ROSACEAE)

- sp. unspecified - *Hyalophora columbia gloveri*.
tridentata - *Hemileuca eglanterina* ssp., *H. nuttalli nuttalli*, *H. nuttalli uniformis*,
Hyalophora columbia gloveri, *H. euryalus euryalus*.

PYCREUS

(CYPERACEAE)

- muricatus* - *Bunaeopsis oubie*.

PYRACANTHA

(ROSACEAE)

- sp. unspecified - *Hemileuca eglanterina* ssp., *H. nuttalli nuttalli*.

PYRUS

(ROSACEAE)

- sp. unspecified - *Attacus atlas*, *Caligula boisduvali* ssp., *Neoris* sp., *Saturnia atlantica*.
americana - *Hyalophora cecropia*.

calleryana - *Saturnia lindia*.

communis - *Actias artemis*, *A. selene* ssp., *A. selene ningpoana*, *Aglia tau* ssp., *Antheraea polyphemus* ssp., *A. roylei*, *Attacus atlas*, *Automeris complicata*, *A. io* ssp., *Caligula boisduvali* ssp., *C. japonica* ssp., *C. simla*, *Cricula andrei*, *C. trifenestrata*, *Hyalophoracecropia*, *?Imbrasia cytherea*, *Neoris haraldi*, *Perisomena caecigena*, *Saturnia pavonia* ssp., *S. pyri*.

coronaria - *Hyalophora cecropia*.

malus - *Actias artemis*, *A. selene* ssp., *Aglia tau* ssp., *Antheraea assamensis*, *A. pernyi*, *A. roylei*, *A. yamamai* ssp., *Attacus atlas*, *Automeris banus* ssp., *A. excreta*, *A. io* ssp., *A. io coloradensis*, *A. janus*, *A. liberia*, *A. metzli*, *A. zephyria*, *Bunaea alcinoe*, *Caligula japonica* ssp., *C. simla*, *Callosamia promethea*, *Cirina forda*, *Cricula andrei*, *C. trifenestrata*, *Eupackardia calleta*, *Gonimbrasia tyrrhea* ssp., *Hemileuca eglanterina* ssp., *Holocerina smilax*, *Hyalophora cecropia*, *H. euryalus euryalus*, *Hylesia nigricans*, *Imbrasia cytherea*, *I. gueinzii*, *I. macrothrypis*, *Leucanella leucane*, *Neoris haraldi*, *Paradirphia hoegei*, *P. lasiocampina*, *Periphoba hircia*, *Samia cynthia* ssp., *Saturnia atlantica*, *S. pavonia* ssp., *S. pyri*, *S. spinii*.

pyrifolia - *Eriogyna pyretorum*.

QUAMOCЛИT

(CONVOLVULACEAE)

setosa - *Hyperchiria orodina*.

QUERCUS

(FAGACEAE)

sp. unspecified - *Actias artemis*, *A. luna* ssp., *A. maenas*, *A. selene* ssp., *Anisota dissimilis*, *A. stigma* ssp., *A. virginensis*, *Antheraea assamensis*, *A. godmani*, *A. knyvetti*, *A. montezuma*, *A. mylitta*, *A. paphia*, *A. polyphemus* ssp., *A. roylei*, *A. yamamai* ssp., *Attacus lorquinii*, *Automerella flexuosa*, *Automeris beckeri*, *boudinotiana*, *A. excreta*, *A. io* ssp., *A. io io*, *A. inornata*, *A. iris hesselorum*, *A. naranja* ssp., *A. randa*, *A. tridens*, *Bunaeopsis licharbas*, *Caligula boisduvali* ssp., *C. boisduvali fallax*, *C. japonica* ssp., *?C. simla*, *Callosamia promethea*, *Citheronia regalis*, *Copaxa lavendera*, *C. muellerana*, *C. rufinans*, *Cricula andrei*, *C. trifenestrata*, *Dirphia curitiba*, *Eacles ducalis*, *E. imperialis decoris*, *E. imperialis* ssp., *E. imperialis imperialis*, *E. ormondei* ssp., *Hemileuca eglanterina* ssp., *?H. lucina*, *H. rubridorsa*, *H. tricolor*, *Holocerina smilax*, *Hyalophora euryalus euryalus*, *Hylesia continua cressida*, *H. lineata*, *H. nigricans*, *Hyperchiria incisa* ssp., *Imbrasia cytherea*, *I. wahlbergi*, *Lonomia cynira*, *Melanocera menippe*, *Paradirphia lasiocampina*, *Perisomena caecigena*, *Pseudimbrasia deyrollei*, *Rhodinia fugax*, *Rothschildia arethusa* ssp., *R. cincta* ssp., *R. jorulla* ssp., *Saturnia pavonia* ssp., *Syssphinx bicolor*.

X bebbiana - *Antheraea polyphemus* ssp.

Trees; deciduous - *Lobobunaea phaedusa*.

Vines - *Loepa katinka* ssp.

Yellow creeper - *Imbrasia rectilineata*.

SUMMARY

This catalog lists some 505 saturniid species and subspecies feeding on 1,060 plant species in 503 genera in 139 families. *Quercus* (FAGACEAE), with 66 species recorded in this catalog, comprises the largest individual number of foodplants in one genus consumed by saturniid larvae. *Pinus* (PINACEAE), with 28 recorded species is the next largest genus. However, the family FABACEAE is represented by three subfamilies, 69 genera and 126 species.

That these three plant families contain the largest number of individual foodplant species consumed by saturniid larvae is not surprising. Although diverse, all these plant groups are cosmopolitan in distribution and represent very ancient orders. As foodplants, they were probably well established before saturniids evolved and, thus, available as larval food sources.

As a group, saturniid larvae consume a phenomenal variety of vegetation, but only species of Spermatophyta—Gymnospermae (conifers) and Angiospermae (flowering plants). Conspicuously absent are records of saturniid larvae feeding on Pteridophyta (ferns and fern allies). Perhaps as research on saturniid foodplants progresses, a pteridophyte may one day be recorded as a saturniid foodplant.

The overwhelming majority of saturniid species listed are from the New World, the Nearctic and Neotropical regions. But this is only because there would appear to be an exceptional richness of saturniid species in these regions. Certainly the saturniid fauna of the western Palaearctic region, Europe, has been well studied by generations of researchers curious about saturniid biology. Far less is known about the biology of many saturniids in the Ethiopian and Indo-Australian regions. Although these areas have been fairly intensively studied and Barlow (1982), Bouvier (1936), Cotes (1891-1893), Dickerson (1944, 1945), Gosse (1879), Holloway (1987), Inoue (1982), Oberprieler (1987), Peigler (1989), Pinhey (1956, 1972, & 1975), Rougeot (1962, 1971), and others have contributed enormous amounts to our understanding of saturniid biology, there are still large gaps in the knowledge.

Very little has been reported from the eastern Palaearctic region, that vast area of the Union of Soviet Socialist Republics. Much of the scant information that is available is generally published in Russian and, for the most part, linguistically inaccessible to many researchers. Perhaps with Glasnost will come accessibility of the natural sciences also.

On a global basis, there are somewhere in the neighborhood of 1,100 to 1,200 named saturniid species and subspecies, depending on the author and whether subspecies are recognized. Represented in this catalog are slightly less than half the described saturniid species. More than anything else, this catalog is a clear and unambiguous statement of the unknown, that is, the remaining 600+ species. Obviously the field of saturniid

biology is wide open. With more than 600 species known to science only through dead adults, there is much to learn. It is hoped this work will provide an impetus for research on these remaining species.

APPENDIX I: VERNACULAR NAMES OF FOODPLANTS

<i>ABIES</i>	Fir	<i>ALBIZIA</i>	Silktree
<i>balsamea</i>	Balsam fir	<i>saman</i>	Rain tree
<i>grandis</i>	Grand fir	<i>ALEURITES</i>	Tungtree
<i>ACACIA</i>	Acacia\Blackwood\Wattle	<i>fordii</i>	China wood-oil tree
<i>angustissima</i>	Prairie acacia	<i>montana</i>	Mu-oil tree
<i>baileyana</i>	Bailey's acacia	<i>ALLOPHYLUS</i>	
<i>collinsii</i>	Bullhorn acacia	<i>occidentalis</i>	Palo blanco
<i>cornigera</i>	Bull's horn acacia	<i>ALNUS</i>	Alder
<i>cyanophylla</i>	Wattle	<i>glutinosa</i>	European\Black alder
<i>cyclopis</i>	Wattle	<i>incana</i>	White alder
<i>dealbata</i>	Silver wattle	<i>japonica</i>	Japanese alder
<i>farnesiana</i>	Huisache\Sweet acacia	<i>rubra</i>	Red alder
<i>flexicaulis</i>	Ebony blackbead	<i>serrulata</i>	Hazel alder
<i>greggi</i>	Catclaw acacia	<i>ALSTONIA</i>	
<i>karroo</i>	Karro wattle	<i>scholaris</i>	Devil tree
<i>mearnsii</i>	Black wattle	<i>ALTHAEA</i>	
<i>mollissima</i>	Black wattle	<i>rosa</i>	Hollyhock
<i>nilotica</i>	Gum-Arabic wattle	<i>AMELANCHIER</i>	Serviceberry
<i>rigidula</i>	Blackbrush wattle	<i>alnifolia</i>	Western serviceberry
<i>saligna</i>	Weeping wattle	<i>canadensis</i>	Thicket serviceberry
<i>sieberiana</i>	Wattle	<i>florida</i>	Western serviceberry
<i>ACALYPHA</i>	Three-seeded Mercury	<i>AMORPHA</i>	False indigo
<i>ACER</i>	Maple	<i>fruticosa</i>	Bastard indigo
<i>circinatum</i>	Vine maple	<i>ANACARDIUM</i>	Cashew
<i>dasycarpum</i>	Silver maple	<i>occidentale</i>	Cashewnut\Marañón
<i>monspessulanum</i>	Montpelier maple	<i>ANDROMEDA</i>	Rosemary
<i>negundo</i>	Box elder/Manitoba maple	<i>glaucophylla</i>	Downy bog-rosemary
<i>plantanoides</i>	Norway maple	<i>ovalifolia</i>	Bog-rosemary
<i>pseudoplatanus</i>	Sycamore maple	<i>ANDROPOGON</i>	Beardgrass
<i>rubrum</i>	Red maple	<i>hallii</i>	Sand bluestem
<i>saccharinum</i>	Silver maple	<i>ANNONA</i>	Annona
<i>saccharum</i>	Sugar maple	<i>muricata</i>	Prickly custard apple
<i>spicatum</i>	Mountain maple	<i>purpurea</i>	Black-bead
<i>ADENOSTOMA</i>	Chamise	<i>senegalensis</i>	Wild custard apple
<i>AESCULUS</i>	Horsechestnut	<i>squamosa</i>	Custard apple
<i>hippocastanum</i>	European horsechestnut	<i>ANOGEISSUS</i>	
<i>AGROPYRON</i>		<i>latifolia</i>	Daura
<i>smithii</i>	Western wheatgrass	<i>APIUM</i>	Celery
<i>AILANTHUS</i>	Chinese Tree of heaven	<i>graveolens</i>	
		<i>APODYTES</i>	
		<i>dimidiata</i>	White pear

<i>ARbutus menziesii</i>	Madrone	<i>excelsa</i>	Low birch
<i>unedo</i>	Pacific madrone	<i>lenta</i>	Sweet birch
<i>ARCTOSTAPHYLOS alpinus</i>	Strawberry madrone	<i>occidentalis</i>	Mountain\Water birch
<i>glauca</i>	Manzanita	<i>papyrifera</i>	White\Paper birch
<i>patula</i>	Black bearberry	<i>pendula</i>	Silver birch
<i>pungens</i>	Great-berried manzanita	<i>platyphylla</i>	Japanese white birch
<i>tomentosa</i>	Greenleaf manzanita	<i>populifolia</i>	Gray birch
<i>uva-ursi</i>	Pointleaf manzanita	<i>pumila</i>	Dwarf birch
<i>ARONIA arbutifolia</i>	Shaggy-barked manzanita	<i>BISCHOFIA javanica</i>	Toog
<i>ARTABOTRYS</i>	Kinnikinnick	<i>BIXA orellana</i>	Annatto
<i>ARTEMISIA californica</i>	Chokeberry	<i>BOMBAX ceiba</i>	Red silk-cotton tree
<i>cana</i>	Tall grape	<i>heptaphyllum</i>	Semul
<i>filifolia</i>	Sagebrush\Wormwood	<i>malabaricum</i>	Silk-cotton tree
<i>tridentata</i>	California sagebrush	<i>BOUTELOUA curtipendula</i>	Grama
<i>vulgaris</i>	Silver sagebrush	<i>gracilis</i>	Side-oats grama
<i>ARTOCARPUS integer</i>	Sand sagebrush	<i>hirsuta</i>	Blue grama
<i>ASTRONIUM graveolens</i>	Big sagebrush	<i>BRACHYSTEGIA actinophylla</i> var. <i>arboricola</i>	Hairy grama
<i>AVERRHOA bilimbi</i>	Mugwort	<i>BRASSAIA</i>	Msasa
<i>carambola</i>	Jackfruit	<i>BROMUS</i>	Dwarf Australian umbrella tree
<i>AZADIRACHTA indica</i>	Kulimche	<i>BUCHLOE</i>	Bromegrass
<i>BAPTISIA tinctoria</i>	Cucumber tree	<i>dactyloides</i>	Buffalo grass
<i>BASSIA</i>	Country gooseberry	<i>BURKEA africana</i>	Wild Syringa
<i>BAUHINIA variegata</i>	Persian lilac	<i>BURSERIA microphylla</i>	Bursera
<i>BEQUAERTIODENDRON</i>	False Indigo	<i>simaruba</i>	Elephant tree
<i>BERBERIS thunbergii</i>	Wild Indigo	<i>tomentosa</i>	Gumbo-limbo
<i>vulgaris</i>	Mohwa tree	<i>BYRSONIMA crassifolia</i>	Torchwood
<i>BERLINIA</i>	Kanchan	<i>BYTTNERIA</i>	Byrsonima
<i>BETULA alba</i>	Mountain ebony	<i>CALLIANDRA</i>	Nanche
<i>alleghaniensis</i>	Fluted milkweed	<i>CALLUNA vulgaris</i>	Tezak\Zarza
<i>alnoides</i>	Barberry	<i>CALYCOPHYLLUM candidissimum</i>	Powderpuff
	Japanese barberry	<i>CANANGA odorata</i>	Heather
	Common barberry		Scottish heathers
	Mnondo		
	Birch		
	White birch		
	Yellow birch		
	Indian birch		

<i>CANARIUM</i>	Java almond	<i>CEDRELA</i>	
<i>CAPSICUM annuum</i>	Pepper	<i>paniculata</i>	Cedro\Spanish cedar
<i>CAREYA</i>	Cayenne pepper	<i>odorata</i>	West Indian Cedar
<i>CARICA papaya</i>	Kumbi	<i>CEDRUS</i>	Cedar
<i>CARISSA carandas</i>	Papaya	<i>CEIBA</i>	
<i>grandiflora</i>	Pawpaw	<i>acuminata</i>	Kapok
<i>CARPINUS americana</i>	Karaunda	<i>pentandra</i>	White silk cotton
<i>betulus</i>	Karanda	<i>CELASTRUS</i>	Shrubby bittersweet
<i>caroliniana</i>	Natal plum	<i>paniculatus</i>	Malkangni
<i>CARYA alba</i>	Hornbeam\Ironwood	<i>CELTIS</i>	Hackberry
<i>cordiformis</i>	American hornbeam	<i>laevigata</i>	Texas sugarberry
<i>glabra</i>	European hornbeam	<i>sinensis</i>	Japanese hackberry
<i>illinoensis</i>	American hornbeam	<i>CENTROSEMA pubescens</i>	Butterfly pea
<i>ovata</i>	Hickory	<i>CEPHALANTHUS</i>	Kantsin
<i>CASSIA alata</i>	Mockernut hickory	<i>CEPHALARIA</i>	Buttonbush
<i>corymbosa</i>	Bitternut hickory	<i>procera</i>	Teasel
<i>fistula</i>	Pignut hickory	<i>CERCIDIUM</i>	Paloverde
<i>grandis</i>	Pecan	<i>floridum</i>	Texas paloverde
<i>CASTANEA crenata</i>	Shagbark hickory	<i>microphyllum</i>	Little-leaf horsebean
<i>dentata</i>	Cape Laburnum\Senna	<i>CERCIS canadensis</i>	Redbud
<i>mollissima</i>	Ringworm cassia	<i>siliquastrum</i>	Judas tree
<i>pumila</i>	Autumn senna	<i>CERCOCARPUS betuloides</i>	Mountainmahogany
<i>sativa</i>	Indian laburnum	<i>montanus</i>	Birchleaf cercocarpus
<i>vesca</i>	Horse cassia	<i>CHAMAECYPARIS thyoides</i>	True mountainmahogany
<i>vulgaris</i>	Chestnut\Chinkapin		False cypress
<i>CATALPA</i>	Japanese chestnut	<i>CHILOPSIS linearis</i>	Atlantic white-cedar
<i>CEANOOTHUS cordulatus</i>	American chestnut	<i>CHLORIS</i>	Desert willow
<i>cuneatus</i>	Chinese chestnut	<i>virgata</i>	Finger grass
<i>fendleri</i>	Allegheny chinquapin	<i>CHORISIA</i>	Rhodes grass
<i>integerrimus</i>	Spanish\Sweet chestnut	<i>CHLOROPHORA</i>	Floss-silk tree
<i>leucodermis</i>	Spanish chestnut	<i>CHLOROXYLON</i>	Muvuli
<i>spinosa</i>	American chestnut	<i>swietenia</i>	Satin-wood
<i>thyrsiflorus</i>	Catawba\Indian bean	<i>CHRYSOPHYLLUM</i>	East Indian Satin-wood
<i>velutinus</i>	Wild lilac	<i>CINCHONA</i>	Goldenleaf
	Mountain white-thorn	<i>CINNAMOMUM</i>	Quinine
	Wedgeleaf ceanothus	<i>camphora</i>	Cinnamon
	Fendler ceanothus	<i>iners</i>	Camphor
	Deer brush	<i>obtusifolium</i>	Wild cinnamon
	Chaparral whitethorn		Camphor
	Greenbark ceanothus	<i>zeylanicum</i>	Cinnamon
	Blueblossom		
	Snowbrush		

<i>CISSUS</i>	Grape Ivy	<i>CRATAEGUS</i>	Hawthorn
<i>CITRUS</i>	Citrus	<i>calpodendron</i>	Pear hawthorn
<i>aurantium</i>	Sour orange	<i>coccinea</i>	Scarlet hawthorn
<i>reticulata</i>	Mandarin orange	<i>crus-galli</i>	Cockspur hawthorn
<i>CLERODENDRUM</i>	Glory-bower	<i>oxyacantha</i>	English hawthorn
<i>COCHLOSPERMUM</i>		<i>pedicellata</i>	Scarlet hawthorn
<i>vitifolium</i>	Rosa amarillo\Yellow rose	<i>tomentosa</i>	Pear hawthorn
<i>COFFEA</i>	Coffee	<i>CRESCENTIA</i>	Calabash tree
<i>COLEOGYNE</i>		<i>CUPANIA</i>	
<i>ramosissima</i>	Blackbrush	<i>guatemalensis</i>	Sacpom\Grande Betty
<i>COLEUS</i>	Painted leaves	<i>CUPRESSUS</i>	Cypress
<i>barbatus</i>	Flame nettle	<i>macrocarpa</i>	Monterey Cypress
<i>blumei</i>	Painted nettle	<i>CURCUMA</i>	Hidden lily
<i>COLOPHOSPERMUM</i>	Mopane	<i>longa</i>	Turmeric
<i>COMBRETUM</i>	Red wings	<i>CUSSONIA</i>	
<i>COMMIPHORA</i>	Paper tree	<i>spicata</i>	Cabbage tree
<i>COMPTONIA</i>		<i>CYCLOBALANOPSIS</i>	
<i>peregrina</i>	Sweet fern	<i>glauca</i>	Japanese evergreen oak
<i>CONDALIA</i>	Bluewood	<i>CYDISTA</i>	
<i>ericcides</i>	Javelina bush	<i>heterophylla</i>	Chacnetoloc
<i>obovata</i>	Bluewood	<i>CYDONIA</i>	Quince
<i>spathulata</i>	Squawbush	<i>oblonga</i>	Common quince
<i>CONOCARPUS</i>	Button mangrove	<i>CYNODON</i>	Bermuda grass
<i>erectus</i>	Buttonwood	<i>CYPERUS</i>	Umbrella sedge
<i>CONOPODIUM</i>		<i>esculentus</i>	Nutsedge
<i>denudatum</i>	Earth-nut	<i>DALEA</i>	Indigobush
<i>CORDIA</i>		<i>fremontii</i>	Fremont dalea
<i>alliodora</i>	Apacahuite\Trompillo	<i>DELONIX</i>	Flamboyant
<i>CORIARIA</i>		<i>DIALIUM</i>	
<i>nepalensis</i>	Tanner's tree	<i>guineense</i>	Velvet tamarind
<i>CORNUS</i>	Dogwood	<i>DIERVILLA</i>	Bush honeysuckle
<i>controversa</i>	Giant dogwood	<i>DIOSPYROS</i>	Persimmon
<i>florida</i>	Flowering dogwood	<i>kaki</i>	Japanese persimmon
<i>racemosa</i>	Gray dogwood	<i>tycoides</i>	Ebony
<i>stolonifera</i>	Red osier dogwood	<i>mespiliformis</i>	Ebony
<i>CORYLUS</i>	Hazel	<i>virginiana</i>	Common persimmon
<i>americana</i>	American hazelnut	<i>DISTICHLIS</i>	
<i>avellana</i>	European hazel	<i>spicata</i>	Seashore saltgrass
<i>colurna</i>	Turkish hazel	<i>DODONEA</i>	
<i>cornuta</i>	California hazelnut	<i>viscosa</i>	Hopbush
<i>heterophylla</i>	Hazel	<i>ELAEAGNUS</i>	
<i>rostrata</i>	Beaked hazelnut	<i>angustifolia</i>	Russian olive
		<i>argentea</i>	Silverberry

ENTEROLOBIUM		
<i>cyclocarpum</i>	Orejón\Elephant's-ear	
EPHEDRA	Mormon-tea	
<i>nevadensis</i>	Nevada jointfir	
ERICA	Heath	
ERIOBOTRYA		
<i>japonica</i>	Loquat	
ERIOGONUM	Buckwheat	
<i>effusum</i>	Spreading buckwheat	
<i>fasciculatum</i>	California buckwheat	
<i>fasciculatum</i> var. <i>polifolium</i>	Rosemary flat-top eriogonum	
<i>wrightii</i>	Wright wildbuckwheat	
ERIOSEMA	Blue bush	
ERYNGIUM	Eryngo	
ERYTHRINA	Kaffir boom\Coral tree	
<i>crista-galli</i>	Cockspur coral tree	
ERYTHROPHLEUM		
<i>suaveolens</i>	Red-water tree	
ERYTHROXYLUM		
<i>havanense</i>	Coca	
EUCALYPTUS	Eucalyptus\Gum	
<i>baxteri</i>	Gum	
<i>blakelyi</i>	Blakeley's red gum	
<i>bridgesiana</i>	Apple box	
<i>cinerea</i>	Mealy Stringybark	
<i>eugeniooides</i>	White Stringybark	
<i>fastigiata</i>	Brown-barrel	
<i>globulus</i>	Tasmanian Blue Gum	
<i>gunnii</i>	Cider gum	
<i>leucoxylon</i>	White Ironbark	
<i>leucoxylon</i> var. <i>macrocarpa</i>	Blue Gum	
<i>macarthuri</i>	Camden Wollybutt	
<i>maculosa</i>	Red-spotted Gum	
<i>macrorhyncha</i>	Red Stringybark	
<i>maideni</i>	Maiden's Gum	
<i>melliodora</i>	Yellow Box	
<i>nitens</i>	Gum	
<i>odorata</i>	Gum	
<i>obliqua</i>	Messmate	
<i>paniculata</i>	Gray Ironbark	
<i>pauciflora</i>	Cabbage Gum	
regnans		Giant Gum
saligna		Sydney Blue Gum
viminalis		Manna Gum
EUCLEA		Ebony
EUGENIA	Stopper\Waterboom	
<i>jambolana</i>	Jáman	
EUPHORBIA		
<i>longana</i>	Eye-ball tree	
EUODIA		
<i>fraxinifolia</i>	Poyam	
EXOSTEMA		
<i>mexicanum</i>	Princewood	
EYSENHARDTIA		
<i>polystachya</i>	Kidneywood	
FAGUS	Beech	
<i>crenata</i>	Japanese beech	
<i>ferruginea</i>	American beech	
<i>grandifolia</i>	American beech	
<i>sylvatica</i>	European beech	
FALLUGIA	Apache plume	
FICUS	Fig	
<i>benjamina</i>	Benjamin Tree	
<i>cordata</i>	Fig	
<i>religiosa</i>	Sacred Fig	
<i>retusa</i>	Indian Laurel	
FIRMIANA		
<i>simplex</i>	Chinese parasol tree	
FORESTIERA		
<i>angustifolia</i>	Narrow-leaf forestiera	
FORSYTHIA	Golden-bells	
FOUQUIERIA	Ocotillo	
FRAGARIA	Strawberry	
FRAXINUS	Ash	
<i>americana</i>	White ash	
<i>berlandierana</i>	Berlandier ash	
<i>excelsior</i>	European ash	
<i>pennsylvanica</i>	Green ash	
FREMONTIA	Flannel bush	
GAYLUSSACIA	Huckleberry	
<i>dumosa</i>	Dwarf huckleberry	
<i>frondosa</i>	Dangleberry	
GINKGO	Maidenhair tree	

GLEITSIA	Honeylocust	HOMALANTHUS
<i>texana</i>	Texas honeylocust	<i>populifolia</i> Bleeding-heart tree
<i>triacanthos</i>	Honeylocust	HORDEUM
GLIRICIDIA		<i>jubatum</i> var. <i>caespitosum</i>
<i>sepium</i>	Nicaraguan cocoa-shade	Bobtail barley
GLYCYRRHIZA	American licorice	HUMULUS Hops
GMELINA		HYMENAEA Locust
<i>arborea</i>	Gomari	<i>altissima</i> Locust
GORDONIA		<i>courbaril</i> West Indian Locust
<i>lasianthus</i>	Loblolly-bay	HYPARRHENIA
GOSSYPIUM	Cotton	<i>contracta</i> Thatching grass
<i>herbaceum</i>	Levant cotton	HYPHAENE Gingerbread palm
<i>hirsutum</i>	Upland Cotton	IDRIA Boojum
<i>thurberi</i>	Arizona wild cotton	ILEX Holly
GOUANIA		<i>chinensis</i> Kashi holly
<i>polygama</i>	Jaboncillo	<i>paraguaiensis</i> Paraguay tea
GUAZUMA		<i>verticillata</i> Black alder
<i>ulmifolia</i>	Guacima\Bay-cedar	IPOMOEA
GYMNOCLADUS	Coffee tree	<i>batatas</i> Sweet potato
<i>canadensis</i>	Coffee tree	IRIS Flag\Fleur-de-Lis
<i>dioica</i>	Kentucky coffee tree	IRVINGIA Wild mango
HALESIA	Silver-bell	JASMINUM Jasmine
<i>carolina</i>	Wild olive	JATROPHA
HAMAMELIS	Witch hazel	<i>curcas</i> Barbados nut\Physic nut
HARPEPHYLLUM		JUGLANS Walnut
<i>caffrum</i>	Kaffir plum	<i>cathayensis</i> Chinese butternut
HELICONIA	Red lobster-claw	<i>cinerea</i> Butternut
HETEROPanax		<i>nigra</i> Black walnut
<i>fragrans</i>	Keseru	<i>regia</i> English walnut
HEVEA		JULBERNARDIA
<i>brasiliensis</i>	Para rubber tree	<i>paniculata</i> Mnondo
HIBISCUS	Mallow	JUNIPERUS Juniper
<i>syriacus</i>	Syrian hibiscus	<i>communis</i> Common juniper
<i>tiliaceus</i>	Sea hibiscus	<i>virginiana</i> Eastern redcedar
HILARIA		KALMIA Laurel
<i>cenchooides</i>	Toboso Menudo	<i>angustifolia</i> Narrow-leaved laurel
HIPPOPHAE	Sea buckthorn	<i>latifolia</i> Mountain laurel
<i>rhamnoides</i>	Sallow thorn	KHAYA African mahogany
HIRTELLA		<i>nyasica</i> Nyasaland mahogany
<i>racemosa</i>	Pigeon-plum	<i>senegalensis</i> Red mahogany
HOLODISCUS		KOELREUTERIA Golden-rain tree
<i>discolor</i>	Ocean spray	<i>paniculata</i> Varnish tree

<i>LABURNUM</i>	Bean tree	<i>LYCURUS</i>	
<i>anagyroides</i>	Golden-chain	<i>phleoides</i>	Wolftail
<i>LACTUCA</i>	Lettuce	<i>LYSILOMA</i>	
<i>LAGERSTROEMIA</i>	Crapemyrtle	<i>aurium</i>	Quiebracha
<i>LANTANA</i>	Shrub verbena	<i>divaricata</i>	Quiebracha
<i>camara</i>	Yellow sage	<i>LYTHRUM</i>	Loosestrife
<i>LARIX</i>	Larch	<i>salicaria</i>	Purple loosestrife
<i>decidua</i>	European larch	<i>MACHILUS</i>	
<i>laricina</i>	Tamarack	<i>bombycina</i>	Som
<i>LAURUS</i>	Laurel\Sweet bay	<i>odoratissima</i>	Laurel\Sum tree
<i>obtusifolia</i>	Patte shoonda	<i>MACLURA</i>	
<i>LAWSONIA</i>		<i>pomiferum</i>	Osage orange
<i>alba</i>	Indian privet	<i>MAGNOLIA</i>	Magnolia
<i>LESPEDEZA</i>	Bush clover	<i>acuminata</i>	Cucumbertree
<i>LEUCAENA</i>		<i>grandiflora</i>	Southern magnolia
<i>pulverulenta</i>	Giant Leadtree	<i>sphenocarpa</i>	Chapa
<i>LEUCOPHYLLUM</i>		<i>tripetala</i>	Umbrella magnolia
<i>frutescens</i>	Barometer bush\Ceniza	<i>virginiana</i>	Sweetbay
<i>LEUCOSPERMUM</i>	Pincushion flower	<i>MALUS</i>	Apple
<i>LIGUSTRUM</i>	Privet\Trena	<i>coronaria</i>	Sweet crab apple
<i>japonica</i>	Japanese privet	<i>pumila</i>	Apple
<i>ovalifolium</i>	California privet	<i>MALVAVISCUS</i>	Sleepy mallow
<i>LINDERA</i>		<i>arboreus</i>	Wax mallow
<i>benzoin</i>	Spicebush	<i>arboreus</i> var. <i>drummondii</i>	Turk's Cap
<i>LIQUIDAMBAR</i>	Liquidambar	<i>MANGIFERA</i>	Mango
<i>formosana</i>	Formosan Gum	<i>MANIHOT</i>	Cassava\Tapioca plant
<i>styraciflua</i>	Sweetgum	<i>MANILKARA</i>	
<i>LIRIODENDRON</i>		<i>chicle</i>	Sapodilla
<i>tulipifera</i>	Tuliptree\White poplar	<i>MAYTENUS</i>	Mayten
<i>LITCHI</i>		<i>MELASTOMA</i>	
<i>chinensis</i>	Litchi	<i>malabathricum</i>	Indian rhododendron
<i>LITSEA</i>		<i>MELIA</i>	Bead tree
<i>citrata</i>	Addakurry	<i>azedarach</i>	Chinaberry
<i>polyantha</i>	Soalu	<i>MELIANTHUS</i>	
<i>salicifolia</i>	Digloti		Honeybush\Persian lilac
<i>LONCHOCARPUS</i>	Cabbagebark	<i>MELILOTUS</i>	Sweet clover
<i>LONICERA</i>	Honeysuckle	<i>alba</i>	White sweet clover
<i>japonica</i>	Japanese honeysuckle	<i>officinalis</i>	Yellow sweet clover
<i>LUEHEA</i>		<i>MICHELIA</i>	Champa
<i>speciosa</i>	Kazcat	<i>figo</i>	Banana shrub
<i>LUPINUS</i>	Lupine	<i>MICONIA</i>	
<i>LYCIUM</i>	Wolf-berry\Desert thorn	<i>argentea</i>	Ceniza

<i>MILNEA</i>		<i>OPUNTIA</i>	Cholla\Prickly pear
<i>roxburghiana</i>	Punyava	<i>OSTRYA</i>	Hop hornbeam
<i>MIMOSA</i>	Mimosa	<i>virginiana</i>	American hop hornbeam
<i>borealis</i>	Catclaw	<i>OXYDENDRUM</i>	
<i>dealbata</i>	Silver wattle	<i>arboreum</i>	Sourwood
<i>lindheimeri</i>	Lindheimer Mimosa	<i>PACHYCORMUS</i>	
<i>pigra</i>	Zarza	<i>discolor</i>	Elephant tree
<i>richelmanni</i>	Catclaw	<i>PAEONIA</i>	Peony
<i>MONOTES</i>	Yellow wood	<i>PANAX</i>	Ginseng
<i>MORINGA</i>		<i>PAPPEA</i>	
<i>oleifera</i>	Horseradish-tree	<i>capensis</i>	Wild plum
<i>MORUS</i>	Mulberry	<i>PARKIA</i>	Locust
<i>alba</i>	White mulberry	<i>biglobosa</i>	African locust
<i>MUEHLENBECKIA</i>	Wire plant	<i>intermedia</i>	Locust bean
<i>MUHLENBERGIA</i>	Muhly	<i>speciosa</i>	Locust bean
<i>MUNTINGIA</i>		<i>PARKINSONIA</i>	Jerusalem-thorn
<i>calabura</i>	Jamaica-cherry\Strawberry-tree	<i>PARTHENOCISSUS</i>	Woodbine
<i>MYRICA</i>	Bayberry	<i>quinquefolia</i>	Virginia creeper
<i>carolinensis</i>	Bayberry	<i>tricuspidata</i>	Boston Ivy
<i>cerifera</i>	Southern bayberry\Waxmyrtle	<i>PASSIFLORA</i>	Passionflower
<i>conifera</i>	Waxmyrtle	<i>quadrangularis</i>	Grenadine
<i>cordifolia</i>	Bayberry	<i>PAULLINIA</i>	
<i>gale</i>	Sweetgale	<i>cururu</i>	Guarana
<i>pensylvanica</i>	Northern bayberry	<i>PELTOPHORUM</i>	
<i>MYRSINE</i>		<i>africanum</i>	Wattle
<i>melanophloeos</i>	Rapanea	<i>PENNISETUM</i>	Elephant grass
<i>NEMOPANTHUS</i>	Mountain holly	<i>PERSEA</i>	
<i>mucronata</i>	Catberry	<i>americana</i>	Avocado
<i>NEPHELIA</i>		<i>borbonia</i>	Redbay
<i>litchi</i>	Lychee	<i>PHASEOLUS</i>	Bean
<i>NERIUM</i>	Oleander	<i>vulgaris</i>	Kidney bean
<i>oleander</i>	Common oleander	<i>PHELLODENDRON</i>	Cork tree
<i>NYSSA</i>	Tupelo	<i>PHILADELPHUS</i>	Mock orange
<i>sylvatica</i>	Black gum	<i>PHORADENDRON</i>	Mistletoe
<i>OCHNA</i>	Bird's-eye bush	<i>PHOTINIA</i>	
<i>OCIMUM</i>	Basil	<i>arbutifolia</i>	Christmasberry
<i>OCOTEA</i>		<i>PHYLLANTHUS</i>	
<i>veraguensis</i>	Pububuk	<i>emblica</i>	Emblie
<i>OLEA</i>	Olive	<i>PHYSOCARPUS</i>	Ninebark
<i>europaea</i>	Common Olive	<i>PICEA</i>	Spruce
<i>paniculata</i>	Olive	<i>glauca</i>	White spruce
		<i>marina</i>	Black spruce

PIMPINELLA	Riceflower	PLUMERIA	Temple tree
<i>saxifraga</i>	Anise	POLYSCIAS	
PINUS	Pine	<i>fulva</i>	Parasol tree
<i>banksiana</i>	Jack pine	POPULUS	Poplar
<i>caribaea</i>	Slash pine	<i>alba</i>	White poplar
<i>contorta</i>	Lodgepole pine	<i>balsamifera</i>	Balsam poplar
<i>contorta</i> var. <i>latifolia</i>	Lodgepole pine	<i>deltoides</i>	Eastern cottonwood
<i>echinata</i>	Shortleaf pine	<i>fremontii</i>	Fremont cottonwood
<i>edulis</i>	Pinyon pine	<i>gileadensis</i>	Balm-of-Gilead
<i>griffithii</i>	Himalayan pine	<i>grandidentata</i>	Bigtooth aspen
<i>halepensis</i>	Aleppo pine	<i>nigra</i>	Black poplar
<i>jeffreyi</i>	Jeffrey pine	<i>tremuloides</i>	Quaking aspen
<i>laricio</i>	Black pine	PORLIERIA	
<i>maritima</i>	Corsican pine	<i>lorentzii</i>	Soap bush\Guayacán
<i>massoniana</i>	Red pine	POTENTILLA	Cinquefoil
<i>mitis</i>	Shortleaf pine	POTERIUM	Sea holly
<i>monophylla</i>	Singleleaf pine	PROSOPIS	Mesquite
<i>mugo</i>	Mugo pine	<i>alba</i>	Mesquite
<i>nigra</i>	Austrian pine	<i>algarobilla</i>	Mesquite
<i>patula</i>	Mexican yellow pine	<i>glandulosa</i>	Honey mesquite
<i>ponderosa</i>	Ponderosa\Yellow pine	<i>glandulosa</i> var. <i>torreyana</i>	
<i>radiata</i>	Monterey pine	Torrey\Western honey mesquite	
<i>resinosa</i>	Red pine	<i>juliflora</i>	Honey mesquite
<i>rigida</i>	Pitch pine	PROTEA	Sugar bush
<i>serotina</i>	Pond pine	PRUNUS	Cherry\Plum
<i>strobos</i>	Eastern white pine	<i>americana</i>	Domestic plum
<i>sylvestris</i>	Scotch pine	<i>amygdalus</i>	Almond tree
<i>taeda</i>	Loblolly pine	<i>armeniaca</i>	Apricot
<i>thunbergiana</i>	Japanese Black pine	<i>avium</i>	Bird cherry
PIPER	Pepper	<i>cerasus</i>	Sour cherry
PISTACIA	Pistachio	<i>demissa</i>	Western chokecherry
<i>chinensis</i>	Pistachio	<i>domestica</i>	Garden plum
<i>lentiscus</i>	Mastic tree	<i>emarginata</i>	Bitter cherry
<i>terebinthus</i>	Cyprus\Turpentine	<i>fasciculata</i>	Desert almond
PITHECELLOBIUM	Blackbead	<i>ilicifolia</i>	Hollyleaf cherry
<i>flexicaule</i>	Texas-ebony	<i>maritima</i>	Beach cherry
<i>lanceolatum</i>	Blackbead	<i>padus</i>	Bird cherry
<i>saman</i>	Rain tree	<i>pensylvanica</i>	Pin cherry
PLATANUS	Sycamore	<i>persica</i>	Peach
<i>lindeniana</i>	Plane	<i>puddum</i>	Wild black cherry
<i>occidentalis</i>	American plane-tree	<i>salicina</i>	Japanese plum
<i>orientalis</i>	Oriental sycamore	<i>serotina</i>	Wild black cherry
		<i>spinosa</i>	Blackthorn\Sloe

<i>virginiana</i>	Chokecherry	<i>kelloggii</i>	California black oak
<i>PSEUDOTSUGA</i>	Douglas-fir	<i>laevis</i>	Turkey oak
<i>menziesii</i>	Douglas-fir	<i>lobata</i>	Valley oak
<i>PSIDIUM</i>	Guava	<i>tyrata</i>	Overcup oak
<i>guajava</i>	Common guava	<i>macrocarpa</i>	Bur oak
<i>PTEROCARPUS</i>	Mukwa	<i>marilandica</i>	Blackjack oak
<i>PTEROCARYA</i>	Wing nut	<i>michauiii</i>	Swamp chestnut oak
<i>stenoptera</i>	Chinese wing nut	<i>muehlenbergii</i>	Chinkapin oak
<i>PUNICA</i>	Pomegranate	<i>myrtifolia</i>	Myrtle oak
<i>PURSHIA</i>		<i>nigra</i>	Water oak
<i>tridentata</i>	Antelope bitter brush	<i>nuttallii</i>	Nuttall oak
<i>PYRACANTHA</i>	Firethorn	<i>oblongifolia</i>	Mexican blue oak
<i>PYRUS</i>	Pear	<i>palustris</i>	Pin oak
<i>americana</i>	American mountain ash	<i>pedunculata</i>	English oak
<i>communis</i>	Pear	<i>petraea</i>	Durmast oak
<i>coronaria</i>	American crab apple	<i>phellos</i>	Willow oak
<i>malus</i>	Apple	<i>pini</i>	Chestnut oak
<i>pyrifolia</i>	Oriental pear	<i>prinoides</i>	Dwarf chestnut oak
<i>QUAMOCЛИT</i>		<i>prinus</i>	Chestnut oak
<i>setosa</i>	Bindweed	<i>robur</i>	English oak
<i>QUERCUS</i>	Oak	<i>rubra</i>	Northern red oak
<i>agrifolia</i>	Coast live oak	<i>serrata</i>	Konara oak
<i>alba</i>	White oak	<i>shumardii</i>	Shumard red oak
<i>aliena</i>	Oriental white oak	<i>shumardii</i> var. <i>texana</i>	Texas oak
<i>arizonica</i>	Arizona white oak	<i>stellata</i>	Post oak
<i>bicolor</i>	Swamp white oak	<i>texana</i>	Texas red oak
<i>cerris</i>	Turkey oak	<i>turbanella</i>	Shrub live oak
<i>chihuahuensis</i>	Chihuahua oak	<i>undulata</i>	Wavy leaf oak
<i>coccinea</i>	Scarlet oak	<i>velutina</i>	Black oak
<i>dentata</i>	Daimyo oak	<i>virginiana</i>	Live oak
<i>dilatata</i>	Green oak of the Himalaya	<i>QUISQUALIS</i>	
<i>dumosa</i>	California scrub oak	<i>indica</i>	Rangoon creeper
<i>emoryi</i>	Emory oak	<i>RHAMNUS</i>	Buckthorn
<i>falcata</i>	Southern red oak	<i>alnifolia</i>	Alder-leaved buckthorn
<i>fusiformis</i>	Texas live oak	<i>californicus</i>	California coffee-berry
<i>gambelii</i>	Gambel oak	<i>crocea</i>	Hollyleaf buckthorn
<i>glandulifera</i>	Konara oak	<i>frangula</i>	Alder buckthorn
<i>grisea</i>	Gray oak	<i>prunoides</i>	Buckthorn
<i>havardii</i>	Shin\Havard oak	<i>purshiana</i>	Cascara
<i>ilex</i>	Holly\Holm oak	<i>RHAPIS</i>	Lady palm
<i>ilicifolia</i>	Bear oak	<i>RHIZOPHORA</i>	Mangrove
<i>imbricaria</i>	Shingle oak	<i>mangle</i>	American mangrove
<i>incana</i>	Grey oak	<i>RHODODENDRON</i>	Azalea

RHUS		RUBUS	
<i>angustifolia</i>	Sumac	<i>allegheniensis</i>	Bramble
<i>aromatica</i>	Bastard willow	<i>idaeus</i>	Sow-teat blackberry
<i>cismontana</i>	Fragrant sumac	<i>occidentalis</i>	Wild red raspberry
<i>copallina</i>	Mountain sumac	<i>ubnifolius</i>	Black raspberry
<i>crenata</i>	Dwarf\Winged sumac		Blackberry\Deberry
<i>glabra</i>	Bastard willow	RUMEX	Sorrel
<i>integrifolia</i>	Smooth sumac	SALIX	Willow
<i>laevigata</i>	Mahogany sumac	<i>alba</i>	European white willow
<i>lancea</i>	Bastard willow	<i>babylonica</i>	Weeping willow
<i>laurina</i>	Bastard Willow	<i>caprea</i>	Sallow/Goat willow
<i>longifolia</i>	Laurel sumac	<i>discolor</i>	Pussy willow
<i>lucida</i>	Bastard willow	<i>exigua</i>	Sandbar willow

<i>radicans</i>	Littleleaf sumac	<i>hindsiana</i>	Valley willow
<i>tomentosa</i>	Poison ivy	<i>humilis</i>	Prairie willow
<i>toxicodendron</i>	Bastard willow	<i>interior</i>	Sandbar willow
<i>trilobata</i>	Poison ivy	<i>lasiolepis</i>	Arroyo willow
<i>typhina</i>	Skunk-brush	<i>longifolia</i>	Sandbar willow
<i>verniciflua</i>	Staghorn sumac	<i>lucida</i>	Shining willow
<i>villosa</i>	Wax tree	<i>viminalis</i>	Basket willow
RHYNCHOSIA		SALVIA	Sage
<i>reticulata</i>	Bastard willow	SAMBUCUS	Elderberry
RIBES	Kanacabtonot	<i>canadensis</i>	American elderberry
<i>alpinum</i>	Gooseberry\Currant	<i>pubens</i>	American red elderberry
<i>americanum</i>	Alpine currant	<i>racemosa</i>	European red elderberry
<i>cereum</i>	Black currant	SAPINDUS	Soapberry
<i>cynosbati</i>	Wax currant	<i>saponaria</i>	Wingleaf soapberry
<i>floridum</i>	Pasture gooseberry	SAPIUM	
<i>grossularia</i>	American black currant	<i>biloculare</i>	Mexican jumping-bean
<i>lacustre</i>	English gooseberry	<i>sebiferum</i>	Chinese tallow-tree
<i>nigrum</i>	Swamp currant	SARCOSTEMMA	
<i>rubrum</i>	Black currant	<i>brevistigma</i>	Soom
<i>sativum</i>	Red currant	SASSAFRAS	
RICINUS	Common currant	<i>albidum</i>	Sassafras
<i>communis</i>		SCHEFFLERA	Umbrella tree
ROBINIA	Castor-oil bean	SCHINUS	Peppertree
<i>neomexicana</i>	Locust	<i>molle</i>	California peppertree
	New Mexico black locust	<i>terebinthifolius</i>	Brazil peppertree
<i>pseudoacacia</i>		SCHLEICHERA	
	Black locust\False acacia	<i>oleosa</i>	Gum-lac\Ceylon oak
ROSA		SCHOTIA	
<i>multifolia</i>	Rose	<i>brachypetala</i>	Tree Fuchisa
	Rose	<i>speciosa</i>	Boerboon

<i>SCLERIA</i>			
<i>rehmanii</i>	Sedge		Purple mombin
<i>SCLEROARYA</i>	Marula		Cat's tail grass
<i>caffra</i>	Wild mango		Alkali sacaton
<i>SENECIO</i>	Groundsel		Snowbell
<i>deltoides</i>	Ragwort		American snowbell
<i>SERENOA</i>	Saw palmetto		Mahogany
<i>SESBANIA</i>			West Indian mahogany
<i>grandiflora</i>	Agati\Rattlebox		Snowberry
<i>SETARIA</i>			Snowberry
<i>viridis</i>	Bristle grass		Creeping snowberry
<i>SHEPHERDIA</i>	Buffaloberry		Mountain snowberry
<i>argentea</i>	Silver buffaloberry		Roundleaf snowberry
<i>canadensis</i>	Soapberry		Sweetleaf
<i>SHOREA</i>	Sal		Asiatic sweetleaf
<i>SIDEROXYLON</i>			Lilac
<i>inerme</i>	Milkwood		Common lilac
<i>SIMMONDSIA</i>	Jojoba		Swamp peach
<i>SITANION</i>	Squirretail		Malay apple
<i>jubatum</i>	Big squirreltail		Water-berry tree
<i>SOLANUM</i>	Nightshade		Trumpet tree
<i>hazennii</i>	Nightshade		Guayacán
<i>tuberosum</i>	Potato		Palo de rosa
<i>variabile</i>	Nightshade		Tamarind
<i>SORBUS</i>	Mountain ash		Tamarisk\Salt cedar
<i>americana</i>	American mountain ash		French tamarisk
<i>SPARTIUM</i>			Cypress
<i>juncinum</i>	Spanish broom		Bald cypress
<i>SPATHODEA</i>			Teak
<i>campanulata</i>	Flame tree\African tuliptree		Assegai wood
<i>SPIRAEA</i>	Meadowsweet		Myrobalan
<i>alba</i>	Meadow spiraea		Indian almond
<i>betulifolia</i> var. <i>corymbosa</i>	Dwarf spiraea		Horsebrush
	Meadowsweet		Cotton thorn
<i>latifolia</i>	Meadowsweet		Littleleaf horsebrush
<i>menziesii</i>	Menzies spiraea		Shortspine horsebrush
<i>salicifolia</i>	Willowleaf spiraea		
<i>tomentosa</i>	Hardhack		
<i>SPIROSTACHYS</i>			
<i>africana</i>	Sandal wood\Tambootie		Digluttie
<i>SPONDIAS</i>	Hogplum		Dighlate
<i>mombin</i>	Yellow mombin		Sonhalloo
			Sualu tree
			Mezankuri
<i>purpurea</i>			
<i>SPOROBOLUS</i>			
<i>airoides</i>			
<i>STYRAX</i>			
<i>americana</i>			
<i>SWIETENIA</i>			
<i>mahogani</i>			
<i>SYMPHORICARPOS</i>			
<i>albus</i>			
<i>mollis</i>			
<i>oreophilus</i>			
<i>rotundifolius</i>			
<i>SYMPLOCOS</i>			
<i>crategoides</i>			
<i>SYRINGA</i>			
<i>vulgaris</i>			
<i>SYZYGIUM</i>			
<i>aqueum</i>			
<i>malaccense</i>			
<i>owariense</i>			
<i>TABEBUIA</i>			
<i>argentea</i>			
<i>rosea</i>			
<i>TAMARINDUS</i>			
<i>TAMARIX</i>			
<i>gallica</i>

INDEX TO SATURNIID GENERA AND SPECIES

Principle entries are listed in **boldface**.

The use of a hyphen “-” between two page numbers following a species indicates reference to that species is found on all those pages.

- abasia* **20**, 85
acetes **28**, 58, 75
achelous **29**, 90
Actias ii, **1**, 38, 39, 43-46, 48, 49, 51-54, 56, 58, 60, 63, 64, 68-72, 74-78,
81-94, 98-101, 103, 104
acuta (*Hylesia*) **12**, 26, 51, 86, 94
acutissima (*Leucanella*) **28**, 90
Adelocephala **2**
Adeloneivai **2**, 36, 43, 69, 73, 76, 87, 92
Adelowalkeria **2**, 74, 76
Adetomeris **2**, 64, 65, 75, 83, 89, 90, 92
Agapema **2**, 54, 57, 72, 73, 83, 89-92
Aglia **2**, 43-45, 49, 52, 53, 58, 64, 69, 70, 82, 86-88, 92, 99
agomensis **23**, 48, 50, 70, 76, 83, 100, 101
albida (*Epiphora*) **19**, 64, 79

INDEX TO SATURNIID FOODPLANTS

Principle entries are listed in **boldface**.

The use of a hyphen “-” between two page numbers following a species indicates reference to that species is found on all those pages.

- Abies* 9, 18, 25, **43**, 117
abyssinica 37, **62**
Acacia 2, 12, 14, 20, 21, 23, 26, 27, 29, 32, 33, 36, 37, **43**, 117
Acalypha 14, **43**, 117
acanthopodium 1, 34, **103**
Acer 1-3, 5, 9, 10, 12, 13, 17, 18, 21, 22, 24, 25, 28, 33, 35, **43**, 117
ACERACEAE **43**, 77
aceroides 24, **77**
Acocanthera 27, 28, **44**
Actinodaphne 12, **44**
actinophylla var. *arboricola* 8, 50
aculeata 26, **51**
acuminata (*Ceiba*) 12, **54**
acuminata (*Magnolia*) 13, **74**
acuminata (*Plumeria*) 34, **82**
acuta (*Quercus*) 12, **86**
acutifolius 15, **73**
acutissima (*Quercus*) 6, 12, 33, **86**
Adenostoma 22, **44**, 117
Adesmia 28, **44**
Adinandra 1, **44**
adinocephala 36, **45**
Aesculus 12, 18, 35, **44**, 117
aethiopica 29, **102**
affinis 27, **83**
Aframomum 20, 21, 31, **44**
africana (*Burkea*) 14, 20, 33, **51**
africana (*Cordylia*) 6, **58**
africana (*Schmidelia*) 37
africana (*Spirostachys*) 6, **97**
africanum 8, **79**, 124
africanus (*Allophylus*) 37, **45**
africanus (*Eriocephalus*) 37, **62**
Agauria 37, **44**
agavifolium 20, **62**
agrifolia 2, 16, 23, **87**, 126
Agropyron 23, **45**, 117

- Ailanthus* 6, 7, 33, 34, 38, 45, 117
airoides 23, 97, 128
alata (*Cassia*) 31, 53, 119
alata (*Crescentia*) 10, 59
alata (*Terminalia*) 5, 98
alata (*Ulmus*) 18, 101, 129
alatum 1, 34, 103
alba (*Betula*) 2, 5, 18, 24, 49, 118
alba (*Lawsonia*) 1, 34, 71, 123
alba (*Melilotus*) 9, 75, 123
alba (*Morus*) 25, 76, 124
alba (*Populus*) 31, 82, 125
alba (*Prosopis*) 10, 83, 125
alba (*Quercus*) 3-5, 10, 11, 24, 87, 126
alba (*Salix*) 5, 24, 25, 92, 127
alba (*Spiraea*) 35, 96, 128
alba var. *laciniata* (*Betula*) 18, 49
albida (*Faidherbia*) 13, 64
albidum 5, 7, 9, 10, 13, 14, 18, 24, 34, 94, 127
albidum var. *molle* 9, 14, 18, 24, 94
Albizia 8, 13, 17, 20, 32, 36, 45, 117
albocincta 3, 87
albortum 14, 85
album 17, 51
albus 9, 22-24, 40, 97, 128
Alchornea 32, 45
Aleurites 7, 14, 27, 45, 117
algarobilla 28, 83, 125
aliena 33, 87, 126
alleghaniensis 24, 49, 118
allegheniensis 3, 9, 22, 24, 92, 127
alliodora 8, 11, 26, 58, 120
Allophylus 26, 37, 45, 117
alnifolia (*Amelanchier*) 25, 46, 117
alnifolia (*Maesa*) 27, 74
alnifolia (*Rhamnus*) 22, 89, 126
alnooides 4, 5, 49, 118
Alnus 1, 3, 5, 18, 24, 25, 35, 36, 41, 45, 117
Aloe 14, 45
alpinum 2, 25, 26, 90, 127
alpinus 35, 47, 118
Alstonia 7, 46, 117
Althaea 34, 46, 117

- altissima (Ailanthus)* 6, 7, 33, 34, 45, 122
altissima (Hymenaea) 36, 68
amara 5, 52
Amelanchier 5, 21, 22, 24, 25, 40, 46, 117
americana (Carpinus) 5, 24, 52, 119
americana (Corylus) 5, 24, 58, 120
americana (Fraxinus) 13, 34, 65, 121
americana (Larix) 41
americana (Persea) 7-10, 15, 16, 26, 31, 79, 124
americana (Prunus) 24, 83, 125
americana (Pyrus) 24, 85, 126
americana (Sorbus) 24, 96, 128
americana (Styrax) 13, 97, 128
americana (Tilia) 5, 9, 13, 18, 24, 99, 129
americana (Ulmus) 5, 18, 24, 101, 129
americanum 24, 90, 127
Amomum 20, 21, 46
Amorpha 9, 10, 46, 117
AMPELIDACEAE 20, 104
Ampelopsis 29, 46
amurensis 33, 79
Amygdalus 14, 35, 46
amygdalus (Prunus) 1, 30, 35, 83, 125
ANACARDIACEAE x, 14, 30, 34, 46, 48, 67, 71, 73, 75, 78, 81, 89, 94, 95, 97, 104
Anacardium 14, 16, 26, 27, 46, 117
anagyroides 28, 32, 71, 123
Andromeda 1, 12, 46, 117
Andropogon 23, 46, 117
angustifolia (Elaeagnus) 25, 61, 120
angustifolia (Forestiera) 20, 21, 65, 121
angustifolia (Kalmia) 25, 70, 122
angustifolia (Rhus) 27, 89, 127
angustissima 36, 37, 43, 117
Anisophyllea 28, 46
Annona 6-8, 11-13, 20, 27, 29, 31, 32, 46, 117
ANNONACEAE 46, 51, 102
annuum 5, 52, 119
Anogeissus 4, 47, 117
APIACEAE 20, 47, 57, 62, 80, 95, 104
Apium 34, 47, 117
APOCYNACEAE 44, 46, 52, 60, 68, 77, 82, 97
Apodytes 28, 47, 117

- aquea* 16, 63
aqueum 7, 98, 128
AQUIFOLIACEAE 14, 69, 77, 104
arabica 7, 57
araca 14, 85
ARALIACEAE 50, 59, 67, 78, 82, 94
arborea (*Careya*) 4, 16, 52
arborea (*Gmelina*) 34, 66, 122
arboreum 14, 78, 124
arboreus 9, 26, 74, 123
arbutifolia (*Aronia*) 24, 47, 118
arbutifolia (*Photinia*) 25, 80, 124
Arbutus 5, 15, 25, 35, 36, 47, 118
Arctostaphylos 15, 21, 22, 25, 35, 36, 39, 41, 42, 47, 118
Ardisia 7, 31, 47
ARECACEAE 69, 89, 95
argentea (*Elaeagnus*) 25, 61, 120
argentea (*Miconia*) 31, 76, 123
argentea (*Shepherdia*) 25, 95, 128
argentea (*Tabebuia*) 10, 98, 128
arguta 26, 53
arizonica 3, 22, 87, 126
arjuna 5, 98
armeniaca 1, 2, 12, 33-35, 83, 125
aromatica var. *flabelliformis* 21, 90
Aronia 24, 47, 118
Artemisia 7, 22, 37, 47, 118
Artocarpus 7, 8, 17, 48, 118
ASCLEPIADACEAE 94
asiatica (*Berberis*) 7, 8, 49, 74
asiatica (*Malus*) 1, 74
ASTERACEAE 47, 48, 50, 62, 63, 71, 76, 95, 98, 99, 101, 103
Astronium 18, 31, 48, 118
atrolineata 11, 95
atropurpurea 29, 77
AURANTEACEAE 33, 104
aurantium 9, 56, 120
auritum 2, 26, 31, 73, 123
avellana 2, 9, 35, 58, 120
Averrhoa 1, 7, 48, 118
avium 22, 25, 35, 83, 125
axillaris 21, 99, 128
Azadirachta 1, 34, 48, 118

- azedarach* 37, 75, 123
babylonica 1, 5, 10-12, 16, 18, 20, 22, 23, 25, 26, 31-33, 35, 36, 41, 92, 127
Baccharis 33, 48
baileyana 26, 36, 37, 43, 117
balsamea 9, 25, 43, 117
balsamifera 9, 24, 82, 125
Banisteriopsis 26, 48
banksiana 18, 19, 80, 125
Baptisia 5, 9, 48, 118
barbatus 29, 57, 120
BARRINGTONIACEAE 52
Bassia 4, 5, 48, 118
batatas 7, 69, 122
Bauhinia 4, 9, 11, 20, 23, 26, 27, 29, 32, 48, 118
baxteri 30, 62, 121
bellirica 5, 98, 128
benjamina 5, 9, 26, 65, 121
benzoin 13, 18, 34, 72, 123
BERBERIDACEAE 49
Berberis 7, 8, 13, 24, 26, 28, 34, 38, 49, 118
berlandierana 35, 65, 121
Berlinia 13, 20, 21, 27, 29, 32, 49, 118
Betula 1-5, 7, 9, 12, 13, 18, 20-22, 24, 25, 27, 28, 30, 35, 49, 118
BETULACEAE 45, 49, 52, 58, 78
betulifolia var. *corymbosa* 24, 96
betuloides 10, 11, 22, 23, 35, 55, 119
betuloides var. *blancheri* 10, 55
betulus 2, 4, 7, 29, 34, 52, 119
bicolor (*Quercus*) 3, 87, 126
bicuhyba 33, 102
biflora 10, 11, 26, 31, 53
biglandulosa 14, 64
biglobosa 8, 78, 124
BIGNONIACEAE 34, 53, 55, 59, 96, 98, 104
bilimbi 1, 48, 118
biloba 12, 66
bilobulare 20, 34, 93, 127
birrea 6, 20, 95
Bischofia 7, 17, 49, 118
Bixa 14, 49, 118
BIXACEAE 49
blakelyi 30, 62, 121
blanda 24, 91

- blumei* 29, 57, 120
boaria 2, 31, 75
BOMBACACEAE 50, 54, 56
Bombacopsis 6, 12, 26, 31, 37, 50
Bombax 4, 6, 17, 37, 50, 118
bombycina 4, 74, 123
BORAGINACEAE 58
borbonia 8, 79, 124
borealis 21, 76, 124
botryoides 30, 62
Bouteloua 22, 23, 50, 118
Brachylaena 29, 50
Brachyotum 16, 50
brachypetala 20, 94, 127
Brachystegia 7, 13, 20, 21, 23, 27-30, 32, 50, 118
bracteolata 20, 28, 32, 100
brasalita 36, 67
brasiliensis (*Caryocar*) 14, 53
brasiliensis (*Hevea*) 33, 68, 122
brasiliensis (*Lithrea*) 15, 73
brasiliensis (*Machaerium*) 2, 74
Brassaia 8, 50, 118
brevipedunculata 29, 46
brevistigma 4, 7, 94, 127
Bridelia 11, 32, 50
bridgesiana 30, 62, 121
Bromus 23, 51, 118
Brosimum 8, 51
buchanani 8, 81
Buchloe 23, 51, 118
bungei 12, 53
buniifolium 34, 63
burchelli 21, 61
Burkea 14, 20, 33, 51, 118
Bursera 14, 18, 22, 26, 51, 118
BURSERACEAE 32, 37, 51, 57, 104
BUXACEAE 96
Byrsonima 26, 51, 118
Byttneria 26, 51, 118
cacao 7, 8, 27, 99, 129
CACTACEAE 78
CAESALPINIACEAE 32
caespitosum 23, 68, 122

- caffra (Erythrina)* 37, 62
caffra (Sclerocarya) 6, 20, 37, 95, 128
caffrum 11, 67, 122
calabura 26, 76, 124
calceolaris 5, 89
californica (Artemisia) 37, 47, 118
californica (Dalea) 21, 60, 120
californica (Fremontia) 21, 35, 37, 47, 60, 65
californica (Vitis) 22, 102
californicus 2, 21, 25, 89, 126
californicus var. *tomentella* 25, 89
calleryana 35, 86
Calliandra 26, 51, 118
Calluna 35, 51, 118
caloneura 19, 61
calpodendron 24, 58, 120
Calycophyllum 11, 14, 26, 31, 51, 118
camara 7, 11, 26, 71, 123
Camellia 7
campanulata 7, 23, 96, 128
campesiris 32, 35, 36, 101, 129
camphora 1, 4, 5, 7, 8, 12, 13, 16, 19, 35, 56, 119
camphoratus 29, 98
cana (Artemisia) 22, 47, 118
canadense 25, 89
canadensis (Amelanchier) 5, 24, 46, 117
canadensis (Cercus) 9-11, 55, 119
canadensis (Gymnocladus) 36, 67, 122
canadensis (Nemopanthus) 25
canadensis (Rhodora) 25
canadensis (Rubus) 9, 92
canadensis (Sambucus) 18, 24, 93, 127
canadensis (Shepherdia) 25, 95, 128
canadensis (Tsuga) 18, 25, 100, 129
Cananga 7, 8, 51, 118
Canarium 1, 7, 16, 17, 51, 119
candidissimum 11, 14, 26, 31, 51, 118
CANELLACEAE 102
Canthium 4, 52
capensis (Gramilea) 32, 67
capensis (Pappea) 13, 78, 124
CAPPARIDACEAE 74
caprea 1, 92, 127

- CAPRIFOLIACEAE x, 60, 73, 93, 97, 102
Capsicum 5, 52, 119
capuli 8, 28, 84
carambola 7, 48, 118
carandas 4, 52, 119
Careya 4, 16, 52, 119
caribaea 15, 80, 125
Carica 34, 52, 119
CARICACEAE 52
Carissa 4, 13, 20, 52, 119
carolina 13, 67, 111, 122
carolinensis 9, 24, 77, 124
caroliniana 4, 5, 9, 18, 52, 119
Carpinus 1, 2, 4, 5, 7, 9, 18, 24, 29, 31, 34, 52, 119
Carya 1, 3-6, 9, 12, 14, 15, 18, 24, 52, 119
caryaefolia 37, 57
Caryocar 14, 53
CARYOCARACEAE 14, 53, 104
Casearia 26, 34, 53
caseolari 5, 75
Cassia 4, 7, 9-11, 21, 26, 28, 31, 34, 36, 53, 119
cassinoides 24, 102, 129
Castanea 1, 3-6, 12, 18, 33, 35, 53, 119
Catalpa 12, 53, 119
catalpaefolia 26, 51
catappa 5, 10, 11, 14, 30, 98, 128
cathayensis 12, 70, 122
caudatum 12, 43
cayennensis 7, 97
Ceanothus x, 10, 21, 22, 24, 25, 35, 54, 115, 119
Cecropia 8, 54
Cedrela 1, 17, 18, 54, 119
Cedrus 18, 54, 119
Ceiba 7, 12, 17, 54, 119
ceiba (Bombax) 6, 17, 50, 118
CELASTRACEAE 54, 67, 75
Celastrus 4, 54, 119
Celtis 2, 9-11, 19, 26, 28, 32, 33, 38, 54, 119
cenchroides 23, 68, 122
Centrosema 11, 55, 119
Cephalanthus 13, 14, 24, 25, 33, 34, 55, 119
Cephalaria 35, 36, 55, 119
cerasus 1, 5, 9, 22, 24, 25, 84, 125

- Cercidium* 23, 36, 55, 119
Cercis 7, 9-12, 55, 119
Cercocarpus 10, 11, 21-23, 35, 55, 119
cereum 2, 91, 127
cerifera 5, 7, 8, 18, 24, 77, 124
cerris 31, 87, 126
chamaecrista 9, 53
Chamaecyparis 18, 55, 119
CHENOPODIACEAE 48
chicle 16, 30, 75, 123
chihuahuaensis 18, 87, 126
chilensis 31, 92
Chilopsis 10, 55, 119
chinensis (*Ilex*) 6, 7, 34, 69, 122
chinensis (*Litchi*) 10, 73, 123
chinensis (*Pistacia*) 30, 81, 125
chinensis (*Simmondsia*) 22, 96
Chloris 17, 55, 119
Chlorophora 27, 55, 119
Chloroxylon 4, 55, 119
Chomelia 26, 56
choriophylla 15, 90
Chorisia 6, 12, 17, 56, 119
CHRYSOBALANACEAE 68
Chrysophyllum 8, 12, 56, 119
Cinchona 7, 16, 56, 119
cinerea (*Eucalyptus*) 30, 62, 121
cinerea (*Juglans*) 1, 5, 14, 17, 18, 34, 70, 122
Cinnamomum 1, 4, 5, 7, 8, 12, 13, 16, 17, 19, 35, 56, 119
Cipadessa 5, 56
